## **Peoples Chef Alexis Soyer A Life In Seven Courses:**

The People's Chef Ruth Brandon, 2004 This is the story of Alexis Soyer's life of the society in which he lived and of how he introduced good cuisine to England

Cake: A Slice of History Alysa Levene, 2016-02-25 If you have wondered about the stories behind the cakes made on the Great British Bake Off or the difference between a Victoria sandwich and a sponge cake especially if Mary Berry or Nigella Lawson is not to hand this is the book for you Baking has always been about memories passed down through families and Alysa Levene will take you through this compelling social history of baking My sister had three wedding cakes Rather than spend a lot of money on a traditional cake she asked our grandmother our mother and our step mother to make their signature bakes My grandmother made the rich fruit cake she always baked at Christmas My mother made a chocolate sponge which we called Queenie's Chocolate Cake after the great aunt who gave her the recipe it appeared at almost every one of our birthdays in one guise or another And finally my step mother made chocolate brownies Nigella Lawson's recipe if you'd like to know whose sticky pleasurable unctuousness is fully explained by the amount of butter they contain In our family as in many others these familiar cakes are the makers of memories My siblings and I took this idea into our adult lives and now bake for our own families But it wasn't until I developed an interest in the history of food that I started to think about the deeper significance of these tasty treats What does cake mean for different people How have we come to have such a huge variety of cakes What had to happen historically for them to appear And what can they tell us about the family and women's roles in particular I wrote this book to find out the answers What follows is a journey from King Alfred to our modern day love of cupcakes via Queen Victoria's patriotic sandwich the Southern States of America slavery and the spice trade to the rise of the celebrity chef and so much more

*Spicing up Britain* Panikos Panayi, 2008-04-15 Among the cuisines of Europe Britain's has long been regarded as the black sheep kippers jellied eels and blood pudding rarely elicit the same fond feelings as chocolate mousse or pasta primavera Despite these unsavory stereotypes British cuisine is anything but unremarkable today Panikos Panayi reveals in this fascinating study that British cuisine has been transformed and enriched by diverse international influences The last thirty years have seen immigrants flood British shores but *Spicing Up Britain* reveals that foreign influences have been infusing British cuisine for the past 150 years From the arrival of Italian ice cream vendors and German butchers in the nineteenth century to the British curry that permeates dishes today Panayi chronicles the rich and fascinating social history behind the rise of a truly multicultural cuisine The author argues that Britons' eating habits have been reshaped by immigration globalization and increased wealth and he explores how other cultures have woven themselves into British society through the portal of food whether Anglo Indian fusion dishes like chicken tikka masala New British cuisine restaurants or the popular home cooked dish of spaghetti bolognese Panayi reveals how these changes in British cuisine shed light on the role of multiculturalism in the construction of modern British identity Britain is a diverse nation in which different peoples are united by willingness to sample the foods

produced by other ethnic groups but those ethnic groups are at the same time ghettoized by not moving beyond their own culinary traditions A comprehensive and engaging investigation *Spicing Up Britain* serves up delicious new facets of food in Britain today

**Ugly Beauty** Ruth Brandon,2011-02-01 From acclaimed novelist and cultural historian Ruth Brandon comes a captivating dual biography of the legendary founders of the cosmetics industry Helena Rubinstein and Eugene Schueller creator of L'Oréal Brandon's gripping and sometimes disturbing story of gender power and politics stretches back from the darkest days of World War II to the emergence of the modern fashion and makeup industries with magazines such as *Vogue* and *Cosmopolitan* and game changing product lines such as Avon and Mary Kay *Ugly Beauty* resonates as well with its implications for modern culture as we enter an era when haute couture and cosmetology exert an ever more powerful influence upon society at large

**An Immigration History of Britain** Panikos Panayi,2014-09-11 Immigration ethnicity multiculturalism and racism have become part of daily discourse in Britain in recent decades yet far from being new these phenomena have characterised British life since the 19th century While the numbers of immigrants increased after the Second World War groups such as the Irish Germans and East European Jews have been arriving settling and impacting on British society from the Victorian period onwards In this comprehensive and fascinating account Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms Consequently he tackles the contradictions in the history of immigration over the past two centuries migration versus government control migrant poverty versus social mobility ethnic identity versus increasing Anglicisation and above all racism versus multiculturalism Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain

*Fishes with Funny French Names* Debra Kelly,2021-12-02 This book tells the story of what happens when an essentially Parisian institution travels and establishes itself in its neighbour's capital city bringing with it French food culture and culinary practices The arrival and evolution of the French restaurant in the British capital is a tale of culinary and cultural exchange and of continuity and change in the development of London's dining out culture Although the main character of this story is the French restaurant this cultural history also necessarily engages with the people who produce purvey purchase and consume that food culture in many different ways and in many different settings in London over a period of some one hundred and fifty years British references to France and to the French are littered with associations with food whether it is desired rejected admired loathed envied disdained from the status of haute cuisine and the restaurants and chefs associated with it to contemporary concerns about food poverty and food waste to dietary habits and the politicisation of food and at every level in between However thinking about the place of the French restaurant in London restaurant and food culture over a long time span in many and varied places and spaces in the capital creates a more nuanced picture than that which may at
