Wolt Cooperation Strategy with its Couriers before and after the Covid 19 Pandemic Ekundayo Bello, 2024-05-15 Master s
Thesis from the year 2024 in the subject Business economics Business Management Corporate Governance grade 2 course
Master in International Business language English abstract The objective of this study is to provide recommendations on how
to improve the cooperation between Wolt and its courier partners during and after the Covid 19 crisis based on the views and
opinions expressed by the courier partners in Tallinn The views and opinions of Wolt s courier partners on actions and
strategies implemented by Wolt during the pandemic and preferred relationship status will be used to make suggestions on
how to improve the cooperation between the two parties According to Statista an online database food delivery platforms
along with other service sector businesses in Estonia contributed significantly to GDP over 61% from 2009 to 2019 Moreover
the global turnover of 151 526 million in 2021 was forecast in the sector Online Food Delivery with China expected to
generate the highest turnover and the estimated turnover for Estonia in 2021 is 20 million Statista 2020 1 Wolt one of the
largest e residency companies in Estonia contributes significantly to the Estonian economy by paying social contributions on
behalf of its individual courier partners and paying business courier partners a higher commission to compensate for their
tax expenses By the last quarter of 2020 Wolt has paid up to EUR 300 000 in taxes for its courier partners in Estonia

Therefore the continued survival and profitability of online food delivery platforms in Estonia is important for the well being of citizens As the hardship caused by the pandemic continues to transform almost all aspects of human life worldwide the role of online food delivery companies in providing consumers with prepared food cannot be overstated Dying for a Paycheck Jeffrey Pfeffer,2018-03-20 In one survey 61 percent of employees said that workplace stress had made them sick and 7 percent said they had actually been hospitalized Job stress costs US employers more than 300 billion annually and may cause 120 000 excess deaths each year In China 1 million people a year may be dying from overwork People are literally dying for a paycheck And it needs to stop In this timely provocative book Jeffrey Pfeffer contends that many modern management commonalities such as long work hours work family conflict and economic insecurity are toxic to employees hurting engagement increasing turnover and destroying people s physical and emotional health and also inimical to company performance He argues that human sustainability should be as important as environmental stewardship You don t have to do a physically dangerous job to confront a health destroying possibly life threatening workplace Just ask the manager in a senior finance role whose immense workload once handled by several employees required frequent all nighters leading to alcohol and drug addiction Or the dedicated news media producer whose commitment to getting the story resulted in a sixty pound weight gain thanks to having no down time to eat properly or exercise Or the marketing professional prescribed antidepressants a week after joining her employer In Dying for a Paycheck Jeffrey Pfeffer marshals a vast trove of evidence and numerous examples from all over the world to expose the infuriating truth about modern work life even as organizations allow management practices that literally sicken and kill their employees those policies do not enhance productivity or the bottom line thereby creating a lose lose situation Exploring a range of important topics including layoffs health insurance work family conflict work hours job autonomy and why people remain in toxic environments Pfeffer offers guidance and practical solutions all of us employees employers and the government can use to enhance workplace wellbeing We must wake up to the dangers and enormous costs of today s workplace Pfeffer argues Dying for a Paycheck is a clarion call for a social movement focused on human sustainability Pfeffer makes clear that the environment we work in is just as important as the one we live in and with this urgent book he opens our eyes and shows how we can make our workplaces healthier and better
