definition of and medicine and in different jurisdictions and categories of medicines and manufacturing and importation regulation in numerous jurisdictions worldwide and inspection regimes and good manufacturing practice GMP and marketing authorization and manufacturing documentation and complaints and product recall and liability insurance and protection of trade secrets and data exclusivity and data protection and deficiencies and delays and and recognition and enforcement of judgements A significant part of the book is devoted to cross border problems arising from such matters as conflict of laws or taxation Indispensable to counsel for pharmaceutical companies of any size Contract Manufacturing of Medicines will also be of great value to practitioners and academics concerned with international trade for its precise in depth delineation of the inner workings of a complex and highly significant trade regime

### **New Property in International Law**

Jean Ho, 2024-10-04 Until now the definition of property in

international law has been poorly addressed It is assumed that international law possesses sufficient content to regulate property that provisions in international instruments addressing property rights are shown to act and that resolutions of property disputes are claimed to be in accordance with international law Yet when asked to define key attributes of property in international law are the legal world draws a collective blank New Property in International Law examines how international law consistently falls short when it comes to new property regulation because key stakeholders have failed to define what property is The book considers and categorises new property into three areas cultural property common property and contingent property aiming to carve out update and impart coherence to international property law By sketching the contours of new property in international law through a rigorous analytical comparison of property concepts in the Western Soviet post Soviet Chinese and Islamic juristic traditions this work enables a balanced distillation of core attributes of new property from diverse property concepts that can then be woven into a broadly acceptable and broadly applicable definition     Legal Information Buyer's Guide and Reference Manual Kendall F.
