Derbyshire has a wealth of old roads lanes tracks hollow ways and paths some dating back thousands of years It is a network which links a fascinating variety of sometimes enigmatic monuments from fortified hilltops and stone circles to ruined abbeys and hermitages ancient churches and tumuli The Old Roads of Derbyshire traces the development of these roads from prehistoric ridgeways Roman streets and medieval pilgrimage routes to the growth of the turnpikes and finally to leisure use by cyclists and hikers Travellers of all kinds are included jagggers with their packhorse trains pilgrims drovers pedlars and tramps and passengers in stage coaches and wagons as well as the essential infrastructure of bridges and inns The Derbyshire Portway is explored as an example of an ancient route which was old before the Romans arrived but was used well into the eighteenth century and one that can still be followed today A detailed walking guide fully illustrated with maps and photos is provided for the sixty plus miles of its route from the River Trent near Nottingham to deep into the Dark Peak

Medieval Roads and Tracks Brian Paul Hindle, 1998 Starting with the basic concept of a road in medieval times and discussing the increasing need to travel this book explores the evidence from documents and maps that provide clues as to where the roads of medieval Britain led connecting the study of individual roads together to paint an image of the broader road network

*Roads and Tracks for Historians* Brian Paul Hindle, 2001 Many of the roads we use today are tarmaced extensions of pre existing roads and trackways and whilst some of these early roads will have been deliberately planned and built others will have developed over time by the passage of traffic over the same route Paul Hindle s history is a revised and updated version of a book long out of print Roads Tracks and their Interpretation In it he looks at the development of roads through time though focusing largely on the Roman medieval and post medieval periods and their function in facilitating the movement of people animals agricultural produce and other goods and the military Based on documentary evidence maps and fieldwork observations this is a good guide to understanding the development of the roads and tracks that criss cross Britain
