## **Peasant And Bureaucracy In Bathist Syria The Political Economy Of Rural Development:**

Peasant And Bureaucracy In Ba`thist Syria Raymond A Hinnebusch, 1989      *The Political Economy of the Middle East: Economic and political liberalisation* Tim Niblock, Rodney Wilson, 1999      Workers and Peasants in the Modern Middle East Joel Beinin, 2001-09-06 Joel Beinin's survey of subaltern history in the Middle East demonstrates lucidly and compellingly how the lives, experiences and culture of working people can inform our historical understanding. Beginning in the middle of the eighteenth century, the book charts the history of peasants, urban artisans and modern working classes across the lands of the Ottoman empire and its Muslim majority successor states, including the Balkans, Turkey, the Arab Middle East and North Africa. Inspired by the approach of the Indian Subaltern Studies school, the book is the first to offer a synthesized critical assessment of the scholarly work on the social history of this region for the last twenty years. It offers insights into the political, economic and social life of ordinary men and women and their apprehension of their own experiences. Students will find it rich in narrative detail and accessible and authoritative in presentation.      **Die arabische Welt im 20. Jahrhundert** Udo Steinbach, 2016-11-16 This history of the Arab world deals with the twentieth century from the beginning of the First World War to the outbreak of the Third Arab Revolt in 2011. The account centres on the development of all 22 member states of the Arab League. The individual discussions are set in the political, economic, cultural and religious contexts in the Arab world as a whole and also in the context of international politics since the end of the Second World War. A separate chapter is devoted to Germany's role in the Middle East. A forward look at the twenty-first century, the century of the Arabs, outlines developmental trends in a region that is currently in a state of dynamic upheaval.      Syria from Reform to Revolt Raymond Hinnebusch, Tina Zintl, 2015-01-02 When Bashar al Asad smoothly assumed power in July 2000, just seven days after the death of his father, observers were divided on what this would mean for the country's foreign and domestic politics. On the one hand, it seemed everything would stay the same: an Asad on top of a political system controlled by secret services and Baathist one-party rule. On the other hand, it looked like everything would be different: a young president with exposure to Western education who, in his inaugural speech, emphasized his determination to modernize Syria. This volume explores the ways in which Asad's domestic and foreign policy strategies during his first decade in power safeguarded his rule and adapted Syria to the age of globalization. The volume's contributors examine multiple aspects of Asad's rule in the 2000s: from power consolidation within the party and control of the opposition to economic reform, co-opting new private charities and coping with Iraqi refugees. The Syrian regime temporarily succeeded in reproducing its power and legitimacy in reconstructing its social base and in managing regional and international challenges. At the same time, contributors clearly detail the shortcomings, inconsistencies and risks these policies entailed, illustrating why Syria's tenuous stability came to an abrupt end during the Arab Spring of 2011. This volume presents the work of an international group of scholars from a variety of disciplinary backgrounds. Based on extensive fieldwork and on intimate knowledge of a country whose dynamics often seem

complicated and obscure to outside observers these scholars insightful snapshots of Bashar al Asad s decade of authoritarian upgrading provide an indispensable resource for understanding the current crisis and its disastrous consequences

*The Alawis of Syria* Michael Kerr, Craig Larkin, 2015-01-12 Throughout the turbulent history of the Levant the Alawis a secretive resilient and ancient Muslim sect have aroused suspicion and animosity including accusations of religious heresy More recently they have been tarred with the brush of political separatism and complicity in the excesses of the Assad regime claims that have gained greater traction since the onset of the Syrian uprising and subsequent devastating civil war The contributors to this book provide a complex and nuanced reading of Syria s Alawi communities from loyalist gangs Shabiha to outspoken critics of the regime Drawing upon wide ranging research that examines the historic political and social dynamics of the Alawi and the Syrian state the current tensions are scrutinised and fresh insights offered Among the themes addressed are religious practice social identities and relations to the Ba ath party the Syrian state and the military apparatus The analysis also extends to Lebanon with a focus on the embattled Alawi community of Jabal Mohsen in Tripoli and state relations with Hizballah amid the current crisis

*Politics of the Dispossessed* Hafizullah Emadi, 2001-08-30 This study provides a comprehensive analysis of state society development in the most volatile region of the world In the Middle East various anti systemic movement and radical Islam often clashed and resisted the political cultural economic and military domination of the region by the world s major imperial powers Emadi investigates state revolution and development in the Middle Eastern states of Afghanistan Iran Iraq and Syria in the immediate post World War II period Maintaining that the state is an instrument of class domination exhibiting a certain degree of autonomy in the creation and design of domestic development programs he details the role of class in an attempt to provide a better understanding of the diverse factors at work Politics of the Dispossessed provides an alternative analysis of development in regional politics and its context in world politics aspects that are generally neglected by most mainstream studies It examines state formation internal development strategies and how class conflict and ideology led to class alliance on an international basis as well as the external interference in the internal affairs of these societies It also explores the process of political and ethnic integration of the Middle East into the global economic system and the resulting counter strategies of the nationalist and Islamic resistance to the increasing superpower domination of the international system

**Statecraft in the Middle East** Imad Mansour, 2016-09-27 What role do ideas play in state building and state activity This book argues that government policies in both foreign relations and domestic politics must always be situated within a broader ideational and societal context Imad Mansour analyses how governments in the contemporary Middle East have governed internally and acted externally based on societal narratives which bring together a variety of ideas about a society s history and place in the world He argues that there is a dominant societal narrative that acts as a primary building block of statecraft where statecraft is understood as an ongoing set of local regional and global state building processes Mansour investigates the ways in which statecraft in the

Middle East has been guided by narratives through a close historical reading and comparative discussion of the political activity of six states: Egypt, Israel, Syria, Turkey, Saudi Arabia, and Iran in the second half of the twentieth century and the early twenty-first century. His book demonstrates the analytical power of narratives in understanding statecraft and explains why governments' decisions need to be understood in complex ways.

**Politics in the Middle East** James A. Bill, Robert Springborg, 1994. This work examines the issues, problems, and processes found in the politics of the region in an analytical framework. It looks at particular events which have cut across the region both chronologically and geographically. It also focuses on a number of changes in ideologies, patterns of authority, and political economies of Middle Eastern states: democracy and human rights, expanding Islamic activism, responses by governments to both these trends, substandard economic growth, and the region's high level of militarization.
