## Peasant Politics:

*Peasant Politics of the Twenty-First Century* Marc Edelman, 2024-02-15 *Peasant Politics of the Twenty First Century* illuminates the transnational agrarian movements that are remaking rural society and the world's food and agriculture systems Marc Edelman explains how peasant movements are staking their claims from farmers' fields to massive protests around the world shaping heated debates over peasants' rights and the very category of peasant within the agrarian organizations and in the United Nations Edelman chronicles the rise of these movements their objectives and their alliances with environmental human rights women's and food justice groups The book scrutinizes high profile activists and the forgotten genealogies and policy implications of foundational analytical frameworks like moral economy and concepts such as food sovereignty and civil society *Peasant Politics of the Twenty First Century* charts the struggle of agrarian movements in the face of land grabbing counter agrarian reform and a looming climate catastrophe and celebrates engaged research from Central America to the UN Human Rights Council in Geneva

**Cauldron of Resistance** Jessica M. Chapman, 2013-01-25 In 1955 Ngo Dinh Diem organized an election to depose chief of state Bao Dai after which he proclaimed himself the first president of the newly created Republic of Vietnam The United States sanctioned the results of this election which was widely condemned as fraudulent and provided substantial economic aid and advice to the RVN Because of this Diem is often viewed as a mere puppet of the United States in service of its Cold War geopolitical strategy That narrative Jessica M Chapman contends in *Cauldron of Resistance* grossly oversimplifies the complexity of South Vietnam's domestic politics and indeed Diem's own political savvy Based on extensive work in Vietnamese French and American archives Chapman offers a detailed account of three crucial years 1953 1956 during which a new Vietnamese political order was established in the south It is in large part a history of Diem's political ascent as he managed to subdue the former Emperor Bao Dai the armed Hoa Hao and Cao Dai religious organizations and the Binh Xuyen crime organization It is also an unparalleled account of these same outcast political powers forces that would reemerge as destabilizing political and military actors in the late 1950s and early 1960s Chapman shows Diem to be an engaged leader whose personalist ideology influenced his vision for the new South Vietnamese state but also shaped the policies that would spell his demise Washington's support for Diem because of his staunch anticommunism encouraged him to employ oppressive measures to suppress dissent thereby contributing to the alienation of his constituency and helped inspire the organized opposition to his

government that would emerge by the late 1950s and eventually lead to the Vietnam War      *Viet Nam* Ben Kiernan, 2017-02-17 For many Westerners the name Vietnam evokes images of a bloody televised American war that generated a firestorm of protest and brought conflict into their living rooms In his sweeping account Ben Kiernan broadens this vision by narrating the rich history of the peoples who have inhabited the land now known as Viet Nam over the past three thousand years Despite the tragedies of the American Vietnamese conflict Viet Nam has always been much more than a war Its long history had been characterized by the frequent rise and fall of different political formations from ancient chiefdoms to imperial provinces from independent kingdoms to divided regions civil wars French colonies and modern republics In addition to dramatic political transformations the region has been shaped by its environment changing climate and the critical importance of water with rivers deltas and a long coastline facilitating agricultural patterns trade and communications Kiernan weaves together the many narrative strands of Viet Nam s multi ethnic populations including the Chams Khmers and Vietnamese and its multi religious heritage from local spirit cults to Buddhism Confucianism and Catholicism He emphasizes the peoples interactions over the millennia with foreigners particularly their neighbors in China and Southeast Asia in engagements ranging from military conflict to linguistic and cultural influences He sets the tumultuous modern period marked by French and Japanese occupation anticolonial nationalism the American Vietnamese war and communist victory against the continuities evident in the deeper history of the people s relationships with the lands where they have lived In contemporary times he explores this one party state s transformation into a global trading nation the country s tense diplomatic relationship with China and developing partnership with the United States in maintaining Southeast Asia s regional security and its uncertain prospects for democracy Written by a leading scholar of Southeast Asia Viet Nam presents an authoritative history of an ancient land      **The Saturday Review of Politics, Literature, Science and Art**, 1870      **Agrarian Structure and Peasant Politics in Scandinavia** Øyvind Østerud, 1978 Peasantry and peasant politics Agrarian society and its transformation Political framework and peasant voice The agricultural revolution Peasant politics and agrarian structure      Peasant Studies, 1985      The BJP and the Compulsions of Politics in India Thomas Blom Hansen, Christophe Jaffrelot, 1998 The growth of the Hindu nationalist Bharatiya Janata Party BJP to the position as the largest political party in India in 1996 has changed the face of Indian politics This first state wide detailed study of the BJP provides a systematic and critical analysis of the dilemmas and problems of the party      **The Politics of Scarcity** Myron Weiner, 1962      Ethnicity and Peasant Struggle in Bolivia Aimee Sullivan, 1994      **Diem's Final Failure** Philip E. Catton, 2002 Catton treats the Diem government on its own terms rather than as an appendage of American policy Focusing on the decade from Dien Bien Phu to Diem s assassination in 1963 he examines the Vietnamese leader s nation building and reform efforts particularly his Strategic Hamlet Program which sought to separate guerrilla insurgents from the peasantry and build grassroots support for his regime Catton s evaluation of the collapse of that program offers fresh insights into both

Diem's limitations as a leader and the ideological and organizational weaknesses of his government while his assessment of the evolution of Washington's relations with Saigon provides new insight into America's growing involvement in the Vietnamese civil war      **Peasant and Indian** Shannan Lorraine Mattiace, 1998      **The Politics of Structural Change in Latin America** Terry L. McCoy, 1969 Case study of agrarian reform in Chile to illustrate the political aspects of social policy and economic policy in Latin America covers the role of USA the role of political parties the role of the Church and the armed forces land ownership agriculture land tenure etc CIAP mentioned References and statistical tables      **The Context of Politics in a Mexican Community** John George Corbett, 1974      Principles of Political Economy with Some of Their Applications to Social Philosophy John Stuart Mill, 1898      *Peasant Politics* Geoff Lamb, 1974 This is a study of the political sociology of class formation in Africa It examines in depth the interaction between the centre and the periphery showing the new forms of factionalism and political conflict emerging in a country of the developing world      **Peasants, Politics and Revolution** Joel S. Migdal, 2015-03-08 During the last quarter century peasant participation in politics has increased markedly in parts of Latin America and Asia Why the poor and vulnerable peasant population has chosen to leave the confines of the village for political activity and at times for sustained revolution is the question this book explores The author draws on informal interviews and observation of peasants in Mexico and India and on fifty one community studies of peasants in Asia and Latin America compiled by ethnographers in the last forty years He suggests that severe economic crises have driven peasants to roles in the larger economy outside the village where they are initially attracted to politics by material incentives Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      Manual of Political Economy Henry Fawcett (Économiste), 1883      **A Doubting Heart ...** Annie Keary, 1882
