The Ideological Foundations of Qing Taxation Taisu Zhang,2023-02-09 This survey of the fiscal history of China's last imperial dynasty explains why its ability to tax was unusually weak It argues that the answer lies in the internal ideological worldviews of the political elite rather than in external political or economic constraints *Warfare and Culture in World History* Wayne E. Lee,2011-10 It has long been acknowledged that the study of war and warfare demands careful consideration of technology institutions social organization and more But for some the so called war and society approach increasingly included everything but explained nothing because it all too often seemed to ignore the events on the battlefield itself The military historians in *Warfare and Culture in World History* return us to the battlefield but they do so through a deep examination of the role of culture in shaping military institutions and military choices Collected here are some of the most provocative recent efforts to analyze warfare through a cultural lens drawing on and aggressively expanding traditional scholarship on war and society through sophisticated cultural analysis With chapters ranging from an organizational analysis of American Civil War field armies to the soldiers culture of late Republican Rome and debates within Ming Chinese officialdom over extermination versus pacification this one volume provides a full range of case studies of how culture whether societal strategic organizational or military could shape not only military institutions but also actual battlefield choices **Oriens extremus** ,1973 Peasants Rebellions of the Late Ming Dynasty ,1970 Saeculum Weltgeschichte: Die Entdeckung der Welt durch Europa. Die Selbstbehauptung der asiatischen Kulturen. Europa im Zeichen der Rationalität ,1966 *Secondary Cities and Urban Networking in the Indian Ocean Realm, c. 1400-1800* Kenneth R. Hall,1955-01-01 With the closure of the overland Silk Road in the fourteenth century following the collapse of the Mongol empire the Indian Ocean provided the remaining vital link for wider cultural political and societal integrations prior to the Western colonial presence

Collectively these studies explore the history of non metropolitan urban settings c 1400 1800 in the Indian Ocean realm from the Ottoman Empire and the African coastline at the mouth of the Red Sea in the west to China in the east This was an age of heightened international commercial exchange that pre dated the European arrival which in the Indian Ocean paired Islamic expansionism and political authority and alternately in the case of mainland Southeast Asia partnered Buddhism with new centralizing monarchies While grounded in multi disciplinary urban studies literature the twelve studies in this collection explore secondary center networking as this networking distinguishes secondary cities from metropolitan centers which have traditionally received the most scholarly attention The book features the research of international scholars whose work addresses the representative history of small cities and urban networking in various parts of the Indian Ocean world in an era of change allowing them the opportunity to compare approaches methods and sources in the hopes of discovering common features as well as notable differences This volume is the result of a 2007 conference on The Small City in Global Context hosted by the Center for Middletown Studies at Ball State University Muncie Indiana intended to expand the field of urban studies by encouraging scholars of diverse global interests and specializations to explore the history of non metropolitan urban settings

The Social Impacts of Climate Change in China over the Past 2000 Years Xiuqi Fang, Yun Su, Jingyun Zheng, Lingbo Xiao, Zhudeng Wei, Jun Yin, 2024-03-25 This book aims to illustrate how climate change had impacted the socio economic development in the history of China under the framework of food security The 10 years resolution sequences indexing the status of social and economic subsystems in China over the past 2000 years are reconstructed Statistical methods are used to reveal the major characters and main process of the impact of historical climate change on China s social economy This book serves as a reference both for researchers graduates and undergraduates majoring in geography climatology history and other related fields
