Peasants And Primitivism French Prints From Millet To Gauguin:

Peasants and "primitivism" Robert L. Herbert, 1995 *Peasants and Primitivism* examines a significant aspect of 19th century French culture the fascination with peasants rustic ways and the perceived social harmony of agrarian communities The distinction between city and country was not new but assumed a new and powerful set of meanings particularly after the Revolution of 1848 During the succeeding decades the realities of rural life shifted as did the artistic representation of them Thus the prints reproduced in this volume present a complex dialogue between the changing countryside and the ways in which it was envisioned by urban artists and by the urban consumers of their imagery Soldier and Peasant in French Popular Culture, 1766-1870 David M. Hopkin, 2003 Concentrating on the militarised borderlands of eastern France this book examines the disjuncture between the patriotic expectations of elites and the sentiments expressed in folksongs folktales and popular imagery in which issues of sexuality violence and separation took far greater prominence Hopkin follows the soldier through his life cycle from greenhorn recruit to grizzled veteran to show how the peasant conscript was separated from his previous life and re educated in military mores and the response that this transformation elicited from his family and community BOOK JACKET "Painting Labour in Scotland and Europe, 1850-1900 " John Morrison, 2017-07-05 *Painting Labour in Scotland and Europe 1850 1900* explores hitherto unrecognized European variations in the phenomena of rural labour imagery particularly in Scotland In exploring these distinctions relative to Scotland and Europe it looks to develop a new understanding of the commonalities and idiosyncrasies of rural labour imagery which have often been treated as homogenous Lacking the detailed analysis that has been accorded other images writing about Scottish painting has often been appended to analyses of English or French imagery It has generally been understood as intellectually divorced from the sometimes brutal realities of evolving Scottish nineteenth century urbanism or simply ignored *Painting Labour in Scotland and Europe 1850 1900* sets out systematically to discuss the Scottish rural painting in relation to its particular Scottish historical context both sociological and aesthetic and its English and European counterparts Alongside canonical Scottish images by major figures such as James Guthrie the book explores many hitherto under researched and unconsidered paintings by nineteenth century Scottish artists and considers them in relation to major English and Continental Realist and Romantic painters The juxtaposition of J F Millet with W D McKay and Edwin Landseer with George Reid makes for a volume that will appeal both to an academic audience and to one interested in European art history more generally Modernism the Lure of Heresy Peter Gay, 2008 This is a brilliant provocative long essay on the rise and fall and survival of modernism by the English languages greatest living cultural historian Künstlerkolonien in Europa Claus Pese, 2001 *Van Gogh's Sheaves of Wheat* Dorothy M.
