shared with one's self or other people. On the other hand, it is explicitly public, subject to censorship, scientific study, penalisation, political debate, and reproduction in art. It is also the basis of this volume, which includes chapters from 14 different authors who presented their ideas on eroticism at the 7th Global Conference The Erotic Exploring Critical Issues at Mansfield College Oxford in September 2012. This volume offers a broad perspective on issues of the erotic with the authors representing not only a wide variety of academic and non-academic disciplines but also a range of countries from across the globe.

Mothering, Time, and Antimaternalism Mary Trigg, 2023-02-24. The book aims to broaden understanding of the diverse positions and meanings of motherhood by investigating understudied and marginalized mothers: rural, itinerant, African American, and Irish Catholic American, between 1920 and 1960. Fuelled by anxieties around feminism, a perception of men's loss of status and masculinity, racial tensions, and fears about immigration, antimaternalism discourse blamed mothers for a wide range of social ills in the first half of the 20th Century. Mothering Time and Antimaternalism considers the ideas, practices, and depictions of antimaternalism and the ways that mothers responded. Religion, class, race, ethnicity, gender, and immigration status are all analysed as factors shaping maternal experience. The book develops the historical context of American motherhood between 1920 and 1960, examining how changing ideas, scientific motherhood, time efficiency, devaluation of domesticity, racial and religious bias influenced the construction and experiences of motherhood. This is a fascinating and important book suitable for students and scholars in history, gender studies, cultural studies, and sociology.

A Transpacific Imagination of Theology, Ethics, and Spiritual Activism Keun-joo Christine Pae, 2023-11-23. Cuéllar, 2023-02-08 Inspired by the current political moment around the globe in which uprisings protests revolutions and movements are on the rise this book examines the intersections between the Bible and activism It does this by showcasing intersectional readings of the Bible as an activist act and a tool for activism historicizing the uses of the Bible within activist freedom movements around the globe and offering activist approaches to teaching the Bible Each chapter in this volume provides a critical and substantive response from the discipline of Biblical Studies to global political trends International in scope with contributors from Africa Asia the Caribbean Europe Latin America Oceania South Africa and the United States they address themes such as gender politics racial injustices violence toward women political resistance and activist hermeneutics and pedagogies Together they harness the intellectual energies of minoritized Biblical scholars in a nonessentialist manner to reflect on the Bible as a tool for liberating social and political change Reflecting on the activist potential of the Bible this book will be of keen interest to scholars in Biblical Studies Political Theology and Religious Studies *Transformational Embodiment in Asian Religions* George Pati, Katherine C. Zubko, 2019-10-28 This volume examines several theoretical concerns of embodiment in the context of Asian religious practice Looking at both subtle and spatial bodies it explores how both types of embodiment are engaged as sites for transformation transaction and transgression Collectively bridging ancient and modern conceptualizations of embodiment in religious practice the book offers a complex mapping of how body is defined It revisits more traditional mystical religious systems including Hindu Tantra and Yoga Tibetan Buddhism Bon Chinese Daoism and Persian Sufism and distinctively juxtaposes these inquiries alongside analyses of racial gendered and colonized bodies Such a multifaceted subject requires a diverse approach and so perspectives from phenomenology and neuroscience as well as critical race theory and feminist theology are utilised to create more precise analytical tools for the scholarly engagement of embodied
