Prayers In Stone Greek Architectural Sculpture Ca 600 100 Bce:

Prayers in Stone Brunilde S. Ridgway, 1999-08-31 The meaning of architectural sculpture is essential to our understanding of ancient Greek culture The embellishment of buildings was common for the ancient Greeks and often provocative Some ornamental sculpture was placed where when the building was finished no mortal eye could view it And unlike much architectural ornamentation of other cultures Greek sculpture was often integral to the building not just as decoration and could not be removed without affecting the integrity of the building structure This book is the first comprehensive treatment of the significance of Greek architectural sculpture Brunilde Sismondo Ridgway a world class authority on ancient Greek sculpture provides a highly informative tour of many dimensions of Greek public buildings especially temples tombs and treasuries in a text that is at once lucid accessible and authoritative Ridgway's pragmatism and common sense steer us tactfully and clearly through thickets of uncertainty and scholarly disagreement She refers to a huge number of monuments and documents her discussions with copious and up to date bibliographies This book is sure to be acknowledged at once as the standard treatment of its important topic

New Directions and Paradigms for the Study of Greek Architecture, 2019-11-26 New Directions and Paradigms for the Study of Greek Architecture comprises 20 chapters by nearly three dozen scholars who describe recent discoveries new theoretical frameworks and applications of cutting edge techniques in their architectural research The contributions are united by several broad themes that represent the current directions of study in the field i e the organization and techniques used by ancient Greek builders and designers the use and life history of Greek monuments over time the communication of ancient monuments with their intended audiences together with their reception by later viewers the mining of large sets of architectural data for socio economic inference and the recreation and simulation of audio visual experiences of ancient monuments and sites by means of digital technologies

The Oxford Handbook of Greek and Roman Art and Architecture Clemente Marconi, 2015 An innovative and up to date synopsis of the field of Greek and Roman Art and Architecture filling a genuine need in the literature

Greek Art: Oxford Bibliographies Online Research Guide Ioannis Mylonopoulos, 2010-05 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In classics as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is just

one of many articles from Oxford Bibliographies Online Classics a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com

A Companion to Greek Architecture Margaret M. Miles, 2020-05-05 A Companion to Greek Architecture provides an expansive overview of the topic including design engineering and construction as well as theory reception and lasting impact Covers both sacred and secular structures and complexes with particular attention to architectural decoration such as sculpture interior design floor mosaics and wall painting Makes use of new research from computer driven technologies the study of inscriptions and archaeological evidence and recently excavated buildings Brings together original scholarship from an esteemed group of archaeologists and art historians Presents the most up to date English language coverage of Greek architecture in several decades while also sketching out important areas and structures in need of further research

Structure, Image, Ornament Ralf Von den Hoff, 2014-05-31 This volume presents the proceedings of a conference hosted by the American School of Classical Studies Athens and the Deutsches Arch ologisches Institut Athens in 2004 There are additional contributions from Patricia Butz Robin Osborne Katherine Schwab Justin St P Walsh Hilda Westervelt and Lorenz Winkler Horacek The contents are divided into four sections I Structure and Ornament II Technique and Agency III Myth and Narrative and IV Diffusion and Influence Highlights include Robin Osbornes discussion of What you can do with a chariot but cant do with a satyr on a Greek temple Ralf von den Hoff s consideration of the Athenian treasury at Delphi and Katherine Schwab s presentation of New evidence for Parthenon east metope 14 The papers not only cover a great variety of issues in architectural sculpture but also present a range of case studies from all over the Greek world The result is an important collection of current research

Creating a Hellenistic World Andrew Erskine, Lloyd Llewellyn-Jones, 2011

Alexander s conquest of the Persian empire had far reaching impact in space and time Much of the territory that he seized would remain under the control of Macedonian kings until the arrival of the Romans But Macedonian power also brought with it Greeks and Greek culture In this book leading scholars in the field explore the creation of this Hellenistic world its cultural political and economic transformations and how far these were a consequence of Alexander s conquests New kingdoms were established new cities such as Alexandria and Antioch were founded art and literature discovered fresh patrons Egyptians and Iranians had to come to terms with Graeco Macedonian rulers and settlers while Greeks and Macedonians learned the ways of more ancient cultures The essays presented here offer an exciting interdisciplinary

approach to the study of this emerging Hellenistic world its newness but also its oldness both real and imagined
