Prebureaucratic Europeans A Study Of A Portuguese Fishing Community:

Pre-bureaucratic Europeans Jan Brøgger,1987 **Pre-bureaucratic Europeans** Jan Brøgger,1989 The fishing community described in this study has remained comparatively isolated from mainstream European culture retaining a much less compartmentalized communal nature than the rest of society Brøgger examines marriages and family structure manners behavior and communal living the social organization of fishing supernatural beliefs connected with fishing and healing and belief to portray life in this distinct society in central Portugal **Historical Dictionary of Portugal** Douglas L. Wheeler,Walter C. Opello Jr.,2010-05-10 Portugal is a small Western European nation with a large distinctive past replete with both triumph and tragedy One of the continent's oldest nation states Portugal has frontiers that are essentially unchanged since the late 14th century The country's unique character and 850 year history as an independent state present several curious paradoxes As of 1974 when much of the remainder of the Portuguese overseas empire was decolonized Portuguese society appeared to be the most ethnically homogeneous of the two Iberian states and of much of Europe This in spite of the fact that Portuguese society had received during 2 000 years of infusions of other ethnic groups in invasions and immigration Phoenicians Greeks Celts Romans Suevi Visigoths Muslims Arab and Berber Jews Italians Flemings Burgundian French black Africans and Asians Indeed Portugal has been a crossroads despite its relative isolation in the western corner of the Iberian Peninsula between the West and North Africa Tropical Africa and Asia and America Since 1974 Portugal's society has become less homogeneous as there has been significant immigration of former subjects from her erstwhile overseas empire The third edition of Historical Dictionary of Portugal greatly expands on the second edition through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions as well as on significant political economic social and cultural aspects **Inshore Fisheries Management** David Symes,Jeremy Phillipson,2001-12-31 Despite their importance in terms of employment and income generation inshore fisheries have been a neglected area of study The review of the common fisheries policy especially in the light of the need to re-examine the derogation which reserves access to the inshore zone to coastal state vessels provides an opportunity to redress the balance With contributions from leading authorities on fisheries management the book takes an in depth look at seven European countries examining the basis for the definition of inshore fisheries evaluating their status and describing the salient characteristics of their management The national studies form the basis for cross cultural analyses of the social organisation cultural norms economic objectives and institutional structures of inshore fisheries in Europe Finally a number of key issues relating to the future of inshore fisheries management in a more integrated approach are examined Overall the volume reaffirms the invaluable role played by inshore fisheries in the local and regional economies of Europe's complex coastline **Anthropologica** ,1999 *Portuguese Studies Review* ,1993 *Anthropologica* ,1999 **Tourism, Globalisation, and Cultural Change** Donald V. L. Macleod,2004-01-01 In what ways does tourism change the host

community This book offers original insights into the broad and deep influences of tourism and places them within the historical context of globalisation Intensive fieldwork spanning many years on a Canary Island has produced a rich portrayal of the community examining the changes experienced in areas including their working lives families identities local culture values attitudes political structure and economic base The tourists predominantly independent are also examined and their unique impact analysed The research emphasises the indigenous experience and makes cross cultural comparisons especially with island communities It employs the methods of sociocultural anthropology and includes the multidisciplinary findings of tourism studies in doing so it is innovative and challenges standard understandings of the influence of specific types of tourism on small communities **Journal of the Anthropological Society of Oxford** ,1994 *Europe in the*

Anthropological Imagination Susan Parman,1998 *Europe in the Anthropological Imagination* is a provocative reflective book about how American anthropologists study Europe The book is composed of fourteen essays by twelve anthropologists who have worked in Europe for at least twenty years These anthropologists were asked to address how when where and why they began to study Europe and to consider what this implied for the development of anthropology in general since anthropology is traditionally identified as a field that studies the non western exotic Other Back cover **British Bulletin of**

Publications on Latin America, the Caribbean, Portugal, and Spain ,1990 **JASO** ,1994 *Centuries of Child Labour* Marjatta Rahikainen,2017-07-05 *Centuries of Child Labour* argues that some of the conventional wisdom on child labour can be qualified and even questioned if we turn from the experiences of leading 19th century countries such as Britain and France to economically and politically weaker countries of Northern Europe Taking a long term perspective from the seventeenth to the twentieth century Marjatta Rahikainen conveys a richer sense of child labour by comparing the experiences of the Northern European Scandinavian periphery to the paradigmatic cases of Britain and France

International Books in Print ,1997 Norwegian Literature ,1990 *Coastal Cultures* Rob van Ginkel,2007 Throughout Europe fishermen have often been portrayed as a ruggedly independent and freedom loving lot a race apart working relentlessly in perilous pursuit of prey to eke out a parsimonious livelihood For this reason fisher folk have often been romanticized in a rather heroic fashion in novels poetry pictorial arts and popular and scholarly writing as a kind of noble savages at home But both the positive and the negative views were stereotypical and based on exoticism The imagery of fishermen as folk heroes has changed dramatically over the past few decades They are currently under increasing scrutiny from environmentalists and public opinion for allegedly being unruly marauders of marine living resources This volume of essays throws light on cultural dimensions of fishing and whaling in Europe and the United States Rob van Ginkel is an anthropologist and is affiliated with the Department of Sociology and Anthropology of the University of Amsterdam the Netherlands *Competition and Co-operation* Harald Aspen,1993 Transgressing Borders Suzan Ilcan,Lynne Phillips,1998-10-23 Comprises 13 papers which explore the concept of boundaries in relation to the family gender and

culture Questions the value or legitimacy of boundaries and shows how by transgressing these borders the conventional codes that govern social relations are challenged Comprises four sections covering the role of the state in shaping family forms conceptions of women s space and time in household organization the role of colonialism in defining household and kin relations and the impact of work and changing economies on the shaping of households Antropologi i Finland ,2006

Theories of Sickness and Misfortune Among the Hadandowa Beja of the Sudan Frode Fadnes Jacobsen,1998
Despite the impinging threat of modern life to the cultural survival of traditional peoples the Muslim Beja of the Red Sea Hills in Northeastern Africa have maintained their identity through many social economic and environmental changes Frode Jacobsen argues that the telling of mythical narratives among the Beja is at least partly accountable for their remarkable persistence Through line by line analyses and examinations of implicit knowledge within stories this study of a people with an unusually rich varied oral tradition is also a model for understanding the lives of others while providing insight into the preservation of the familiar
