## **Precolumbian Art From The Ernest Erickson Collection At The American Museum Of Natural History:**

*Pre-Columbian Art from the Ernest Erickson Collection at the American Museum of Natural History* N. C. Christopher Couch, American Museum of Natural History, 1988      Astronomers, Scribes, and Priests Gabrielle Vail, Christine L. Hernández, 2010 *Astronomers Scribes and Priests* examines evidence for cultural interchange among the intellectual powerbrokers in Postclassic Mesoamerica specifically those centered in the northern Maya lowlands and the central Mexican highlands Contributors to the volume s thirteen chapters bring an interdisciplinary perspective to understanding the interactions that led to shared content in hieroglyphic codices and mural art The authors address similarities in artifacts architectural styles and building alignments often produced in regions separated by hundreds of miles based on their analyses of iconographic archaeological linguistic and epigraphic material The volume includes a wealth of new data and interpretive frameworks in this comprehensive discussion of a critical time period in the Mesoamerican past      **Made to Order** Cynthia Conides, 2018-10-18 The ancient city of Teotihuacan North America s first metropolis flourished for nearly eight centuries in central Mexico until its demise in 650 C E Known primarily for its massive architecture and monumental wall paintings the city and its dazzling artwork inspired awe in its time and continues to do so today *Made to Order* the first systematic study of more than 150 painted portable artworks produced in Teotihuacan offers a unique deeply informed perspective on the cultural practices and artistic techniques of the largest urban community in pre Hispanic Mesoamerica The painted vessels Cynthia Conides considers featured here in finely reproduced full color photographs constitute nearly the entire body of material now available for analysis With attention to their origins and provenance wherever possible the author views these objects from a range of vantage points using ceramic chronologies to measure the changing characteristics and cultural significance of pictorial paintings on portable media Her approach ranging from stylistic analysis and narrative theory to theoretical perspectives on artistic exchange among artisans living and working in a thriving urban setting reveals the importance of such objects to a city where social status and the acquisition and display of its symbols were paramount This perspective is in turn grounded in new interpretations of the religious social and ritual contexts in which the objects functioned The most complete analysis of both ceramics from excavations at Teotihuacan and those held in museum collections worldwide *Made to Order* will become a standard source for specialists and students of pre Columbian visual culture and archaeology and a vital resource for those interested in cross cultural ceramic studies      **Olmec Art at Dumbarton Oaks** Karl A. Taube, Dumbarton Oaks, 2004 *Olmec Art at Dumbarton Oaks* presents the Olmec portion of the Robert Woods Bliss Collection of Pre Columbian Art It illustrates all thirty nine Olmec art objects in color plates and includes many complementary and comparative black and white illustrations and drawings The body of Pre Columbian art that Robert Bliss carefully assembled over a half century between 1912 and 1963 amplified only slightly since his death is a remarkably significant collection In addition to their aesthetic quality and artistic significance the objects hold much information

regarding the social worlds and religious and symbolic views of the people who made and used them before the arrival of Europeans in the New World This volume is the second in a series of catalogues that will treat objects in the Bliss Pre Columbian Collection The majority of the Olmec objects in the collection are made of jade the most precious material for the peoples of ancient Mesoamerica from early times through the sixteenth century Various items such as masks statuettes jewelry and replicas of weapons and tools were used for ceremonial purposes and served as offerings Karl Taube brings his expertise on the lifeways and beliefs of ancient Mesoamerican peoples to his study of the Olmec objects in the Bliss collection His understanding of jade covers a broad range of knowledge from chemical compositions to geological sources to craft technology to the symbolic power of the green stone Throughout the book the author emphasizes the role of jade as a powerful symbol of water fertility and particularly of the maize plant which was the fundamental source of life and sustenance for the Olmec The shiny green of the stone was analogous to the green growth of maize This fundamental concept was elaborated in specific religious beliefs many of which were continued and elaborated by later Mesoamerican peoples such as the Maya Karl Taube employs his substantial knowledge of Pre Columbian cultures to explore and explicate Olmec symbolism in this catalogue
