Western Antiquary, Or, Devon and Cornwall Notebook ,1884 Anglo-Saxon Farms and Farming Debby
Banham,Rosamond Faith,2014-09-25 Farming was the basis of the wealth that made England worth invading twice in the
eleventh century while trade and manufacturing were insignificant by modern standards In Anglo Saxon Farms and Farming
the authors employ a wide range of evidence to investigate how Anglo Saxon farmers produced the food and other
agricultural products that sustained English economy society and culture before the Norman Conquest The first part of the
volume draws on written and pictorial sources archaeology place names and the history of the English language to discover
what crops and livestock people raised and what tools and techniques were used to produce them In part two using a series
of landscape studies place names maps and the landscape itself the authors explore how these techniques might have been
combined into working agricultural regimes in different parts of the country A picture emerges of an agriculture that
changed from an essentially prehistoric state in the sub Roman period to what was recognisably the beginning of a tradition
that only ended with the Second World War Anglo Saxon farming was not only sustainable but infinitely adaptable to
different soils and geology and to a climate changing as unpredictably as it is today *Interpreting the Landscape* Michael
Aston,2002-09-11 Most places in Britain have had a local history written about them Up until this century these histories
have addressed more parochial issues such as the life of the manor rather than explaining the features and changes in the
landscape in a factual manner Much of what is visible today in Britain s landscape is the result of a chain of social and
natural processes and can be interpreted through fieldwork as well as from old maps and documents Michael Aston uses a
wide range of source material to study the complex and dynamic history of the countryside illustrating his points with aerial
photographs maps plans and charts He shows how to understand the surviving remains as well as offering his own
explanations for how our landscape has evolved *Spätbronzezeitliche Waffendeponierungen Nordwesteuropas* Tobias
