Prehistoric Lowland Maya Environment And Subsistence Economy

Jeffrey P. Brain

Prehistoric Lowland Maya Environment And Subsistence Economy:

Prehistoric Lowland Maya Environment and Subsistence Economy Paul R. Bloom, 1985 A collection of essays presenting original data that have allowed the author to reconstruct prehistoric Maya environment and subsistence *Prehistoric*

Lowland Maya Environment and Subsistence Economy Jeffrey P. Brain, 1985 **Prehistoric Lowland Maya Environment and Subsistence Economy** Mary Pohl DeLand, 1985 **Ancient Maya Wetland Agriculture** Mary Deland

Pohl, 2019-08-27 Changes in the orientation of archaeological research in the post World War n period affected Maya studies The cultural ecological perspective which was rising to prominence put an old debate in bold relief How had this prehistoric civilization adapted to the tropical forest environment How could swidden cultivation have sustained the unexpectedly high population densities that settlement pattern studies appeared to be revealing Had the ancient Maya practiced some form of intensive agriculture Archaeologist Dennis E Puleston went to the Maya Lowlands to investigate geographer Alfred H Siemens s reports of possible intensive agriculture ridged fields seen from the air and to study prehistoric Maya cultivation and civilization from a cultural ecological perspective This volume presents the results of the Rio Hondo Project field research on Albion Island in northern Belize from 1973 to 1980 with the addition of selected results from Pohl s continuing work in northern Belize *Human Adaptation in Ancient Mesoamerica* Nancy Gonlin, Kirk D. French, 2015-12-01 This volume explores the dynamics of human adaptation to social political ideological economic and environmental factors in Mesoamerica and includes a wide array of topics such as the hydrological engineering behind Teotihuacan s layout the complexities of agriculture and sustainability in the Maya lowlands and the nuanced history of abandonment among different lineages and households in Maya centers The authors aptly demonstrate how culture is the mechanism that allows people to adapt to a changing world and they address how ecological factors particularly land and water intersect with nonmaterial and material manifestations of cultural complexity Contributors further illustrate the continuing utility of the cultural ecological perspective in framing research on adaptations of ancient civilizations This book celebrates the work of Dr David Webster an influential Penn State archaeologist and anthropologist of the Maya region and highlights human adaptation in Mesoamerica through the scientific lenses of anthropological archaeology and cultural ecology Contributors include Elliot M Abrams Christopher J Duffy Susan Toby Evans Kirk D French AnnCorinne Freter Nancy Gonlin George R Milner Zachary Nelson Deborah L Nichols David M Reed Don S Rice Prudence M Rice Rebecca Storey Kirk Damon Straight David Webster Stephen L Whittington Randolph J Widmer John D Wingard and W Scott Zeleznik [Global Geological Record of Lake Basins: Volume 1](#) E. Gierlowski-Kordesch, K. Kelts, 2006-11-23 The sequence of sediments deposited in lakes forms an archive of a high resolution record of the changes and rates of changes in continental palaeoenvironments Global Geological Record of Lake Basins is the first in a short series of books containing concise geological summaries of lake basin deposits Geoscientists worldwide have co operated to bring together the information available on a global spectrum of lacustrine

deposits looking in particular at palaeoenvironmental aspects The compilation has resulted from IGCP 219 Comparative Lacustrine Sedimentology in Space and Time which has given impetus to the field of limnogeology Lacustrine deposits are widespread throughout the geological record and this series of books will assess for every geological time window key lacustrine sequences worldwide in the form of short summaries of specific deposits A common language will be defined to describe these deposits *Prehistoric Maya Economies of Belize* Patricia Ann McAnany, Barry L. Isaac, 1989

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 1997-07-31 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa **Maya Zooarchaeology** Kitty F. Emery, 2004-12-31 A comprehensive work combining traditional zooarchaeological reports and various state of the art summaries of methods and theoretical perspectives This combination of detailed discussions of basic zooarchaeological data with reviews of important themes in Maya zooarchaeology emphasizes the central issues that guide our research from basic data collection through final comparative interpretation The chapters emphasize the newest developments in technical methods the most recent trends in the analysis of social zooarchaeology and the broadening perspectives provided by a new geographic range of investigations The main focus of the volume remains on fostering cooperation among Mesoamerican zooarchaeologists at the levels of both preliminary analysis and final theoretical reconstruction From Ritual to Refuse: Faunal Exploitation by the Elite of Chinikihá, Chiapas, during the Late Classic Period Coral Montero López, 2022-02-17 From Ritual to Refuse explores the faunal exploitation by the Maya elite at the site of Chinikihá Chiapas during the end of the Late Classic period AD 700-850 by applying zooarchaeological and statistical analyses to a faunal assemblage located in a basurero or midden behind a palatial structure at the core of the site **Archaeological Thought in America** C. C. Lamberg-Karlovsky, 1989 American archaeology today encompasses a huge range of approaches and draws eclectically on a multitude of academic disciplines

Until now however there has been no book seeking to separate the main strands and traditions of research and present a rounded picture of American archaeological thought in all its diversity The seventeen essays in *Archaeological Thought in America* describe recent theoretical advances and present substantive interpretations of prehistoric data drawn from a variety of cultures and time frames including Mesoamerica Central Asia India and China The contributors include many of the leading North American archaeologists of this generation

Pre-Columbian Foodways John Staller, Michael Carrasco, 2009-11-24 The significance of food and feasting to Pre Columbian Mesoamerican cultures has been extensively studied by archaeologists anthropologists and art historians Foodways studies have been critical to our understanding of early agriculture political economies and the domestication and management of plants and animals Scholars from diverse fields have explored the symbolic complexity of food and its preparation as well as the social importance of feasting in contemporary and historical societies This book unites these disciplinary perspectives from the social and biological sciences to art history and epigraphy creating a work comprehensive in scope which reveals our increasing understanding of the various roles of foods and cuisines in Mesoamerican cultures The volume is organized thematically into three sections Part 1 gives an overview of food and feasting practices as well as ancient economies in Mesoamerica Part 2 details ethnographic epigraphic and isotopic evidence of these practices Finally Part 3 presents the metaphoric value of food in Mesoamerican symbolism ritual and mythology The resulting volume provides a thorough interdisciplinary resource for understanding food feasting and cultural practices in Mesoamerica

Prehistoric Maya Community and Settlement at Nohmul, Belize K. Anne Pyburn, 1989 This treatise based on data from the 1982 to 1986 excavations at Nohmul aims to reconstruct some aspects of the cultural history and population structure and to identify changes in that structure over time

Research in Economic Anthropology, 1989

Lowland Maya Civilization in the Eighth Century A.D. Jeremy A. Sabloff, John S. Henderson, 1993

Ancient Maya Settlement and the Alacranes Bajo Gail A. Hammond, 2019 This work represents the archaeological investigation of a distinctive zone of the Three Rivers Region of northwestern Belize It contributes to the knowledge of land use by the ancient Maya using excavation mapping and environmental data and situates the area within the local regional and inter regional context

A Stratigraphic Record of Environmental Change from a Maya Reservoir in the Northern Peten, Guatemala David Brent Wahl, 2000

Die Welt der Maya Nikolai Grube, 1993 Catalogus bij een expositie over de cultuur van de Maya's
