Victoria R Evans discuss how artists drew inspiration from their Sonoran Desert homeland and were also influenced by the cultures of western Mexico the hunter gatherers of the western desert the Mogollon to the east and the Pueblo cultures of the northern Southwest Unlike traditional archaeological texts this book takes a holistic approach by examining a diverse range of artistic expressions used by the Hohokam From intricately crafted pottery to mesmerizing carvings in rock each medium offers a unique glimpse into the Hohokam s relationship with their environment and the wider world Whether you re planning a visit to national parks or museums in the Southwest or simply intrigued by ancient civilizations The Hohokam and Their World is a must read The work includes a glossary of key archaeological and anthropological terms as well as endnotes and an extensive list of references for those who want to dig deeper *A History of the Ancient Southwest* Stephen H. Lekson,2009 According to archaeologist Stephen H Lekson much of what we think we know about the Southwest has been compressed into conventions and classifications and orthodoxies This book challenges and reconfigures these accepted notions by telling two parallel stories one about the development personalities and institutions of Southwestern archaeology and the other about interpretations of what actually happened in the ancient past While many works would have us believe that nothing much ever happened in the ancient Southwest this book argues that the region experienced rises and falls kings and commoners war and peace triumphs and failures In this view Chaco Canyon was a geopolitical reaction to the Colonial Period Hohokam expansion and the Hohokam Classic Period was the product of refugee Chacoan nobles chased off the Colorado Plateau by angry farmers Far to the south Casas Grandes was a failed attempt to create a Mesoamerican state and modern Pueblo people with societies so different from those at Chaco and Casas Grandes deliberately rejected these monumental hierarchical episodes of their past From the publisher The second printing of *A History of the Ancient Southwest* has corrected the errors noted below SAR Press regrets an error on Page 72 paragraph 4 also Page 275 note 2 regarding absolute dates 50 000 dates was incorrectly published as half a million dates Also P 125 lines 13 14 Between 21 000 and 27 000 people lived there should read Between 2 100 and 2 700 people lived there **Merchant Adventurer Kings of Rhoda** Donald N. The Connected Past Tom Brughmans, Anna Collar, Fiona Susan Coward, 2016 One of the most exciting recent developments in archaeology and history has been the adoption of new perspectives which see human societies in the past as in the present as made up of networks of interlinked individuals This view of people as always connected through physical and conceptual networks along which resources information and disease flow requires archaeologists and historians to use new methods to understand how these networks form function and change over time The Connected Past provides a constructive methodological and theoretical critique of the growth in research applying network perspectives in archaeology and history and considers the unique challenges presented by datasets in these disciplines including the fragmentary and material nature of such data and the functioning and change of social processes over long timespans An international and multidisciplinary range of scholars debate both the rationale and practicalities of applying network methodologies addressing the merits and drawbacks of specific techniques of analysis for a range of datasets and research questions and demonstrating their approaches with concrete case studies and detailed illustrations As well as revealing the valuable contributions archaeologists and historians can make to network science the volume represents a crucial step towards the development of best practice in the field especially in exploring the interactions between social and material elements of networks and long term network evolution
