The History of Human Society Grahame Clark,1967

History of Human Society Frank Wilson Blackmar,1926

The Origins of Human Society Peter Bogucki,2000-01-04 The Origins of Human Society traces the development of human culture from its origins over 2 million years ago to the emergence of literate civilization In addition to a global coverage of prehistoric life the book pays specific attention to the origins and dispersal of anatomically modern humans the development of symbolic expression the transition from mobile foraging bands to sedentary households early agriculture and its consequences the emergence of social differentiation and hereditary ranking and the prehistoric roots of ancient states and empires The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production *Review of Prehistoric Societies. The History of Human Society* R. V. S. Wright,1968 *Encyclopedia of Anthropology* H. James Birx,2006 Focuses on physical social and applied anthropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories
