Racial and Cultural Minorities George Eaton Simpson, J. Milton Yinger, 2013-06-29 We need scarcely note that the topic of this book is the stuff of headlines Around the world political

economic educational military religious and social relations of every variety have a racial or ethnic component One cannot begin to understand the history or contemporary situation of the United States the Soviet Union China Zimbabwe South Africa Great Britain Lebanon Mexico Canada indeed almost any land without careful attention to the influence of cultural and racial divisions Preparation of this new edition has brought a strong sense of déjà vu with regard both to the persistence of old patterns of discrimination even if in new guises and also to the persistence of limited and constraining explanations We have also found however rich new empirical studies new theoretical perspectives and greatly expanded activity and analyses from members of minority groups Although this edition is an extensive revision with reference both to the data used and the theoretical approaches examined we have not shifted from our basically analytical perspective We strongly support efforts to reduce discrimination and prejudice but these can be successful only if we try to understand where we are and what forces are creating the existing situation We hope to reduce the tendency to use declarations and condemnations of other persons actions as substitutes for an investigation of their causes and consequences
