Social Thought from Lore to Science: A history and interpretation of man's ideas about life with his fellows to times when change and progress deeply concern him Howard Paul Becker,Harry Elmer Barnes,1978 Towards a Rational Philosophical Anthropology J. Agassi,2012-12-06 The thesis of the present volume is critical and dual 1 Present day philosophy of man and sciences of man suffer from the Greek mis taken polarization of everything human into nature and convention which is allegedly good and evil which is allegedly truth and fal sity which is allegedly rationality and irrationality to wit the polar ization of all fields of inquiry the natural and social sciences as well as ethics and all technology whether natural or social into the totally positive and the totally negative 2 Almost all philosophy and sci ences of man share the erroneous work ethic which is the myth of man s evil nature the myth of the beast in man the doctrine of original sin To mediate or to compromise between the first view of human nature as good with the second view of it as evil sociologists have devised a modified utilitarianism with deferred gratification so called and the theory of the evil of artificial competition capitalist and socialist alike and of keeping up with the Joneses Now the mediation is not necessary For the polarization makes for abstract errors which are simplistic views of rationality such as reductionism and positivism of all sorts as well as for concrete errors such as the disposition to condemn repeatedly those human weaknesses which are inevitable namely man s inability to be perfectly rational avoid all error etc thus setting man against himself as all too wicked
