Handcock, 1996 English Historical Documents is the most ambitious impressive and comprehensive collection of documents on English history ever published An authoritative work of primary evidence each volume presents material with exemplary scholarly accuracy Editorial comment is directed towards making sources intelligible rather than drawing conclusions from them Full account has been taken of modern textual criticism A general introduction to each volume portrays the character of the period under review and critical bibliographies have been added to assist further investigation Documents collected include treaties personal letters statutes military dispatches diaries declarations newspaper articles government and cabinet proceedings orders acts sermons pamphlets agricultural instructions charters grants guild regulations and voting records Volumes are furnished with lavish extra apparatus including genealogical tables lists of officials chronologies diagrams graphs and maps Colonialism to Cabinet Crisis Andrew C. Ross, 2009 The late Andrew C Ross was a Scottish missionary in Malawi between 1958 and 1965 and one of the founding members of the Malawi Congress Party Like many other Scottish missionaries of the period he deeply opposed the Central African Federation and was a strong supporter of the emerging Malawian nationalist movement When following the declaration of a State of Emergency in March 1959 many of the political leaders of the Nyasaland African Congress were detained Andrew regularly visited those held at Kanjedza near Limbe visits which helped to deepen both his friendship with them and his commitment to their cause Thus when Orton Chirwa was released from detention later in 1959 and persuaded to become the temporary leader of the newly formed Malawi Congress Party Andrew Ross was one of the first to join becoming the proud holder of MCP card number six This book covers the period 1875 1965 and includes a Foreword by Professor George Shepperson Prelude to Imperialism H. Alan C. Cairns, 2023-05-03 In the half century preceding imperial control approximately eight hundred Britons lived and travelled in East and Central Africa Prelude to Imperialism 1965 examines their relations with and attitudes to African tribal societies The author presents a broad survey of tribal life an analysis of culture contact and an extended discussion of the underlying assumptions of the British evaluation of Africans and of the conditions in which they lived The description of African social conditions and the analysis of grass roots imperialism constitute important contributions to the debate on Western imperialism **The Oxford History of the British Empire: Historiography** Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries *The Oxford History of the British Empire: Volume V: Historiography* Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism

was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

Racism and Colonialism R.J. Ross,2012-12-06 1 REFLECTIONS ON A THEME by ROBERT ROSS This book the fourth in the series Comparative Studies in Overseas History and like its predecessors the product of a symposium held by the Leiden Centre for the History of European Expansion is organised around a single theme the relationship between the ideological structures of domination and oppression that have come to be called racism and the political and economic ones which grew out of Europe's conquering and ruling much of the rest of the world By racism we

mean those systems of thought in which group characteristics of human beings of a non somatic nature are considered to be fixed by principles of descent and in which in general physical attributes other than those of sex are the main sign by which characteristics are attributed In addition almost by definition the systems of thought entailed in this require that there is a hierarchy of the various races and that those people in the lower ranks of that hierarchy are seriously disadvantaged at least if the proponents of racist thought are able to impose their will on the society in which they live The exclusion of the discrimination of women from the concept of racism should not be thought as entailing that racist and sexist ideas do not have much in common since both derive from essentially biological determinism and indeed 2 racist societies have historically almost invariably been strongly sexist Der Moderne Imperialismus Wolfgang J. Mommsen,1971

Constitutional Crossroads Kate Puddister,Emmett Macfarlane,2022-12-01 Four decades have passed since the adoption of the Constitution Act 1982 Now it is time to assess its legacy As Constitutional Crossroads makes clear the 1982 constitutional package raises a host of questions about a number of important issues including identity and pluralism the scope and limits of rights competing constitutional visions the relationship between the state and Indigenous peoples and the nature of constitutional change This collection brings together an impressive assembly of established and rising stars of political science and law who not only provide a robust account of the 1982 reform but also analyze the ensuing scholarship that has shaped our understanding of the Constitution Contributors bypass historical description to offer reflective analyses of different aspects of Canada s constitution as it is understood in the twenty first century With a focus on the themes of rights reconciliation and constitutional change Constitutional Crossroads provides profound insights into institutional relationships public policy and the state of the fields of law and politics *Prelude to Imperialism* John Golding,1965

Reader's Guide to British History D. M. Loades,2003 A masterful attempt to describe the historical secondary literature of the British Isles from prehistory to the present day the set is comprised of substantial essays of 1 000 to 3 000 words each on a wide array of subjects all written by pre eminent scholars in language accessible to beginning students and advanced researchers Each listed essay title is given a thorough annotation The Top 20 Reference Titles of the Year American Libraries May 2004 **Der Moderne Imperialismus, Hrsg. und Eingeleitet Von Wolfgang J. Mommsen** ,1971

Rassendiskriminierung, Kolonialpolitik und ethnisch-nationale Identität Wilfried Wagner,1992 **English Historical Documents: (1) 1833-1874, ed. by G. M. Young and W. D.
