School To Work Transition In Japan An Ethnographic Study:

School to Work Transition in Japan Kaori Okano, 1993 This participant observation study presents the practice of school to work transition at two Japanese high schools and explains variations about the modal career trajectory of low achieving students drawing on Bourdieu's work. It helps to explain the relationship between social values, family ethos, industry, school and economic performance and the relatively low class consciousness in Japan. It should be of interest to educationalists, sociologists and labour relations specialists studying Japan. *Kompetenz, Performanz, soziale Teilhabe* Stefan Faas, Petra Bauer, Rainer Treptow, 2013-09-27 Der Band greift die skizzierten Anforderungen und Problemstellungen für Soziale Arbeit auf und nimmt sowohl theoretisch geleitet als auch empirisch fundiert disziplinäre Verortungen im Kontext des Kompetenzdiskurses vor. Folgende Fragen stehen dabei im Vordergrund: In welche bergreifenden Diskurse ist die Kompetenzdebatte einzuordnen? Welche Perspektiven eröffnet der Kompetenzbegriff für die Soziale Arbeit? Wie lässt sich sozialpädagogische Kompetenz angemessen beschreiben? Wie ist die Qualifizierung sozialpädagogischer Fachkräfte zu gestalten? Welche Kompetenzen bringen Adressaten in sozialpädagogische Interaktionsprozesse ein? Welche Chancen eröffnet der Kompetenzbegriff im Kontext einer befähigungsorientierten Sozialen Arbeit? Welche Ambivalenzen und Grenzen bestehen?

Nonformal Education and Civil Society in Japan Kaori H. Okano, 2015-09-16 Nonformal Education and Civil Society in Japan critically examines an aspect of education that has received little attention to date: intentional teaching and learning activities that occur outside formal schooling. In the last two decades, nonformal education has rapidly increased in extent and significance. This is because individual needs for education have become so diverse and rapidly changing that formal education alone is unable to satisfy them. Increasingly diverse demands on education resulted from a combination of transnational migration, heightened human rights awareness, the aging population and competition in the globalised labour market. Some in the private sector saw this situation as a business opportunity. Others in the civil society volunteered to assist the vulnerable. The rise in nonformal education has also been facilitated by national policy developments since the 1990s. Drawing on case studies, this book illuminates a diverse range of nonformal education activities and suggests that the nature of the relationship between nonformal education and mainstream schooling has changed. Not only have the two sectors become more interdependent, but the formal education sector increasingly acknowledges nonformal education's important and necessary roles. These changes signal a significant departure from the past in the overall functioning of Japanese education. The case studies include neighbourhood homework clubs for migrant children, community-based literacy classes, after-school care programs, sport clubs, alternative schools for long-term absent students, schools for foreigners, training in intercultural competence at universities and corporations, *kominkan* (community halls) and lifelong learning for the seniors. This book will appeal to both scholars of Japanese Studies, Asian Studies and those of comparative education and sociology, anthropology of education. *Career Development in Childhood and Adolescence*, 2007-01-01 In the past few years, many

career theorists have noted the dearth of literature in the area of career development in childhood and adolescence A growing need for integrating theory and research on the early stages of vocational development within a systemic life span developmental approach has been articulated This volume the first book dedicated to career development of children and adolescents provides a broad and comprehensive overview of the current knowledge about the key career processes that take place in this age group Each of the eighteen chapters represents an in depth examination of a specific aspect of career development with a focus on integrating modern career theory and ongoing research and further developing theory practice connections in understanding child and adolescent career behaviour Twenty six authors leading experts from eight countries provide a state of the art summary of the current thinking in the field and outline directions for future empirical work and practice

Education and Training in Japan Thomas P. Rohlen, Christopher Bjork, 1998 This collection written by Japanese and foreign scholars represents an inclusive cross section of the most important work in key areas of this field Topics include the impact of Japanese education and training on Japan s economy and culture the Japanese influence on the East Asian approach to education in comparison with the educational systems of Korea Taiwan Singapore and Hong Kong Japan s promotion of learning organizations and Knowledge workers for the Information Age *Hitotsubashi Journal of Social Studies*, 1998

No Shame in My Game Katherine S. Newman, 2009-03-04 Powerful and poignant Newman s message is clear and timely The Philadelphia Inquirer In No Shame in My Game Harvard anthropologist Katherine Newman gives voice to a population for whom work family and self esteem are top priorities despite all the factors that make earning a living next to impossible minimum wage lack of child care and health care and a desperate shortage of even low paying jobs By intimately following the lives of nearly 300 inner city workers and job seekers for two years in Harlem Newman explores a side of poverty often ignored by media and politicians the working poor The working poor find dignity in earning a paycheck and shunning the welfare system arguing that even low paying jobs give order to their lives No Shame in My Game gives voice to a misrepresented segment of today s society and is sure to spark dialogue over the issues surrounding poverty working and welfare
