Science And The Secret Doctrine Contrasted:

The Secret Doctrine H.P. Blavatsky, 2016-10-25 Madame Blavatsky's Victorian era masterpiece is now scaled down to its essentials providing the most readable accessible experience ever of one of history's seminal occult works *The Secret Doctrine* Helena Petrovna Blavatsky's masterwork on the origin and evolution of the universe and humanity itself is arguably the most famous and perhaps the most influential occult book ever written Published since 1888 only in expensive two volume editions of some 1 400 pages it has long eluded the grasp of modern readers until now This single volume edition abridged and annotated by historian and Theosophical scholar Michael Gomes places the ideas of *The Secret Doctrine* within reach of all who are curious In particular Gomes provides a critical sounding of the book's famous stanzas on the genesis of life and the cosmos mysterious passages that Blavatsky said originated from a primeval source and which form the heart of *The Secret Doctrine* Gomes scrupulously scales down the book's key writings on symbolism to their essentials and offers notes and a glossary to illuminate arcane references His historical and literary introduction casts new light on some of the book's sources and on the career of its brilliant and elusive author one of the most intriguing personages of the nineteenth century At once compact and representative of the work as a whole this new edition of *The Secret Doctrine* brings unprecedented accessibility to the key esoteric classic of the modern era [*The Secret Doctrine* Helena Petrovna Blavatsky, 1893](#) **The Secret Doctrine: Anthropogenesis** Helena Petrovna Blavatsky, 1888 *Science and the Secret Doctrine Contrasted* Helene Petrovna Blavatsky, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work [*The Secret Doctrine* Helena Petrovna Blavatsky, 1952](#) *The Secret Doctrine: Anthropogenesis* Helena Petrovna Blavatsky, 1962 **Claiming Knowledge** Olav Hammer, 2021-11-08 This volume deals with the transformation of unchurched religious creativity in the late modern West It analyzes the ways in which the advance of science globalization and individualism have fundamentally reshaped esoteric religious traditions from theosophy to the New Age This publication has also been published in paperback please click here for details **Mystic Apprentice Master Volume with Dictionary** Ken Ludden, 2012-03-03 The complete Mystic Apprentice textbook series is included in this master volume It covers the entire academic program of the Ankahr Muse apprenticeship program as well as the Mystics Dictionary of Spirit Language This material is intended as the academic basis of this program though it holds in it the key to comprehension of many other traditions as well Mysticism is the highest level any spiritual philosophy reaches The Ankahr Muse tradition pre-dates ancient Egyptian culture and within it one finds roots for nearly every spiritual philosophy and religious belief system known This master volume is the primary resource for any scholar of mysticism any traveler of spiritual waters in this life and anyone who is seeking to delve into their own

The Secret Doctrine: Index to volumes 1-3 Helena Petrovna Blavatsky,1895 **The Quest** ,1997 **The Snake and the Rope** Edi D. Bilimoria,2006 **Theosophy and Modern Science** Gottfried Purucker,1930 Blavatsky and Her Teachers Jean Overton Fuller,1988

Few nineteenth century figures have aroused such controversy as Madame Helena Petrovna Blavatsky 1831-91 co founder of The Theosophical Society Accepted by some as a spiritual teacher outstanding occultist and pioneer of the present New Age movement she was denounced by others as an impostor a secret agent for her native Russia or a deluded fanatic In this full length biography the first to be published in England for many years Jean Overton Fuller has used Russian language material and is the first biography to have had access to the archives of the London Society for Psychical Research But she has found the explanation for the life and work of Madame Blavatsky not in New York where The Theosophical Society was founded in 1875 nor in London where she died but in the attempts of an oriental fraternity to influence the spiritual climate of Europe in its most materialistic phase She throws new light on the real identities of Madame Blavatsky's teachers and their relationship to the complex world of Tibetan Buddhism She portrays a woman struggling against immense personal and social difficulties to fulfil a mission that was scarcely understood by her closest associates In her impartial scrutiny of evidence Miss Overton Fuller has been obliged to reject as spurious some Blavatsky letters published by The Theosophical Society itself but she has also uncovered the real authorship of the notorious Coulomb letters which attempted to implicate Madame Blavatsky in fraud The appearance of this biography coincides with the centenary of Madame Blavatsky's main work The Secret Doctrine 1888 which offered a profound spiritual interpretation of evolution in contrast to Darwinism and brought a new dimension into western thought The Aryan Path Sophia Wadia,1975
