**Internationalizing the Social Sciences in China** Meng Xie, 2022-03-10 The current social reality and changing global forces and spaces are inspiring the rethinking refining and re empowering of the world social sciences to broach the frontiers of human knowledge enhance mutual understanding across cultures and civilizations and shape a better world Taking Tsinghua University's sociology as a case this book concentrates on how internationalization shapes disciplinary development in a global context of asymmetrical academic relations This inquiry is set amidst China's dramatic economic social political and cultural transformations as well as the institutional reforms in this Chinese flagship university This book seeks to probe how Chinese and Western knowledge institutions and cultures are integrated in the ongoing process of internationalization and concentrates on the disciplinary evolution of Tsinghua's sociology intellectually institutionally and culturally drawing on top down higher education policy and bottom up perceptions and experiences of Tsinghua's social scientists This book highlights that higher education internationalization is an evolving process whose advanced phase would require Chinese social scientists to bring China to the world It is time for Tsinghua University to reassess the long term

impact of internationalization on its academic disciplines and provide sufficient support for the development of the social sciences This book will attract academics practitioners and postgraduate students interested in higher education internationalization international academic relations global constellation and distribution of academic power academic knowledge production and the development and intellectual influences of the Chinese social sciences **Science and the Raj** Deepak Kumar,2006 Science and the Raj explores the link between science technology and the process of colonization in the context of British India Dust jacket **Wissenschaftssprache und Gesellschaft** Theo Bungarten,1986 *Kleio* ,2006 Science and Empire National Institute of Science, Technology, and Development Studies (India),1991 **Science and the Raj, 1857-1905** Deepak Kumar,1995 This book explores the links between science technology and the process of colonization in the context of Victorian India It begins with a study of the concept of colonial science and then moves on to early exploratory activities in this area problems in science administration science education scientific researches and Indian responses to all these activities Colonial scientists had a dual mandate to serve the state and to serve science But as the colonial arteries hardened science became a form of official knowledge with official hierarchies and rituals The evolution and progress of colonial science in India reveal a pattern which can be discerned Science had an ideology a string of institutions and a set of committed people to serve very specific colonial ends The questions asked are what were the colonial postures in science To what extent were scientific knowledge and discourses used to achieve political and cultural goals How did the recipient culture appropriate or redefine the metropolitan ideology of science *Commerce and Capitalism in Chinese Societies* Gary G. Hamilton,2006-05-24 Consisting of sixteen articles which together provide historical comparative and theoretically informed perspectives on the spread of Chinese capitalism this collection emphasizes the difference between Western and Chinese forms of capitalism **Notes on Science, Technology and Science Education in the Development of the South** Abdus Salam,1989 **Is the End Nigh?** Graham Lyons,Evonnie Moore,Joseph Wayne Smith,1995 This work examines the environmental crisis within the context of the internationalization or globalization of people and nations The existence of life on Earth and certainly human life has been called into question in the twentieth century first through the threat of nuclear obliteration and climate alteration the enhanced greenhouse effect and destruction of the Earth s ozone shield environmental pollution exploding human population growth and the destruction of species and genetic diversity Many people believe that these global dangers represent a crisis of such a magnitude that they can only be effectively dealt with by a global response in particular by the abandonment of the sovereignty of nations and the construction of a one world government in some shape or form This new world order would also save us from ourselves bringing about an era of sustainable peace on Earth It is argued here that this internationalist vision cannot succeed it will destroy the environment not preserve it and bring about an era of turmoil and warfare not peace In particular it is demonstrated that the environmental crisis is in part a product of internationalism This book examines the deleterious

consequences of internationalism with respect to major environmental and political debates such as ecologically sustainable development technology and human freedom economic rationalism and economic internationalism immigration and human population expansion racial and ethnic conflict and the globalization of epidemic diseases      **Caribbean Cultural Identity**  
Rex M. Nettleford, 2003 This revised edition is a re affirmation of the validity of that persistent quest by the Jamaican and Caribbean people for place and purpose in a globalised world of continuous change      **Australian National Bibliography**  
, 1986      *Introduction to Comparative Politics* John David Nagle, 1998 This updated text introduces students to the major challenges facing political systems as we approach the year 2000 The systems are grouped into three types the advanced liberal democracies the Communist and post Communist nations and the developing nations Nagle examines the performance records of these systems in four areas economic growth social equality personal liberty and quality of life The fifth edition has a major focus on transitions from Communism to post Communism It pays more attention to Japan India and Mexico as examples and treats issues like ethnic conflict crisis in the welfare state and new world disorder Nagle provides the latest data available      Studies in Contemporary Islam , 2002
