The Paradoxes of Peacebuilding Post-9/11 Stephen Baranyi, 2009-02-01 What kind of peace is possible in the post 9 11 world Is sustainable peace an illusion in a world where foreign military interventions are replacing peace negotiations as starting points for postwar reconstruction What would it take to achieve durable peace in contexts as different as Afghanistan Mozambique and Sri Lanka This book presents six provocative case studies authored by respected peacebuilding practitioners in their own societies The studies address two cases of relative success Guatemala and Mozambique three cases of renewed but deeply fraught efforts Afghanistan Haiti and the Palestinian Territories and the case of Sri Lanka where peacebuilding was aborted but where the outlines of a new peace process can be discerned The book also includes original analyses of demobilization disarmament and reintegration processes in three different contexts written by teams of Northern and Southern analysts The Paradoxes of Peacebuilding Post 9 11 bridges the gap between minimalist and maximalist approaches to peacebuilding and gives voice to Southern researchers in Northern dominated debates It will interest practitioners and students of peace security and development studies as well as policymakers at many levels of government

Dialogue in Palestine Nadia Naser-Najjab, 2020-01-23 Since 1993 various international donors have poured money into a People to People P2P diplomacy programme in Palestine This grassroots initiative still funded by prominent external donors today seeks to foster public engagement through contact and therefore remove deeply embedded barriers This book examines the limited nature of this contact and explains why the P2P framework which was ostensibly concerned with the promotion of peace ultimately served to reinforce conflict and power relations The book is based on the author's own experience of the solidarity activities during the First Intifada and her first hand involvement as a coordinator of the P2P projects implemented during the 1990s It provides a much needed critical account of the internationally sponsored peace process and develops new theoretical analyses of settler colonialism
