## **Peace Making In The Middle East:**

**Interventions in Conflict** Rami G. Khouri, Martin Wählich, 2016-04-08 This book presents reflections of prominent international peacemakers in the Middle East including Jimmy Carter Lakhdar Brahimi Jan Eliasson Alvaro de Soto and others It provides unique insights and lessons learned about diplomacy and international peace mediation practice based on real life experience

**Peacemaking in the Middle East** Paul Marantz, Janice Gross Stein, 2016-07-22 This book first published in 1985 examines the whole problem of peacemaking in the Arab Israel conflict It considers the different countries involved the changing positions they have adopted over time and the range of opinion within each country It looks at the role of the superpowers and shows how their vacillations and their viewing of the conflict in simple terms as part of the global superpower rivalry have been unfortunate It examines how a typical uncommitted medium power Canada can contribute to peace in very many ways though it may not achieve a breakthrough

Practical Peacemaking in the Middle East Steve L. Spiegel, David J. Pervin, 2014-04-23 First published in 1995 Routledge is an imprint of Taylor Francis an informa company

Regional Peacemaking and Conflict Management Carmela Lutmar, Benjamin Miller, 2015-11-06 This volume examines mechanisms for regional peacemaking and conflict management in Europe and the Middle East To date little research has been devoted to uncovering the conditions for peace and the factors that contribute to stabilizing the state of peace This volume assesses the factors that contribute to regional pacification the incentives that motivate states in establishing peaceful relations and most importantly how regions become peaceful It discusses the conditions under which various types of peace might emerge on a regional level and the factors most likely to determine the outcome The book takes an innovative approach through a systematic comparison of two regions that are particularly prominent and important for the subject of regional pacification Europe and the Middle East While many believe that the European case is the indispensable model for peacemaking others believe that these two regions are too different for Europe to be a useful framework for the Middle East This volume occupies a middle ground between these two extreme positions It argues that while a mindless copying of European models will not lead to peace in the Middle East important insights can be gained from the most successful case of regional peacemaking to date This work will be of much interest to students of regional security peacemaking conflict management Middle East politics European security and IR in general

*Producing Spoilers* Joyce Dalsheim, 2014-07-01 Supporters of Hamas and radical religious Israeli settlers seem to serve one purpose in the international peace process to provide an excuse for its failure High level diplomatic negotiators and grassroots peace activists alike blame religious extremists for acting as spoilers of rational negotiation and have often attempted to neutralize co opt or marginalize them In *Producing Spoilers* Joyce Dalsheim explores the problem of stalled peacemaking by viewing spoilers not as the cause but as a symptom of systemic malfunctions within the concept of the nation state itself and the

secular constructs of historicism that support it She argues that spoilers are generated as internal enemies in the course of conflict and used to explain why processes of peace and reconciliation fail In other words peacemaking efforts can work to produce enmity Focusing on the case of Israel and Palestine Dalsheim shows how processes of conflict resolution diplomacy dialogue education and social theorizing about liberation peace and social justice actually participate in constructing enemies thus limiting the options for peaceful outcomes Dalsheim examines the work of politicians and diplomats as well as scholars and grass roots level peacemakers drawing on her research and her own experience as an activist for peace She identifies a number of common techniques and assumptions that help to produce spoilers among them the constraints of the narrative form and how storytelling is employed in conflict resolution and the idea of anachronism which prevents theorists and activists from seeing creative possibilities for peaceful coexistence Dalsheim also looks at the limits of territorial solutions and the consequences of nationalism the context in which spoilers of the Israeli Palestinian conflict are produced She contrasts that nationalism with current theorizing on flexible citizenship and diasporic identity The book culminates by moving beyond national enmity and outside conventional peacemaking to clear a space in which to think about alternative forms of negotiation exchange community and coexistence **Bending History** Martin S. Indyk, Kenneth G.

Lieberthal, Michael E. O'Hanlon, 2012-02-24 By the time of Barack Obama's inauguration as the 44th president of the United States he had already developed an ambitious foreign policy vision By his own account he sought to bend the arc of history toward greater justice freedom and peace within a year he was awarded the Nobel Peace Prize largely for that promise In *Bending History* Martin Indyk Kenneth Lieberthal and Michael O'Hanlon measure Obama not only against the record of his predecessors and the immediate challenges of the day but also against his own soaring rhetoric and inspiring goals *Bending History* assesses the considerable accomplishments as well as the failures and seeks to explain what has happened Obama's best work has been on major and pressing foreign policy challenges counterterrorism policy including the daring raid that eliminated Osama bin Laden the reset with Russia managing the increasingly significant relationship with China and handling the rogue states of Iran and North Korea Policy on resolving the Israeli Palestinian conflict however has reflected serious flaws in both strategy and execution Afghanistan policy has been plagued by inconsistent messaging and teamwork On important softer security issues from energy and climate policy to problems in Africa and Mexico the record is mixed As for his early aspiration to reshape the international order according greater roles and responsibilities to rising powers Obama's efforts have been well conceived but of limited effectiveness On issues of secondary importance Obama has been disciplined in avoiding fruitless disputes as with Chavez in Venezuela and Castro in Cuba and insisting that others take the lead as with Qaddafi in Libya Notwithstanding several missteps he has generally managed well the complex challenges of the Arab awakenings striving to strike the right balance between U.S. values and interests The authors see Obama's foreign policy to date *Rethinking Peacebuilding* Karin Aggestam, Annika Björkdahl, 2013 This book presents new theoretical and

conceptual perspectives on the problematique of building just and durable peace Linking peace and justice has sparked lively debates about the dilemmas and trade offs in several contemporary peace processes Despite the fact that justice and peace are commonly referred to there is surprisingly little research and few conceptualizations of the interplay between the two This edited volume is the result of three years of collaborative research and draws upon insights from such disciplines as peace and conflict international law political science and international relations It contains policy relevant knowledge about effective peacebuilding strategies as well as an in depth analysis of the contemporary peace processes in the Middle East and the Western Balkans Using a variety of theoretical perspectives and empirical approaches the work makes an original contribution to the growing literature on peacebuilding This book will be of much interest to students of peacebuilding peace and conflict studies Middle Eastern Politics European Politics and IR Security Studies *Arabs and Israelis* Abdel Monem Said Aly, Shai Feldman, Khalil Shikaki, 2022-08-18 Lasting over 120 years the Arab Israeli conflict involves divergent narratives about history national identities land ownership injustices and victimhood Domestic forces and actors as well as international and regional dynamics have ensured the conflict s durability A distinguished team of authors comprising an Israeli a Palestinian and an Egyptian present a broader Arab perspective in this innovative textbook that offers a balanced and nuanced introduction to a highly contentious subject Providing an overview of key developments in the history of the conflict it explores attempts at resolution before going on to portray the perspectives of the important parties It places the events of the conflict within a regional and international context providing an invaluable insight into the opposing narratives behind the conflict The much anticipated second edition of *Arabs and Israelis* includes Up to date coverage of key developments since the Arab Awakening including the shifting pattern in relations from Obama to Trump the Abraham Accords the fall of Netanyahu and the resurgence of the war in early 2021 Brand new Key Developments Key Documents and Key Figures feature boxes to help students zoom in on landmark events policies and actors throughout history Detailed full colour maps timelines and photos to visually complement the text A rich companion website including interactive timelines and maps discussion questions chapter summaries and more A comprehensive and engaging account of the Arab Israeli conflict it is the ideal companion for students at undergraduate and postgraduate level taking History Politics and Middle Eastern Studies degrees
