**Conflicted are the Peacemakers** Eric N. Budd, 2012-12-20 The 1993 Oslo Accords were a key attempt to resolve the Palestinian Israeli conflict whose failure was largely attributed to extremists on both sides The book challenges this conventional wisdom by examining the role of Israeli and Palestinian peacemakers themselves in derailing the peace process Looking at the role of moderates before and after Oslo the different agreements and peace proposals they negotiated and their rhetoric the book shows that these peacemakers retained an inherent ambivalence toward the peace process and one another This prevented them and their constituents from committing to the process and achieving a lasting peace This unique survey shows how the people who drive the peace process can not only undermine it but also prevent its successful conclusion By dealing with such an important aspect of negotiation the book will foster a better understanding of the role of moderates and why peace processes may falter It will fill a gap in the literature and be a valuable research tool for anyone studying conflict processes the Arab Israeli conflict and Middle East politics Peace versus Justice William I.

Zartman, Victor Kremenjuk, 2005-04-21 This book examines the costs and benefits of ending the fighting in a range of conflicts and probes the reasons why negotiators provide or fail to provide resolutions that go beyond just stopping the shooting What is the desired and achievable mix between negotiation strategies that look backward to end current hostilities and those that look ahead to prevent their recurrence To answer that question a wide range of case studies is marshaled to explore relevant peacemaking situations from the end of the Thirty Years War and the Napoleonic Wars to more recent settlements of the late 20th and early 21st centuries including large scale conflicts like the end of WW II and smaller scale sometimes internal conflicts like those in Cyprus Armenia and Azerbaijan and Mozambique Cases on Bosnia and the Middle East add extra interest Published in cooperation with the International Institute for Applied Systems Analysis this important research is expertly edited by renowned conflict scholars I William Zartman and Victor Kremenjuk and includes original case studies from scholars and practitioners around the globe including Janice Gross Stein Daniel Druckman and Beth Simmons among many others

***Conflict Resolution and Status*** Céline Francis, 2011 The dispute between Georgia and Abkhazia is not a conflict of equals In international conflicts adversaries may differ de facto on the ground in terms of population territory and capability among other things As internationally recognized states however they have equal de jure status and fears that inviting the other side to the negotiating table might be construed as recognition for example rarely intrude The question of status does pose problems however when a conflict is being fought between a recognized state and an unrecognized entity and these problems may contribute to increase the intractability of such conflicts This study explores how and to what extent the difference in status between a sovereign state and an unrecognized entity hinders conflict resolution activities Based on intensive fieldwork and unedited negotiation material the book provides an in depth analysis of the negotiations informal dialogues and grassroots activities that took place in Abkhazia and Georgia between 1989 and 2008

***Rethinking Peacebuilding*** Karin Aggestam, Annika Björkdahl, 2013 This book presents new theoretical and conceptual perspectives on the problematique of building just and durable peace Linking peace and justice has sparked lively debates about the dilemmas and trade offs in several contemporary peace processes Despite the fact that justice and peace are commonly referred to there is surprisingly little research and few conceptualizations of the interplay between the two This edited volume is the result of three years of collaborative research and draws upon insights from such disciplines as peace and conflict international law political science and international relations It contains policy relevant knowledge about effective peacebuilding strategies as well as an in depth analysis of the contemporary peace processes in the Middle East and the Western Balkans Using a variety of theoretical perspectives and empirical approaches the work makes an original contribution to the growing literature on peacebuilding This book will be of much interest to students of peacebuilding peace and conflict studies Middle Eastern Politics European Politics and IR Security Studies

***Peace Versus Justice*** I. William Zartman, Viktor Aleksandrovich Kremenyuk, 2005 This book examines the costs and benefits of ending the fighting in a range of conflicts and probes the reasons why negotiators provide or fail to provide resolutions that go beyond just stopping the shooting A wide range of case studies is marshaled to explore relevant peacemaking situations from the end of the Thirty Years War and the Napoleonic Wars to more recent settlements of the late 20th and early 21st centuries including large scale conflicts like the end of WWII and smaller scale sometimes internal conflicts like those in Cyprus Armenia and Azerbaijan and Mozambique Cases on Bosnia and the Middle East add extra interest

***The Go-between*** Isak Svensson, Peter Wallensteen, 2010 This volume explores international mediation through the lens of Ambassador Jan Eliasson an international go between with a remarkable track record The authors draw lessons for the peacemaking process from their examination of how Eliasson entered prepared pursued and finally ended his mediation efforts

***Analyzing Strategic Rivalries in World Politics*** William R.

Thompson, Kentaro Sakuwa, Prashant Hosur Suhas, 2021-11-20 Strategic rivalries are contests between states that view one another as threatening competitors and treat each other as enemies A disproportionate amount of interstate conflict is generated by a relatively small number of these pairs of states engaged in rivalries that can persist for years Thus to understand interstate peace and conflict it is useful to know how rivalries work in general and more specifically In the past two decades a strenuous effort has been mounted to introduce the concept of rivalry and demonstrate its utility in unraveling conflict situations Yet all rivalries are not exactly alike We need to move to a more rewarding differentiation of how they differ in general Principal rivalries are those antagonisms that are most significant to the decision makers in a state The main distinction on issues about which rivals dispute are positional and spatial concerns Positional rivalries contend over regional and global influence Spatial rivals contend over which state deserves to control disputed territory Interventionary rivalries predominate in sub Saharan Africa Their primary focus involves neighboring states attempting to influence who rules and how co ethnics are treated This book updates the inventory of strategic rivalries from 1816 to 2020 Principal rivalries are identified for the first time and cover the same period A theory stressing the two main types of rivalry positional and spatial is elaborated and tested Regional variations on the origins and terminations of spatial rivalry are explored and interpreted In addition attention is paid to fluctuations in the intensity of positional rivalries by examining the working of the contemporary major power triangle United States Soviet Union Russia and China and more generally the dynamics of regional power that are rising in terms of their relative capability and status in the system Variations in cooperation and termination dynamics both in general and according to rivalry type are also examined Overall the emphases of the book are split between demonstrating the utility of distinguishing among rivalry types and examining selected rivalry dynamics     *The Two-State Delusion* Padraig O'Malley, 2015-07-28 Padraig O Malley is the subject of the new acclaimed documentary *The Peacemaker* A thoughtful autopsy of the failed two state paradigm Evenhanded diplomatic mutually respectful and enormously useful Kirkus starred review Disputes over settlements the right of return the rise of Hamas recognition of Israel as a Jewish state and other intractable issues have repeatedly derailed peace negotiations between Israel and Palestine Now in a book that is sure to spark controversy renowned peacemaker Padraig O Malley argues that the moment for a two state solution has passed After examining each issue and speaking with Palestinians and Israelis as well as negotiators directly involved in past summits O Malley concludes that even if such an agreement could be reached it would be nearly impossible to implement given the staggering costs Palestine s political disunity and the viability of its economy rapidly changing demographics Israel s continuing political shift to the right global warming s effect on the water supply and more In this revelatory hard hitting book O Malley approaches the key issues pragmatically without ideological bias to show that we must find new frameworks for reconciliation if there is to be lasting peace between Palestine and Israel     **Contextual Frames of the Israeli-Palestinian Conflict** Carsten Benjamin Tripscha, 2005     **Negotiations Between State Actors and Non-state**

**Actors** Raymond Saner, M. Varinia Michalun, 2009 With the end of the Cold War came a proliferation of actors partaking in disputes be they at local regional national or international levels This book takes a step closer to the reality of international conflicts by adding a special focus on the relations between state and non state actors

**Problem-solving and Bargaining in International Negotiations** Lynn M. Wagner, 2008 International Negotiation Series 5 International Studies Library 8 Many analysts theorize that negotiation processes determine negotiated outcomes but none have empirically tested this hypothesis across multiple cases of international negotiation This book examines the process outcome relationship in thirteen bilateral and multilateral negotiations involving the United States Declassified reports from U S negotiators about discussions with their counterparts provide the primary data source through which the author constructs the case studies and performs a content analysis of negotiator statements to compare process and outcome The book seeks to advance our understanding of the relationship between negotiation process and outcome as well as to provide empirically based guidance for decision makers when selecting a negotiating approach Table of Contents Chapter 1 Negotiation Processes and Outcomes in International Negotiations Initial Definitions and a Data Gap Process and Outcome in the International Negotiation Context Preview of Research Findings Chapter 2 Identifying Process and Outcome in the Case Data Negotiation Cases and Data Source Negotiation Processes and Outcomes Defined Identifying Process and Outcome in Negotiations Chapter 3 Thirteen Negotiation Processes and Outcomes United States Turkey Trade Agreement United States United Kingdom Switzerland War Trade Agreement United States Mexico Water Utilization Treaty United States Portugal Airfield Talks The London Conference on Germany The Basic Law for the Federal Republic of Germany United States Iran Mutual Defense Assistance United States Saudi Arabia Mutual Defense Assistance and Dhahran Airfield Tenancy Agreement United States Japanese Administrative Agreement United States Republic of China Mutual Security Treaty The Austrian State Treaty United States People s Republic of China Agreement on the Repatriation of Civilians The Fourth World Conference on Women Chapter 4 Trends Related to Process Outcome and the Additional Variables Process and Outcome Additional Influences and Issues Chapter 5 A Statistical Assessment of the Process Outcome Relationship Coding Results Process Outcome Relationship Discussion of Process Outcome Findings Chapter 6 Research Implications for Negotiators and Negotiation Analysts Implications for Negotiators Desiring an Integrative Outcome Implications for Analysts Conclusion Appendix 1 Process Outcome and Additional Variables Comparison Appendix 2 Sample Process and Outcome Data and Codes About the Author Lynn M Wagner Ph D 1998 in International Relations Johns Hopkins University School of Advanced International Studies SAIS has extensive research experience with environmental negotiations and has published a number of book chapters and articles about them for instance in International Negotiation
