Peacemaking Struggle Militarism And Resistance:

The Peacemaking Struggle Ronald H. Stone, Dana W. Wilbanks, 1985 This collection of essays focuses on the relationship of the Christian faith to the issues involved in the contemporary struggle over the meaning of resistance to militarism It is intended as a resource to help face an appropriate response to the responsibilities and limits of Christian citizenship in a society increasingly faced with the dangers of militarism Co published with the Council on Theology and Culture and the Advisory Council on Church and Society of the United Presbyterian Church U S A **Applied Christian Ethics** Matthew Lon Weaver, 2014-09-09 Applied Christian Ethics addresses selected themes in Christian social ethics The book is divided in three parts In the first section Foundation several contributors reveal their Christian realist roots and discuss the prophetic origins and multifarious agenda of social ethics Thus the names of Reinhold Niebuhr and Paul Tillich come up frequently In the second section Economics and Justice the focus turns to the different levels at which economics has significance for social justice These chapters discuss fair housing at the local level the dialogue between Christians and Native Americans over property rights at the regional and national levels and trade and international organization In the third and final section Politics War and Peacemaking the content ranges from the existential experience of a soldier to that of a veteran of civil rights activism from theorizing about peacemaking to commenting on the use of drones **The Presbyterian Pendulum**

Mark J. Englund-Krieger, 2010-02-01 The Presbyterian Pendulum is a study in mainline Protestant social ethics with a focus on the Presbyterian Church USA This book is written for the church with the hope that it will provide theological foundation and spiritual encouragement for our efforts to find unity despite the diversity of convictions and perspectives in our midst This is a historical study of the significant social and political issues to which the church responded throughout the twentieth century With a foundation in solid historical research this book offers the compelling thesis that the Presbyterian Church is at its best when the wild diversity of worldviews theological perspectives and convictions are encouraged Even more the book offers the spiritually rich thesis that it is in this wild diversity not despite of it that the providence of God is seen and known What is unique and compelling about this study is the guiding metaphor of the pendulum swinging The vast difference of opinion in the church around social issues has historically always been true is necessary today and itself points to a deeper truth about God s sustaining providence The church must discern and hold onto that deeper truth We must let the pendulum swing It is my hope that this book will be an encouragement for the church even as we continue to be mired in deep conflict

Christian Realism & Peacemaking Ronald H. Stone, 1988 *Christianity and Crisis* Reinhold Niebuhr, 1987 A bi weekly journal of Christian opinion Die USA und Deutschland im Zeitalter des Kalten Krieges 1945-1990: 1968-1990 , 2001

The Peacemaking Struggle Ronald H. Stone, Dana W. Kunkel,Joseph Kunkel,1989 The Future of Prophetic Christianity Denise Lardner Carmody,John Carmody,1993 **Church and State in Historical Perspective** James E. Wood,2005-05-30 The subject of church and state is one intimately associated with the history of Christianity and Western civilization However the subject is one that is by no means limited to any one religious tradition civilization or period of history Rather it is a subject that has historical and universal significance to all cultures and religious traditions throughout the world It is simply undeniable that religion has been and remains a powerful force in the making and shaping of cultures civilizations nations and empires For this reason this volume addresses the broader perspectives of religion and the state in the ancient world as well as in the biblical world of Judaism and Christianity and in other religious traditions than Christianity Attention is given to general works on church and state that treat the subject broadly not limited to any particular nation religious tradition or single aspect of church state relations Additionally there is material on major topics integrally related to church and state such as civil disobedience civil religion liberation theology patriotism and nationalism Finally sources are included on religion in international affairs and interfaith relations both necessarily linked to the subject of church and state as well as religion and the economic order religion and human rights and the effect of religion on war and peace **Visions of a Warless World** Walden F. Bello,1986 *Whitaker's Books in Print* ,1998 **Elenchus of Biblica** ,1986 *Making Decisions* Percy H. Hill,1986 This introductory text designed to teach decision making skills contains contributions from scholars in the fields of engineering economics philosophy psychology medicine and political science Intended for undergraduates or the interested lay person its practical multi disciplinary approach uses the case study method to introduce concepts which can be directly applied to real life situations The Life and Death Debate J Moreland,Norman L. Geisler,1990-11-09 This work is an introductory treatment of issues and options in social and bioethics which center on the end of life The purpose of Moreland and Geisler is to offer a beginning survey of these issues to someone unfamiliar with philosophy Thus they have attempted to simplify and summarize various end of life topics without being simplistic or caricaturing different viewpoints even though the authors own viewpoint is made perfectly clear A comprehensive bibliography glossary and subject and author index make this a valuable textbook as well as a resource for further study The major purpose of this book is to make the reader think more clearly and deeply about the important issues discussed between its covers Beginning the work is an essay which introduces us to the dilemma of ethical decisions The following chapters separately discuss the situations of abortion infanticide euthanasia suicide capital punishment and war

The discussion is ended by the insight gained in the previous chapters with a chapter of practical and theoretical guidance for making ethical decisions. A glossary, subject index, author index, and selected bibliography for each chapter make this a valuable textbook as well as an important beginning for novice philosophers. This important work will not only appeal to experienced philosophers but also to students of moral philosophy, theology, and ethics.
