Wasserstrom, 2013-10-14 *Twentieth Century China New Approaches* is an important revisionist study of China's recent past. The chapters throw light on a variety of subjects within the field which has recently undergone considerable change. The three major parts of this reader take into account the historical shape of the century, local perspectives on national history and reflections on cultural history. The chapters in this volume reflect a move away from a Western-centred analysis of Chinese history as well as the new wealth of archival material made accessible over the last decade. They highlight in challenging ways important topics that have generated considerable excitement among historians. Subjects discussed include the watershed date of 1949, feminism, the revolutions, the discourse of the communist party and political theatre in modern China. *Die Sozialrevolutionäre Partei Russlands* Manfred Hildermeier, 1978 *Moderne Welt*, 1968 **The Soviet Union, the Communist Movement, and the World** Alan Levine, 1990-02-08 Levine traces the development of the USSR and the Communist movement from 1917 to the Nazi invasion of the USSR in June 1941, arguing that the Cold War between the Soviet Union and the Western democracies can only be fully understood by examining the doctrine and practices of the Soviet Union and the world Communist movement from their inception. **Eine Einführung in Werk und Wirken** Claus D.
