Mark Ginsburg

Pedagogues And Power Teacher Groups In School Politics:

Pedagogues and Power Alan Rosenthal, 1969 Fifteen year old Jess living with her mum separated from her father in Cornwall and with a best friend who seems to do everything perfectly finds her own assets through humor **Preparation, Practice, and Politics of Teachers** Mark Ginsburg, 2013-02-11 This edited volume based on papers presented at the World Congress of Comparative Education Istanbul 2010 presents research examining pre service teacher education in service teacher development and the politics of teachers work in a variety of geographical regions including Asia Africa Eurasia Europe Latin America and North America More specifically the chapters examine the situations activities and education of teachers in the societal contexts of Cuba Equatorial Guinea France Germany Ghana Hong Kong Ireland Lithuania The Netherlands Scotland Spain Turkey and the United States The authors address a variety of important questions related to a group of employees who are key actors in determining the quality of education How can pre service teacher education best be organized for different purposes in various settings What kinds of activities should be organized and who should be involved in in service professional development to promote teacher capacity and commitment to perform their roles in classrooms and communities What kinds of incentives can motivate teachers engagement with various aspects of their work How do certain educational policies and reforms promote the professionalization or the deprofessionalization and proletarianization of teaching What are the opportunities and constraints for teachers as they seek to operate within the micro politics of schools and the macro politics of society The book thus contributes to refining our understanding of the critical theoretical issues in the field of comparative and international education as well as calling attention to dynamics that should be considered in developing and implementing as well as critiquing and resisting educational policies in varying contexts **The Politics of Education in the States** Luther Harmon Zeigler, Karl F. Johnson, Karl Fredrick Johnson, 1972

The Political Economy of Urban Schools Martin T. Katzman, 1971 No detailed description available for *The Political Economy of Urban Schools* *The Color of School Reform* Jeffrey R. Henig, Richard C. Hula, Marion Orr, Desiree S. Pedescleaux, 2001-01-22 Why is it so difficult to design and implement fundamental educational reform in large city schools in spite of broad popular support for change How does the politics of race complicate the challenge of building and sustaining coalitions for improving urban schools These questions have provoked a great deal of theorizing but this is the first book to explore the issues on the basis of extensive solid evidence Here a group of political scientists examines education reform in Atlanta Baltimore Detroit and Washington D C where local governmental authority has passed from white to black leaders The authors show that black administrative control of big city school systems has not translated into broad improvements in the quality of public education within black led cities Race can be crucial however in fostering the broad civic involvement perhaps most needed for school reform In each city examined reform efforts often arise but collapse partly because leaders are unable to craft effective political coalitions that would commit community resources to a concrete

policy agenda What undermines the leadership according to the authors is the complex role of race in each city First public authority does not guarantee access to private resources usually still controlled by white economic elites Second local authorities must interact with external actors at the state and national levels who remain predominantly white Finally issues of race divide the African American community itself and often place limits on what leaders can and cannot do Filled with insightful explanations together with recommendations for policy change this book is an important component of the debate now being waged among researchers education activists and the community as a whole Changing Urban Education Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future *Die unorganisierbare Bildungsreform* Ingo Richter,1975 **The Newark Teacher Strikes** Steve Golin,2002-05-01 For three weeks in 1970 and for eleven weeks in 1971 the schools in Newark New Jersey were paralyzed as the teachers went on strike In the wake of the 1971 strike almost two hundred were arrested and jailed The Newark Teachers Union said their members wanted improved education for students The Board of Education claimed the teachers primarily desired more money After interviewing more than fifty teachers who were on the front lines during these strikes

historian Steve Golin concludes that another equally important agenda was on the table and has been ignored until now. These professionals wanted power to be allowed a voice in the educational agenda. Through these oral histories Golin examines the hopes of the teachers as they picketed, risking arrest and imprisonment. Why did they strike? How did the union represent them? How did their action and incarceration change them? Did they continue to teach in impoverished schools? Golin also discusses the tensions arising during that period. These include differences in attitudes toward unions among black, Jewish, and Italian teachers; different organizing strategies of men and women; and conflict between teachers' professional and working class identities. The first part of the book sets the stage by exploring the experience of teachers in Newark from World War II to the 1970 strike. After covering both strikes, Golin brings the story up to 1995 in the epilogue, which traces the connection between educational reform and union democracy. *Teacher Power* enhances our understanding of what has worked and what hasn't worked in attempts at reforming urban schools. Equally importantly, the teachers' vivid words and the author's perceptive analysis enable us to view the struggles of not just Newark but the entire United States during a turbulent time.

Teachers' Unionism in Higher Education Meenakshi Sharma, 2000. Study in the Indian context.

Schools, Scholars, and Society Jean Dresden Grambs, 1978. The American School Board Journal William George Bruce, William Conrad Bruce, 1896. *Paperbound Books in Print*, 1970. *Forecasting Trends in Professional Negotiations Between Teacher Organizations and Boards of Education in the State of Wisconsin* William Charles Kelly, 1972. *Critical Issues in Education* Jack L. Nelson, Kenneth Carlson, Stuart B. Palonsky, 1993. Comprehensive coverage is offered in this work of 17 of the most hotly debated issues in education today. Each chapter presents two alternative positions on a particular issue and end-of-chapter discussion questions aid in the critical thinking process.

Education & the New Teacher Bobby Joe Chandler, Daniel Powell, William R. Hazard, 1971. *Education & the New Teacher* B. J. Chandler, Daniel Powell, William R. Hazard, 1971.
