Pedagogy Printing And Protestantism:

Pedagogy, Printing and Protestantism Carmen Luke, 1989-07-01 Using Foucault's history of discourse this book examines the relationship between the invention of the printing press and the evolution of concepts regarding childhood and schooling. It is an interdisciplinary study of schooling, childhood, literacy and protestantism in 16th century Germany. Luke traces the agenda for the rearing and education of the young as outlined by the Protestant reformers and popularized by the advent of printing. Luther's print-based religious campaign led to his call for universal public schooling to promote literacy, a fundamental requirement of the new theology. Luke identifies the development of an emergent discourse on childhood in the reformer's tracts, school ordinances, personal correspondences, conduct and household and medical guides. From a Foucauldian archeological perspective, then, *Pedagogy, Printing and Protestantism* examines the conditions that enabled the emergence of early modern discourse on childhood.

Spierling, 2009-01-27 This book examines beliefs, practices and arguments surrounding infant baptism in Geneva during the time of John Calvin. Karen Spierling studies several facets of Calvin's theology of baptism, including its impact on the formation of community, its doctrine and liturgy, its role in the raising of children and the parts played by parents, ministers, godparents and midwives in the practice of baptism. This book also highlights some of the controversies surrounding baptism in the sixteenth century, most notably the tension between Calvin's theology of baptism and that of the Roman Catholic Church.
