Casteras, Alicia Craig Faxon, 1995 Ed Yale University Collection of new essays Black white illustrations *Writing the Pre-Raphaelites* Tim Barringer, 2017-07-05 This vibrant collection of essays claims that a complex network of texts by critics biographers and diarists established the credibility and influence of the Pre Raphaelite movement Throughout the twentieth century Modernist taste failed to acknowledge the achievement of oppositional groupings such as the Pre Raphaelites The essays collected here however reveal that the British group anticipated later avant gardes by using the written word to configure for itself a radical artistic identity Public and critics alike were scandalized by the radicalism of Pre Raphaelite painting its unflinching portrayal of historical figures and of contemporary life and its irreverent attitude to artistic convention Pre Raphaelitism s innovations were not confined to style new forms of artistic identity and behaviour were explored As the contributors interrogate the texts through which Pre Raphaelitism was constructed they demonstrate that the movement s wide influence as a cultural phenomenon derived from the interplay between exhibited works and critical discourse Applying a range of sophisticated methodologies from the fields of literary studies art history and cultural studies these interdisciplinary essays uncover the neglected role of texts in the success of the Pre Raphaelite rebellion and argue in favor of a new centrality for this movement in the history of nineteenth century European culture **Internationalism and the Arts in Britain and Europe at the Fin de Siècle** Grace Brockington, 2009 This collection of essays stems from the conference Internationalism and the Arts Anglo European Cultural Exchange at the Fin de Siècle held at Magdalene College Cambridge in July 2006 The growth of internationalism in Europe at the fin de siècle encouraged confidence in the possibility of peace A wartorn century later it is easy to forget such optimism Flanked by the Franco Prussian war and the First World War the late nineteenth and early twentieth centuries were marked by rising militarism Themes of national consolidation and aggression have become key to any analysis of the period Yet despite the drive towards political and cultural isolation transnational networks gathered increasing support This book examines the role played by artists writers musicians and intellectuals in promoting internationalism It explores the range of individuals media and movements involved from cosmopolitan characters such as Walter Sickert and Henri La Fontaine through internationalist art societies to periodicals performance and the mobility of the Arts and Crafts Movement The discussion takes in the geographical breadth of Europe incorporating Belgium Bohemia Britain France Germany Hungary Italy Norway Poland Russia and Slovakia Drawing on the work of scholars from across Europe and America the collection makes a statement about the complexity of European identities at the fin de siècle as well as about the possibilities for interdisciplinary research in our own era **William Morris und die Buchmalerei** Michaela Braesel, 2019-04-15 Zeit seines Lebens fasziniert die mittelalterliche Buchmalerei

Gatrall, 2014-11-13 A cultural history of representations of Jesus in nineteenth century European and American fiction and visual art *In Search of the Holy Grail* Veronica Ortenberg, 2006-01-01 This book surveys the influence of the middle ages and of medieval attitudes and values on later periods and on the modern world Many artistic political and literary movements have drawn inspiration and sought their roots in the thousand years between 500 and 1500 AD Medieval Christianity and its rich legacy has been the essential background to European culture as a whole Gothic architecture and chivalry were two keys to Romanticism while nationalists including the Nazis looked back to the middle ages to find emerging signs of national character In literature few myths have been as durable or popular as those of King Arthur stretching from the Dark Ages to Hollywood In Search of the Holy Grail is a vivid account of how later ages learnt about and interpreted the middle ages *Reframing Decadence* Peter Jeffreys, 2016-02-19 During his sojourn in England during the 1870s a young Cavafy found himself enthralled by the aesthetic movement of cosmopolitan London It was during these years that he encountered the canvases and personalities of Pre-Raphaelite painters including Burne Jones and Whistler as well as works of aesthetic writers who were effecting a revolution in British literary culture and channeling influences from France that would gradually coalesce into an international decadent movement In Reframing Decadence Peter Jeffreys returns us to this critical period of Cavafy's life showing the poet's creative indebtedness to British and French avant-garde aesthetes whose collective impact on his poetry proved to be profound In the process Jeffreys offers a critical reappraisal of Cavafy's relation to Victorian aestheticism and French literary decadence Foremost among the tropes of decadence that captivated Cavafy were the decline of imperial Rome the rise of Christianity and the lingering twilight of Byzantium The influence of Walter Pater on Cavafy's view of classical and late antique history was immense inflected as it was with an unapologetic homoerotic aesthetic that Cavafy would adopt as his own making Pater's imaginary portraits an important touchstone for his own historicizing poetry Cavafy would move beyond Pater to explore a more openly homoerotic sensuality but he never quite abandoned this rich Victorian legacy one that contributed greatly to his emergence as a global poet Jeffreys concludes by considering Cavafy's current popularity as a gay poet and his curious relation to kitsch as manifest in his ongoing popularity via translation and visual media *Journal of Pre-Raphaelite Studies*, 2005 *Pre-Raphaelitism in the Nineteenth-century Press* Thomas J.
