Alexander Rabinowitch

Pre Emptive Empire A Guide To Bushs Kingdom:

The Pre-Emptive Empire Saul Landau, 2003 This book is a scathing account of George W Bush s America before and after the 9 11 terrorist attacks Saul Landau delves into the erosion of civil liberties and the proliferation of empire under the guise of pre-empting the scourge of terrorism He reveals how Bush protects his terrorists those who perpetrate violence against Cuba and to whom he owes his presidency He also examines how Bush has appointed former officials to high level posts in his cabinet despite their membership in a conspiracy to sell weapons of mass destruction to Iran in the 1980s In declassifying Bush s Empire Landau dissects a post 9 11 world where deference to patriotism obliterates debate in Congress and the media How can the notion of empire happily co-exist with the notion of a republic In times like these as dissenting voices are stifled and the public are denied access to the facts about their own security Landau shows how democracy itself is under threat He asks whether the already fragile world economy can survive in the new security culture of the post 9 11 world

American Grand Strategy from Obama to Trump Zeno Leoni, 2021-03-01 This book maintains that the theory of imperialism should incorporate the concept of an operational code of political elites to account for agencies actions This concept would explain the strategic continuity and tactical change in US grand strategy from Obama to Trump While both presidents pursued a strategy of off-shore balancing their competing worldviews led to tangible differences in the way they sought to restore American power after Bush and to contain the rise of China This book offers an important contribution after the departure of Bush concluded the 21st century debate on imperialism at a time when an increasingly post-American world order has undermined the end of the state thesis Indeed over the last twelve years US grand strategy has emphasized inter-state competition rather than the annihilation of rogue regimes These events require renewed efforts for the theory of imperialism to contribute to Globalisation Theory at this crucial historical junction

The Bolsheviks Come to Power Alexander Rabinowitch, 2004 For generations in the West Cold War animosity blocked dispassionate accounts of the Russian Revolution This history authoritatively restores the upheaval s primary social actors workers soldiers and peasants to their rightful place at the center of the revolutionary process

NATO and the Middle East Mohammed Moustafa Orfy, 2010-10-04 This book examines the role of NATO in the Middle East It reviews the strategic importance of the region and why it has become a source of instability looks at US and international initiatives to counteract this instability and charts the development of NATO in this context

Immigration, Integration, and Security Ariane Chebel D'Appollonia, Simon Reich, 2008-05-01 Recent acts of terrorism in Britain and Europe and the events of 9 11 in the United States have greatly influenced immigration security and integration policies in these countries Yet many of the current practices surrounding these issues were developed decades ago and are ill-suited to the dynamics of today s global economies and immigration patterns At the core of much policy debate is the inherent paradox whereby immigrant populations are frequently perceived as posing a potential security threat yet bolster economies by providing an inexpensive workforce Strict attention to border

controls and immigration quotas has diverted focus away from perhaps the most significant dilemma the integration of existing immigrant groups Often restricted in their civil and political rights and targets of xenophobia racial profiling and discrimination immigrants are unable or unwilling to integrate into the population These factors breed distrust disenfranchisement and hatred factors that potentially engender radicalization and can even threaten internal security The contributors compare policies on these issues at three relational levels between individual EU nations and the U S between the EU and U S and among EU nations What emerges is a timely and critical examination of the variations and contradictions in policy at each level of interaction and how different agencies and different nations often work in opposition to each other with self defeating results While the contributors differ on courses of action they offer fresh perspectives some examining significant case studies and laying the groundwork for future debate on these crucial issues

Bushed! Walter C. Clemens, Jr., 2004 *Bushed* is a revealing analysis of the intent and consequences of the policies of President George W Bush Comprised of 15 Chapters 264 pages the book covers the first three years of the Bush Administration from its Manifest Destiny to Post War Iraq *Bushed* contains more than 170 brilliant political cartoons by the Pulitzer Prize winning Miami Herald editorial cartoonist Jim Morin The illustrations are matched with the insightful text provided by Dr Clemens the distinguished professor of International Relations from Boston University

America's Role in the World Phillip Margulies, 2009 Examines the detailed history of American foreign policy and America's debate over the direction its foreign policy should take in the future

Understanding the Venezuelan Revolution Hugo Chávez Frías, Marta Harnecker, 2005-11 This work brings together in an extended dialogue the ongoing transformation of Venezuelan society and its growing role in global and regional politics In the course of this discussion Chavez sets out his politics in his own words enabling the reader to grasp the rationale behind them and the charisma of the man

You're Not Stupid! Get the Truth William John Cox, 2004 A wake up call to the lies and crimes of Bush and the neo cons in war voting media taxes morals health schools laws liberties Brutally honest well researched strongly recommended Midwest Book Review This Brief on the Bush Presidency highlights the yawning gap between Bush rhetoric and reality marshalling the key facts on issues in the news plus the background played down by mainstream media Bush's favorite for Iraqi head of state Ahmed Chalabi a convicted felony embezzler and a CIA asset will turn over Iraq's oil industry to campaign contributors like Cheney's Halliburton Saddam Hussein got his start as a CIA asset too By now everyone knows about the Iraq WMD hoax but not the evidence of an even scarier 9 11 cover up We have to look the truth in the face take a deep breath and draw the line to defend our values as a nation says author Cox If information is power he delivers the information that is a source of empowerment

Globalization and Change Berch Berberoglu, 2005 *Globalization and Change* The Transformation of Global Capitalism explores the origins development and transformation of globalization from a critical and historical perspective Berch Berberoglu brings together eight essays authored by prominent sociological scientists from across the nation that examine the dynamics of globalization through an

analysis of class relations and class struggles that define the contemporary global political economy By undertaking a careful examination of the contradictions inherent in capitalist globalization this book provides a thorough understanding of the issues behind the global capitalist economy and the struggle against globalization while at the same time offering a viable solution to the growing exploitation of labor throughout the world This study on global capitalism informed by class analysis is essential to anyone interested in the political implications of globalization and the unfolding class struggles
