

Precious Bane Collins The Miltonic Legacy

Richard Machin, Christopher Norris

Precious Bane Collins The Miltonic Legacy:

Romantic Returns Deborah Elise White, 2000 *Romantic Returns* explores the theorization and operation of imagination in pre romantic and romantic writing Drawing on the poetry and prose of William Collins William Hazlitt and Percy Bysshe Shelley it shows the continuing importance of their understanding of imagination for contemporary debates about the historicity of literature Historicist readings of romanticism have done much to establish how and why romantic aesthetics is ideological an illusory if effective evasion of its material conditions *Romantic Returns* challenges this position by arguing that romantic aesthetics is rather critical a reflective if problematic articulation of those conditions The argument foregrounds the ways in which the aesthetics of romanticism inform its political and economic speculations The book opens with an examination of mid eighteenth century debates about the role of superstition in the constitution of a national literary tradition It considers in particular how Collins s odes figure Scotland as the site of a superstitious poetry that must be assimilated into British history even as Collins questions the very framework of assimilation This ambiguous defense of superstition in the national polity is rewritten by romanticism as a defense of imagination For the romantics the concept of imagination involves an explicit theorization of how the mind s projections play a constitutive role in what appear to be social norms and economic facts Hazlitt clarifies this position in his *Essay on the Principles of Human Action* The *Essay* develops a rhetorical theory of imagination in order to deconstruct the entire metaphysical basis of self interest on which eighteenth and nineteenth century political economy is based Hazlitt s political pamphlets bring this argument to bear on his analysis of the economic interests fueling the Napoleonic wars Despite Hazlitt s enormous and widely acknowledged influence his writings have been little studied on their own account *Romantic Returns* underlies their centrality to the romantic articulation of aesthetics and politics The final sections of the book engage Shelley s complex interrogation of the contradictions involved in just such articulations In both his poetry and prose Shelley turns to law and history as fields in which these contradictions can be negotiated or even resolved But Shelley who once called poets unacknowledged legislators suggests that violence may be unavoidable in any imaginative legislation that attempts to realize itself in properly historical action The passage from poetry to politics cannot evade the problem of force Tracing the crossings between superstition imagination and history in all three of these writers *Romantic Returns* shows how difficult it is to maintain such crossings In doing so it shows too the continuing challenge of romanticism to contemporary historicism

Englische und amerikanische Dichtung: Englische Dichtung : von Dryden bis Tennyson Werner von Koppenfels, 2000 **Studies in Eighteenth-Century British Art and Aesthetics** Ralph Cohen, 2023-04-28 **Milton's Legacy in the Arts** Albert C. Labriola, Edward Sichi, 1988 Milton s influence upon poets and poetry has been broadly and specifically studied often in collections of essays The present volume of original essays by emphasizing and classifying Milton s influence on the arts other than poetry is a significant addition to interdisciplinary scholarship The editors choose to interpret John Good s words literally Milton s influence was powerfully felt

upon all the multiplied forms and phases of eighteenth century life and to examine the implications of that assertion even into twentieth century life No other volume considers the certainty or possibility of Milton s influence on arts as diverse as oratorio opera drama dance book illustration sculpture and landscape architecture Beyond Milton s well documented influence on poets and poetry the contributors focus their attention on the other arts and other creative artists whose imaginations were nevertheless affected by the poet Milton at times profoundly so Their chief aim is to be representative not fully comprehensive in defining describing and demonstrating the manifold influence of Milton on the other arts A related aim is to motivate others to do likewise Divided into three parts Milton and book illustrations Milton and the performing arts and Milton and the philosophy of form this book makes a central and significant point about the impact of Milton s work on the imaginations of artists in various disciplines throughout the following centuries Indeed for many of the works of art analyzed in the present volume Milton must be considered their onlie begetter

A Companion to Eighteenth-Century Poetry Christine Gerrard, 2014-02-10 A COMPANION TO EIGHTEENTH CENTURY POETRY A COMPANION TO EIGHTEENTH CENTURY POETRY Edited by Christine Gerrard This wide ranging Companion reflects the dramatic transformation that has taken place in the study of eighteenth century poetry over the past two decades New essays by leading scholars in the field address an expanded poetic canon that now incorporates verse by many women poets and other formerly marginalized poetic voices The volume engages with topical critical debates such as the production and consumption of literary texts the constructions of femininity sentiment and sensibility enthusiasm politics and aesthetics and the growth of imperialism The Companion opens with a section on contexts considering eighteenth century poetry s relationships with such topics as party politics religion science the visual arts and the literary marketplace A series of close readings of specific poems follows ranging from familiar texts such as Pope s *The Rape of the Lock* to slightly less well known works such as Swift s *Stella* poems and Lady Mary Wortley Montagu s *Town Eclogues* Essays on forms and genres and a series of more provocative contributions on significant themes and debates complete the volume The Companion gives readers a thorough grounding in both the background and the substance of eighteenth century poetry and is designed to be used alongside David Fairer and Christine Gerrard s *Eighteenth Century Poetry An Annotated Anthology* 3rd edition 2014

The Rhetoric of Romantic Prophecy Ian Balfour, 2002 The Romantic era in England and Germany saw a sudden renewal of prophetic modes of writing Biblical prophecy and to a lesser extent classical oracle again became viable models for poetry and even for journalistic prose Notably this development arose out of the new found freedom of biblical interpretation that began in the mid eighteenth century as the Bible was increasingly seen to be a literary and mythical text Taking Walter Benjamin s thinking about history as a point of departure the author shows how the model for Romantic prophecy emerges less as a prediction of the future than as a call to change in the present even as it quotes at key turns texts from the past After surveying developments in eighteenth century biblical hermeneutics as well as the numerous instances of prophetic

eruption in Romantic poetry the book culminates in close readings of works by Blake H Iderlin and Coleridge Each of these writers interpreted the Bible in strong variously radical and conservative ways and each reworked prophetic texts in often startling fashion The author s reading of Blake focuses on the complex temporal and rhetorical dynamics at work in a prophetic tradition with attention paid to the key mediating figure of Milton The chapter on H Iderlin investigates the truth claim of poetry and the consequences of H Iderlin s insight into the necessarily figural character of poetry The analysis of Coleridge correlates his theory of allegory and symbol with his theory and practice of political writing which often relies on mobilizing prophetic authority Together the readings force us to reexamine the claims and practices of Romantic poets and thinkers and their ideas and ideologies not without engendering some allegorical resonance with issues in our own time

Mapping Mythologies Marilyn Butler,2015-08-10 In this groundbreaking work of revisionary literary history Marilyn Butler traces the imagining of alternative versions of the nation in eighteenth century Britain both in the works of a series of well known poets Akenside Thomson Gray Collins Chatterton Macpherson Blake and in the differing accounts of the national culture offered by eighteenth century antiquarians and literary historians She charts the beginnings in eighteenth century Britain of what is now called cultural history exploring how and why it developed and the issues at stake Her interest is not simply in a succession of great writers but in the politics of a wider culture in which writers scholars publishers editors booksellers readers all play their parts For more than thirty years Marilyn Butler was a towering presence in eighteenth century and romantic studies and this major work is published for the first time *Precious Bane* Paul S. Sherwin,

Post-structuralist Readings of English Poetry Richard Machin,Christopher Norris,1987-01-29 A selection of close readings of canonical English poems with a focus on ideas and debates in critical theory and literary history Lyric Generations G. Gabrielle Starr,2015-11-01 Eighteenth century British literary history was long characterized by two central and seemingly discrete movements the emergence of the novel and the development of Romantic lyric poetry In fact recent scholarship reveals that these genres are inextricably bound constructions of interiority developed in novels changed ideas about what literature could mean and do encouraging the new focus on private experience and self perception developed in lyric poetry In *Lyric Generations* Gabrielle Starr rejects the genealogy of lyric poetry in which Romantic poets are thought to have built solely and directly upon the works of Chaucer Spenser Shakespeare and Milton She argues instead that novelists such as Richardson Haywood Behn and others while drawing upon earlier lyric conventions ushered in a new language of self expression and community which profoundly affected the aesthetic goals of lyric poets Examining the works of Cowper Smith Wordsworth Coleridge and Keats in light of their competitive dialogue with the novel Starr advances a literary history that considers formal characteristics as products of historical change In a world increasingly defined by prose poets adapted the new forms characters and moral themes of the novel in order to reinvigorate poetic practice **Eighteenth-century**

English Literary Studies Waldo Sumner Glock,1984 Books and Pamphlets, Including Serials and Contributions to

Periodicals Library of Congress. Copyright Office,1977-07 **The Eighteenth Century** ,1984 **An Annotated Critical Bibliography of John Milton** C. A.
