Prefabs The History Of The U K Temporary Housing Programme:

Prefabs Brenda Vale, 2022-02-19 Originally published in 1995 this book unravels the history of the temporary bungalow and shows that perhaps it was more a question of providing a new peace time product for factories than a means of providing accommodation for the homeless Built in a period of housing history which remains fascinating for architects and planners and admired by some of their first occupants but berated by others those prefabs remaining today are subject to preservation orders but also perhaps offer a solution to the ongoing housing crisis in the UK The book includes chapters on the development of the prefab house in the UK comparisons with temporary housing programmes in the USA Sweden and Germany political and economic considerations to the UK Temporary Housing Programme and a discussion of the design of the Arcon Uni Seco Tarran and Aluminium Temporary Bungalows **Utopian England** Dennis Hardy, 2000 This book is about just one episode in the perennial search for perfection but what is revealed has lessons that extend well beyond a particular time and place *Prefab Architecture* Ryan E. Smith, 2011-06-03 Prefab Architecture is beyond theory and beyond most of what we think we know about pods containers mods and joints This book is more than Prefabrication 101 It is the Joy of Cooking writ large for the architecture and construction industries From the Foreword by James Timberlake FAIA THE DEFINITIVE REFERENCE ON PREFAB ARCHITECTURE FOR ARCHITECTS AND CONSTRUCTION PROFESSIONALS Written for architects and related design and construction professionals Prefab Architecture is a guide to off site construction presenting the opportunities and challenges associated with designing and building with components panels and modules It presents the drawbacks of building in situ on site and demonstrates why prefabrication is the smarter choice for better integration of products and processes more efficient delivery and realizing more value in project life cycles In addition Prefab Architecture provides A selected history of prefabrication from the Industrial Revolution to current computer numerical control and a theory of production from integrated processes to lean manufacturing Coverage on the tradeoffs of off site fabrication including scope schedule and cost with the associated principles of labor risk and quality Up to date products featuring examples of prefabricated structure enclosure service and interior building systems Documentation on the constraints and execution of manufacturing factory production transportation and assembly Dozens of recent examples of prefab projects by contemporary architects and fabricators including Kieran Timberlake SHoP Architects Office dA Michelle Kaufmann and many others In Prefab Architecture the fresh approaches toward creating buildings that accurately convey nature and expanded green building methodologies make this book an important voice for adopting change in a construction industry entrenched in traditions of the past Prefab Homes Elisabeth Blanchet, 2014-10-10 At the end of the Second World War Winston Churchill promised to manufacture half a million prefabricated bungalows to ease the housing shortage in the end more than 156 000 temporary prefabs were delivered Nicknamed Palaces for the People and with convenient kitchens bathrooms and heating systems they proved popular and instead of being demolished as intended they were

defended by residents who campaigned to keep their family homes and communities Nearly seventy years later as the last of these two bedroom homes are being demolished Elisabeth Blanchet tells the story of these popular dwellings and their gardens and shows the various designs that were produced Through the stories and memories of residents she also reveals the communities who were pleased to live in the prefabs

System Building and Aesthetic Preference Razak

Basri,2011-08-03 Master s Thesis from the year 2007 in the subject Art Architecture History of Construction Robert Gordon University Aberdeen course MSc in Advanced Architectural Studies language English abstract This dissertation is concerned with the aesthetics of architecture using system building in housing in the UK It has been produced in response to a growing level of interest in the system building method and in the aesthetic value of housing schemes constructed using the system building method The aim here is to consider research on the system building methods within a house building context and test different types or categories of housing schemes based on aesthetic preference This study explores issues of perception and level of aesthetic value In general aesthetics is the study of the psychological responses to beauty and artistic experiences Aesthetics is the branch of philosophy which deals with the nature of art and of artistic judgment Some of the central questions of aesthetics focus on the beautiful under what circumstances it may be said to exist what criteria are to be used to judge the beautiful and whether or not these criteria apply equally to literature and music There are two traditional views concerning what constitutes aesthetic values The first finds beauty to be objective that is inherent in the entity itself The second position holds that beauty is subjective in that it depends on the attitude of the observer Immanuel Kant argued that judgments of taste as he called aesthetic judgments rest on feelings which though subjective have universal validity The instrumental theory of value an extension of subjectivism holds that the value of art consists in its capacity to produce an aesthetic experience Kristen L Zacharias System building leads to a faster completion period well organized site and better quality workmanship and most importantly offers major cost benefits for clients architects and builders Basri 2006 This also means that the construction method is simplified and standardised and ensures good communication between the parties involved Fergusson 1981 For the purpose of this study the concept of system building is to be understood in its widest possible context

***System Building and Aesthetics* Razak Basri,2011-08-03 Bachelor Thesis from the year 2006 in the subject Art Architecture History of Construction Robert Gordon University Aberdeen course BSc in Architecture language English abstract**

The case for System Building Method and aesthetics is often compelling Building owners are often dissatisfied with their high construction costs and the architects often feel constrained to limit their talent and creativity when confronted with the necessity of adopting System Building Method The design of systemised construction buildings need not lead to a monotonous form of architecture Many of the finest such buildings in Britain are constructed with a high degree of aesthetic value The design of a systemised

building system should also aim to achieve aesthetic value and user satisfaction along with economy of materials production methods and erection techniques **Siedlungsforschung** ,1995 **Housing for the Millions** Koos Bosma,Dorine van Hoogstraten,Martijn Vos,2000 Home represents a fundamental value in a person s life Although many factors pertaining to his housing situation are beyond the occupant s control he still attempts to create his own domestic domain the finite center of a world in which he is free to be himself As long ago as 1961 in his book *Supports An alternative to mass housing* John Habraken suggested a completely different approach to mass housing in the Netherlands In an effort to offer the occupant of a mass produced dwelling the opportunity to make a personal statement he introduced the concept of a separation of support and infill Habraken sees the support structure as the aspect of housing production that represents communal responsibility and the infill as the aspect that stands for individual control He formulated the support and infill concept to introduce variation and personal authority into millions of dwellings This alternative was to be put into practice by the Foundation for Architects Research SAR which made Habraken its first director The ambition of the SAR to radically change the production methods of mass housing led to concepts and rules of play that had repercussions on the entire building cycle from architectural design to product development All the achievements disappointments successes and failures involved in the realization of an alternative to traditional housing construction can be discovered in this book This is the first time that the intellectual heritage of the SAR has been brought together in book form and considered within a broader international perspective Bookjacket **The Architects' Journal** ,2003 **Proceedings** ,2006 **Royal Historical Society Annual Bibliography of British and Irish History** Austin Gee,1996 The Royal Historical Society s Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians **Prefabrications** Gary Robins,Ian Walker,2001 **Built Environment** ,1996 [International Journal for Housing Science and Its Applications](#) ,2002 *History of Technology* Alfred Rupert Hall,2004 **Town & Country Planning** ,1996 **Current Work in the History of Medicine** ,1998 *Construction History* ,1994 **The Town Planning Review** Patrick Abercrombie,1996
