Prehistoric Cannibalism At Mancos 5MTUMR 2346:

Prehistoric Cannibalism at Mancos 5MTUMR-2346 Tim D. White, 2014-07-14 Cannibalism is one of the oldest and most emotionally charged topics in anthropological literature Tim White's analysis of human bones from an Anasazi pueblo in southwestern Colorado site 5MTUMR 2346 reveals that nearly thirty men women and children were butchered and cooked there around A D 1100 Their bones were fractured for marrow and the remains discarded in several rooms of the pueblo By comparing the human skeletal remains with those of animals used for food at other sites the author analyzes evidence for skinning dismembering cooking and fracturing to infer that cannibalism took place at Mancos As White evaluates claims for cannibalism in ethnographic and archaeological contexts worldwide he describes how cultural biases can often distort the interpretation of scientific data This book applies and introduces anatomical taphonomic zooarchaeological and forensic methods in the investigation of prehistoric human behavior It is an important example of how we can exchange opinion for knowledge Cannibalism is a controversial topic because many people do not want to believe that their prehistoric ancestors engaged in such activity but they will be hard put to reject this meticulous study Kent V Flannery University of Michigan This is the best piece of detailed research yet to appear that seeks to put in place a body of justified knowledge and a procedure for its use in making inferences about the past No student of bones can ignore this work Lewis R Binford University of New Mexico This could be one of the most important books in archaeology written in the last decade James F O Connell University of Utah Paleontologists and zooarchaeologists archaeologists and physical anthropologists taphonomists and forensic scientists should all read this work Quite frankly I think this will become one of the most important books of the 1990s R Lee Lyman University of Missouri Columbia Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Churchill, 2017-04-15 *Wielding Words like Weapons* is a collection of acclaimed American Indian Movement activist intellectual Ward Churchill's essays in indigenism selected from material written during the decade 1995-2005. It includes a range of formats from sharply framed book reviews and equally pointed polemics and op eds to more formal essays designed to reach both scholarly and popular audiences. The selection also represents the broad range of topics addressed in Churchill's scholarship including the fallacies of archeological and anthropological orthodoxy such as the insistence of cannibalologists that American Indians were traditionally man-eaters. Hollywood's cinematic degradations of native people, questions of American Indian identity, the historical and ongoing genocide of North America's native peoples and the systematic distortion of the political and legal history of U.S. Indian relations. Less typical of Churchill's oeuvre are the essays commemorating Cherokee anthropologist Robert K. Thomas and Yankton Sioux legal scholar and theologian Vine Deloria Jr. More unusual still is his profoundly personal effort to come to grips with the life and death of his late wife Leah Renae Kelly, thereby illuminating in very human terms the grim and lasting effects of Canada's residential schools upon the country's indigenous peoples. A foreword by Seneca historian Barbara Alice Mann describes the sustained efforts by police and intelligence agencies as well as university administrators and other academic adversaries to discredit or otherwise neutralize both the man and his work. Also included are both the initial stream-of-consciousness version of Churchill's famous or notorious little Eichmann's opinion piece analyzing the causes of the attacks on 9/11 as well as the counterpart essay in which his argument was fully developed.

Archäologisches Korrespondenzblatt, 1997 **Das sog. Lukasgrab in Ephesos** Andreas Pülz, 2010 Das erstmals im 19. Jahrhundert untersuchte Lukasgrab südöstlich des Staatsmarktes von Ephesos wurde wegen eines kaiserzeitlichen Reliefs mit der Darstellung eines Zebus samt sekundär eingetieftem Kreuz über dem Buckel des Tieres zunächst als Grabanlage des Evangelisten bezeichnet. Aufgrund weiterer Forschungen wurde schliesslich eine Interpretation als römisches Heroon oder als Tempel favorisiert, der in frühbyzantinischer Zeit zu einer Kirche umfunktioniert worden sein soll. Dieses Bild ist allerdings nach den Untersuchungen der Jahre 1997 bis 2004 grossenteils zu revidieren. Bei dem Rundbau handelt es sich vielmehr um eine Brunnenanlage, die im 2. Jahrhundert nach Christus inmitten eines von Säulenhallen eingefassten Marktplatzes errichtet worden ist.
