Prehistoric Stone Monuments Hc 1993:

The Stone Circles of Britain, Ireland, and Brittany Aubrey Burl, 2000-01-01 The spectacular stone circles of western Europe some nearly 6000 years old have intrigued viewers through the ages This beautiful book about these megalithic rings explores their ancestry methods of construction and eventual desertion A substantially revised version of Aubrey Burl s highly praised work *The Stone Circles of the British Isles* it offers new insights into the purpose of stone circles It also provides a new interpretation of Stonehenge and of Callanish in Scotland the first overview of the cromlechs in Brittany a discussion of the problems of archaeoastronomy as related to stone circles a greatly expanded Gazetteer and an up to date list of radiocarbon dates and recent excavations

Exploring Ancient Skies David H. Kelley, Eugene F. Milone, 2005-12-06 *Exploring Ancient Skies* brings together the methods of archaeology and the insights of modern astronomy to explore the science of astronomy as it was practiced in various cultures prior to the invention of the telescope The book reviews an enormous and growing body of literature on the cultures of the ancient Mediterranean the Far East and the New World particularly Mesoamerica putting the ancient astronomical materials into their archaeological and cultural contexts The authors begin with an overview of the field and proceed to essential aspects of naked eye astronomy followed by an examination of specific cultures The book concludes by taking into account the purposes of ancient astronomy astrology navigation calendar regulation and not least the understanding of our place and role in the universe Skies are recreated to display critical events as they would have appeared to ancient observers events such as the supernova of 1054 the lion horoscope or the Star of Bethlehem *Exploring Ancient Skies* provides a comprehensive overview of the relationships between astronomy and other areas of human investigation It will be useful as a reference for scholars and students in both astronomy and archaeology and will be of compelling interest to readers who seek a broad understanding of our collective intellectual history

Stonehenge Michael Parker Pearson, Stonehenge Riverside Project (England), 2012-06-07 Our knowledge about Stonehenge has changed dramatically as a result of the Stonehenge Riverside Project 2003 2009 led by Mike Parker Pearson and included not only Stonehenge itself but also the nearby great henge enclosure of Durrington Walls This book is about the people who built Stonehenge and its relationship to the surrounding landscape The book explores the theory that the people of Durrington Walls built both Stonehenge and Durrington Walls and that the choice of stone for constructing Stonehenge has a significance so far undiscovered namely that stone was used for monuments to the dead Through years of thorough and extensive work at the site Parker Pearson and his team unearthed evidence of the Neolithic inhabitants and builders which connected the settlement at Durrington Walls with the henge and contextualised Stonehenge within the larger site complex linked by the River Avon as well as in terms of its relationship with the rest of the British Isles Parker Pearson s book changes the way that we think about Stonehenge correcting previously erroneous chronology and dating filling in gaps in our knowledge about its people and how they lived identifying a previously unknown type of Neolithic building discovering

Bluestonehenge a circle of 25 blue stones from western Wales and confirming what started as a hypothesis that Stonehenge was a place of the dead through more than 64 cremation burials unearthed there which span the monument's use during the third millennium BC. In lively and engaging prose Parker Pearson brings to life the imposing ancient monument that continues to hold a fascination for everyone. *The Dartmoor Reaves* Andrew Fleming, 2008-04-01 First published in 1988. The Dartmoor Reaves is a classic story of archaeological fieldwork and discovery and a winner of the Archaeological Book Award. This major new edition adds both color illustrations and two substantial new chapters to the original groundbreaking text which revolutionized our understanding of Britain's prehistoric landscapes. Dartmoor has long been known for the richness of its prehistoric heritage: stone circles, hut circles, massive burial cairns, and stone rows all pepper the landscape. In the 1970s a new dimension was added with the recognition that the long ignored reaves (ruined walls) are also prehistoric. Dartmoor now posed all sorts of questions about the nature of Bronze Age society. Andrew Fleming describes the critical moment when his own fieldwork picked up the pattern of the reaves and he realized their true identity. His new chapters place Dartmoor's large-scale planned prehistoric landscapes in the context of other co-axial field systems that have since been found elsewhere and also discuss their meaning in the light of the latest research on the Bronze Age. **Prehistoric Journeys** Vicki Cummings, Robert Johnston, 2007. This collection of thirteen papers focuses on what it meant to be on the move at different times in prehistory. Ideas of journeys and travel are integral to many traditions of interpreting the prehistoric archaeological record. Travel was after all the driving force behind the formation and transformation of identity. How ironic it is that this feature of prehistory has been so overlooked when the ancient world's discovery in the Eighteenth and Nineteenth Centuries occurred primarily as the result of travel. The contributors to this volume see journeys as an integral part of prehistoric life, socially meaningful, which must be understood within their prehistoric contexts. *The Prehistoric Archaeology of Ireland* John Waddell, 1998. *Avebury* Mark Gillings, Joshua Pollard, 2004-10-28. Drawing on new research data accumulated by the authors in their fieldwork at the archaeological site at Avebury, this title examines the range of meanings and interpretations Avebury has accumulated over 4500 years. **Prehistoric Dorset** John Gale, 2003. This is a systematic survey of the county of Dorset's outstanding prehistoric monuments from the Neolithic to the impressive hillforts of the Iron Age. Cultural Heritage Microbiology Ralph Mitchell, Christopher J. McNamara, 2010. Ideal for anyone concerned with recognizing and dealing with microbial deterioration of heritage materials. Provides a unique single overview of the seminal literature in conservation microbiology. Presents the current state of the art along with a synthesis of the major developments over the years. Represents the findings of leading international experts and pioneers in the field. Offers conservation scientists and conservators an inclusive view of the heritage conservation field plus extensive resources for further investigation. **Proceedings of the Prehistoric Society for ...**, 1996.
