## **Randon Thoughts From The Cosmos:**

*Random Thoughts* Alexander Villarasa M.D.,2019-04-15 I titled this book *Random Thoughts* overtly tongue in cheek because as I have argued in the introduction and preface I do not believe in anything random about why and how we exist in a nonrandom universe I strongly believe in creationism one that does not deny the factuality of evolution in that creative process The way I see it the universe and our existence was schemed designed and finely tuned by a transcendent supremely sentient impulse God who is not into acts of futility The essay titled *It's All about God* specifically argues the idea that God's creation of sentient beings was His act of utmost utility because if we are not here to perceive experience and witness the universe in all its glory it would just be cold dead space out here there and everywhere with neither usefulness nor timeliness
