Raoul Wallenberg Institute Compilation Of Human Rights Instruments:

The Raoul Wallenberg Institute Compilation of Human Rights Instruments Göran Melander, Gudmundur Alfredsson, Leif Holmström, 2021-11-08 **The Raoul Wallenberg Institute Compilation of Human Rights Instruments** Göran Melander, Gudmundur Alfredsson, Leif Holmström, 2004 Contents **The Raoul Wallenberg Institute Compilation of Human Rights Instruments** Göran Melander, Gudmundur Alfredsson, Leif Holmström, 2012-05-07 In 1997 this title was published by Martinus Nijhoff Publishers as the first volume in the series The Raoul Wallenbrg Institute Human Rights Library In 2004 the second edition of the compilation was published and the present publication is the third revised edition of the book *International Law and Indigenous Peoples* Joshua Castellino, Niamh Walsh, 2005-03-01 This volume a collection of essays by a variety of scholars in the field of indigenous rights originates from the Irish Centre for Human Rights at the National University of Ireland in Galway It highlights those instances in the work of international organizations where advances have been made concerning indigenous rights It also devotes attention to the Permanent Forum on Indigenous Issues to the Committee on the Elimination of Racial Discrimination and to a number of thematic issues in the field The human rights situations facing indigenous peoples in Australia Bangladesh Canada India Kenya Mexico Nicaragua Nigeria and South Africa are dealt with in separate chapters These surveys show a range of reactions to the multiple problems of discrimination or lack of proper responses as far as domestic legislation national implementation of the laws and national compliance with the applicable international standards are concerned **Judicial Protection of Economic, Social and Cultural Rights** Bertie G. Ramcharan, 2005-08-01 The implementation of economic social and cultural rights is a most pressing item on the international human rights agenda Millions of people go without food health shelter education work social security not because the resources are unavailable to provide for these basic human rights but because societies are badly governed or democracy is lacking or the rule of law is absent or simply because there is a failure of understanding about how to go about the practical implementation of these rights In the discussion of this issue and about the implementation of economic social and cultural rights generally it is sometimes heard that economic social and cultural rights are rights of progressive application not capable of judicial determination This volume seeks to bring together for the first time a collection of documents and case law from different parts of the world which shows the Courts at work in providing judicial protection of economic social and cultural rights One conclusion stands out from these cases the courts do have a role to play in providing judicial protection of these rights as the decisions reproduced in this volume make clear the era of justiciability of economic social and cultural rights has arrived **Essays in Honour of Göran Melander** Jonas Grimheden, Rolf Ring, 2006 This volume illustrates the complex relationship between dissemination of human rights standards and their application in human rights law and thus serves as a tribute to Melander s belief in and commitment to the dynamics of education in human rights law *Beyond a One-Dimensional State: An Emerging Right to Autonomy?* Zelim

Skurbaty,2005-01-01 The beginning of the 21st century is characterized by global structural changes and worldwide concern for the problems surrounding the relationships between states and minority groups Autonomy has become a code word for an all purpose means of inclusion of sub state groups in the three major functions that make for the essence of international law the allocation of competence the furtherance of common interest and the maintenance of international peace Since to be autonomous is to be a law to oneself and autonomous agents are self governing agents the authors of this present volume try to give an answer each from a particular professional perspective to one overriding question what conditions must be met in order to ensure that the autonomous agents govern themselves and govern effectively With a scholarly attention to analytical precision factual accuracy and scrupulous objectivity the authors of the present volume coming from such diverse fields as international law philosophy ethics economics political science detail and explore the protean character of autonomy as both a concept autonomy s subtypes autonomy vs other arrangements for the diffusion of power within heterogeneous societies new definitions of the concept etc and a practice the potential of autonomy in the peaceful resolution of ethnic conflicts comparative case studies ranging from Greenland to Eritrea from the Baltic States to South Asia For all their differences in background and style the authors share the common belief that autonomy if properly understood and applied holds considerable potential for ensuring an effective and harmonious co existence for diverse groups within modern states As such this book will hold particular appeal for all those students academics policymakers practitioners who are on a quest for empowering insights vis vis state minority modus vivendi and ways to mitigate inter group tensions by compromise

The Relationship Between the International Criminal Court and National Jurisdictions Jo Stigen,2008 The principle of complementarity provides a framework as to when the Prosecutor of the ICC may and should interfere vis a vis national judicial systems The principle acknowledges the primary right of states to prosecute while also recognising the need for international interference when states fail in this task As formulated in the Rome Statute however it leaves complex questions unresolved To mention a few When is a national criminal proceeding really an attempt to shield the perpetrator When can a national judicial system be characterised as unavailable And when will an ICC prosecution serve the interests of justice This book seeks to answer these and other related questions by interpreting the relevant provisions of the Rome Statute and discussing them in a broad context The book also critically assesses policy considerations underlying the establishment of the ICC including the implications of international criminal justice for achieving peace It asks inter alia whether the ICC should set aside an amnesty which a national truth commission has granted in an attempt to achieve a peaceful transition from tyranny to democracy

Constitutionalism Joakim Nergelius,2008 This book has its roots in a conference on recent developments in Nordic and German constitutional law that took place in Berlin in 2002 at the Nordic Cultural Centre That conference was organised within the project Konstitutionalism demokrati och den nordiska valfardsstaten Constitutionalism Democracy and the Nordic Welfare State financed by the Joint Committee for Nordic

Research Councils for the Humanities and the Social Sciences NOS HS The volume contains the edited and updated papers which emerged from this meeting of minds They offer insight into some of the new exciting strands of constitutional thought that are currently present in the Nordic doctrine where many new paths have been opened in recent years The contrast with the situation two decades ago is indeed striking As far as German and European law are concerned some of the most important theoretical issues in the doctrine are analysed in a number of particularly rewarding and inspiring contributions

discussion presented at an international consultation convened by the Council for International Organizations of Medical Sciences CIOMS to guide revision of the CIOMS International Ethical Guidelines for Biomedical Research Involving Human Subjects The Guidelines first issued in 1982 and then revised in 1993 are being updated and expanded to address a number of new and especially challenging ethical issues These include issues raised by international collaborative trials of drugs in developing countries especially expensive drugs and the use of placebo controls in randomized clinical trials Others arise from the complexity of research in human genetics including stem cell research and in reproductive biology Throughout particular attention is given to the difficult questions that arose during the heated debate over trials in developing countries of short duration zidovudine AZT therapy to reduce perinatal transmission of HIV The International Ethical Guidelines for Biomedical Research Involving Human Subjects set out a code of research ethics that is widely used by ethical review committees and other bodies responsible for reviewing and overseeing the ethical design of studies and conduct of research The revision of the Guidelines is being coordinated by CIOMS in collaboration with WHO The consultation centered on seven specially commissioned papers authored by international experts that explore some of the more difficult issues in depth Each is followed by an invited commentary often expressing opposing views and a summary of the issues or conclusions that emerged during the subsequent debate The first paper on justice in international research deals with the question of whether proposals for research to be conducted in a developing country should make provision for future access of the population involved to the interventions under investigation Also considered are questions that arise when research uses populations in developing countries to investigate interventions that will be of exclusive benefit to the industrialized world Case studies of recent drug trials and their research protocols are discussed to illustrate circumstances in which use of populations in developing countries is justified or constitutes exploitation Ethical challenges of the randomized controlled trial are considered in the second paper which includes a discussion on the equitable distribution of benefits and risks the use of placebo for controls and the obligation to ensure that the participation of controls does not compromise their medical care or endanger their health A paper on informed consent in international health research considers how cultural factors influence communication and language in the informed consent process and respect for privacy and confidentiality in the research Subsequent papers address issues in genetics research and reproductive biology including the moral status of fetuses and the use of embryos in research and examine the contribution which international human rights instruments can make in the application of the general principles of ethics to research involving human subjects The final paper gives an overview of capacity building and the role of communities in international biomedical research
