Rape And Womans Identity:

Women, States and Nationalism Sita Ranchod-Nilsson, Mary Ann Tetreault, 2003-09-02 Women States and Nationalism counters this attitude and examines the many and contradictory ways in which women negotiate their places in the nation. The volume includes theoretical essays that explore the multiple ways in which the very concept of nation is based upon notions of family sexuality and gender power which are often overlooked or downplayed by male stream scholarship. It gathers together an outstanding panel of feminist scholars and area studies specialists who through a series of focused case studies analyse diverse issues which include gender and sectarian conflict in Northern Ireland the paradox of Israeli women soldiers women civic duty and the military in the USA the Hindu Right in India power agency and representation in Zimbabwe political identity and heterosexism. This timely volume is a highly valuable resource for students and scholars of Nationalism Internationalism Studies and Women's Studies.

Semiotics of Rape Rupal Oza, 2022-11-14 In *Semiotics of Rape* Rupal Oza follows the social life of rape in rural northwest India to reveal how rape is not only a violation of the body but a language through which a range of issues including caste and gender hierarchies control over land and labor and the shape of justice are contested. Rather than focus on the laws governing rape Oza closely examines rape charges to show how the victims and survivors of rape reclaim their autonomy by refusing to see themselves as defined entirely by the act of violation. Oza also shows how rape cases become arenas where bureaucrats village council members caste communities and the police debate women's sexual subjectivities and how those varied understandings impact the status and reputations of individuals and groups. In this way rape gains meaning beyond the level of the survivor and victim to create a social category. By tracing the shifting meanings of sexual violence and justice Oza offers insights into the social significance of rape in India and beyond.

Rape and Woman's Identity William B. Sanders, 1980-07 Rape is an assault on a woman's identity reputation and sense of self according to the author. Sanders originally intended to study the interaction of police and rape victims but found it necessary to widen the scope of his research to include the legal cultural and social context of rape its

typical physical process the reasons for it and its effect on victims What emerges is a study of rape from every possible viewpoint one that leads the author to a discussion of sex role and self in society Altogether this book is eminently readable It is written in a simple comprehensive style very rare in works employing a dramaturgical ethnomethodological approach The chapters and sections are short and peppered

International Criminal Law and Sexual Violence against Women

Daniela Nadj,2018-05-23 This book explores the prosecution of wartime sexual violence in international criminal law and asks what the juridicalisation of gender based violence signifies for women The book explores the portrayal of the various gendered identities that surface in armed conflict and it asks whether the law is capable of reflecting these in subsequent judgements Focusing on the International Criminal Tribunal for the Former Yugoslavia and the International Criminal Tribunal for Rwanda as well as subsequent developments in the International Criminal Court the book shows how the tribunals have delivered landmark jurisprudence in the area of sexual violence against women and provided a legacy for how gender justice is incorporated into international law However Daniela Nadj argues that in the relevant cases there is a tendency to depict women in monolithic fashion with little agency or sense of identity beyond their ethnicity By bringing to the surface the complexity and multi faceted gendered identities in wartime the book calls for a reconceptualisation of notions of femininity in armed conflict

Contesting the Politics of Genocidal Rape

Debra B. Bergoffen,2013-03-01 Rape traditionally a spoil of war became a weapon of war in the ethnic cleansing campaign in Bosnia The ICTY Kunarac court responded by transforming wartime rape from an ignored crime into a crime against humanity In its judgment the court argued that the rapists violated the Muslim women s right to sexual self determination Announcing this right to sexual integrity the court transformed women s vulnerability from an invitation to abuse into a mark of human dignity This close reading of the trial guided by the phenomenological themes of the lived body and ambiguity feminist critiques of the autonomous subject and the liberal sexual social contract critical legal theory assessments of human rights law and institutions and psychoanalytic analyses of the politics of desire argues that the court by validating women s epistemic authority their right to establish the meaning of their experience of rape and affirming the dignity of the vulnerable body thereby dethroning the autonomous body as the embodiment of dignity shows us that human rights instruments can be used to combat the epidemic of wartime rape if they are read as de legitimating the authority of the masculine autonomous subject and the gender codes it anchors

Handbook of Family Violence Alan S. Bellack,Michel Hersen,R.L. Morrison,Vincent B. Van Hasselt,1987-11-30 In the last decade there has been heightened clinical and investigative activity in the area of family violence This of course is partly attributable to recent surveys showing a high incidence of family violence in the United States For example there are indications that nearly 30% of married women in this country are victims of physical abuse by spouses at some point in their marriage Further FBI statistics show that approximately 13% of all homicides are husband wife killings Moreover it has been projected that such figures are likely to increase over the next several years Consistent with these trends funding of family violence research by both federal and private agencies has increased Indeed federal agencies such as the National Institute of Mental Health and the National Institute of Law Enforcement and Criminal Justice have provided considerable support for work in this area In addition family violence particu larly wifebattering child abuse and sexual abuse of children has been the focus of media attention at the national level and has generated intensive interest in both lay and profes sional publications Moreover there have been several recent governmental hearings and investigations regarding the prevalence of these problems **Female Identity in Contemporary Zimbabwean Fiction** Katrin Berndt,2005 Minnesota Reports Minnesota. Supreme Court,1890 Cases argued and determined in the Supreme Court of Minnesota *Rape and Inequality* Julia R. Schwendinger,Herman Schwendinger,1983-05 The authors review popular legal and scientific explanations of rape and offer a new and persuasive approach to understanding violence against women They show that rape is not common to all societies and conclude that it is linked to general levels of sexual inequality sexism and violence It is seen as a consequence of the development of capitalism In supporting their thesis the authors present material that will be of great interest to anthropologists criminologists political economists and people in women s studies This is the best book available on rape and will remain so for the foreseeable future It is inordinately well written brilliantly conceived and imaginatively researched I wholeheartedly recommen *The Criminal Law Magazine and Reporter* Stewart Rapalje,Robert Linn Lawrence,Gustav Adolf
