Science Studies An Advanced Introduction:

Science Studies David J Hess, 1997-10-01 The first comprehensive survey of this interdisciplinary field combining a concise overview of key concepts with an original and integrated framework Virtually every aspect of modern life is suffused with the byproducts of scientific research yet the study of science itself what it is how it is done and how it has evolved over time is relatively new By examining the political historical and cultural dimensions of science and technology science studies provides a conceptual tool kit for thinking about scientific in more sophisticated ways In the process of bringing disparate fields together under one tent David J Hess realizes the full promise of science studies long uncomfortably squeezed into other more traditional disciplines He provides a clear discussion of the issues and misunderstandings that have arisen in these interdisciplinary conversations His survey includes recent developments in philosophy sociology anthropology history cultural studies and feminist studies Science Studies moves beyond the discipline bound blinders of a sociology history philosophy or anthropology of science By creating its own transdisciplinary field Hess argues science studies can provide crucial conceptual tools for public discussions about the role of science and technology in a democratic society Handbuch Spezielle Soziologien Georg Kneer, Markus Schroer, 2010-08-09 Das Handbuch Spezielle Soziologien gibt einen umfassenden Überblick über die weit verzweigte Landschaft soziologischer Teilgebiete und Praxisfelder Im Gegensatz zu vergleichbaren Buchprojekten versammelt der Band in über vierzig Einzelbeiträgen neben den einschlägigen Gegenständen und Forschungsfeldern der Soziologie wie etwa der Familien Kultur und Religionssoziologie auch oftmals vernachlässigte Bereiche wie etwa die Architektursoziologie die Musiksoziologie und die Soziologie des Sterbens und des Todes Damit wird sowohl dem interessierten Laien den Studierenden von Bachelor und Masterstudiengängen als auch den professionellen Lehrern und Forschern der Soziologie ein Gesamtbild des Faches vermittelt Die jeweiligen Artikel führen grundlegend in die einzelnen Teilbereiche der Soziologie ein und informieren über Genese Entwicklung und den gegenwärtigen Stand des Forschungsfeldes **Science and Technology Studies** Stefan Beck, Jörg Niewöhner, Estrid Sörensen, 2014-03-15 Dieser Band ist die erste deutschsprachige sozialanthropologische Einführung in das Feld der Science and Technology Studies ein Forschungsfeld das sich der empirischen Untersuchung des alltäglichen Zusammenspiels von Wissenschaft Technologie und gesellschaftlicher Ordnung widmet Der sozialanthropologische Zugriff stellt neben den grundlegenden theoretischen und methodischen Aspekten klassische sowie neuere ethnographische Arbeiten in den Mittelpunkt und diskutiert die Bedeutung von Materialität Wissen und Praxis sowie von Infrastrukturen und Klassifikationen für das Verständnis von Wissenschaft und Technik **Episteme der Medienwissenschaft** Christian Filk, 2015-07-15 Die Studie unternimmt den Versuch die jüngere Geschichte der hoch dynamischen Medienwissenschaft mittels einer systemtheoretischen Wissenschaftsforschung zu analysieren Dabei werden nicht nur einzelne Forschungsrichtungen innerhalb der Formierung einer medienwissenschaftlichen Episteme strukturell nachgezeichnet sondern darüber hinaus auch auf die Realisierung post

klassischer Differenzierungsschemata im Wissenschaftssystem hin befragt Durch die Untersuchung von Selbst Beschreibungslogiken in diesem kognitiven Feld leistet der Band nicht zuletzt einen wichtigen Beitrag zur Rekonstruktion transdisziplinärer Wissenschaftskulturen *Das Wertfreiheitsideal in der sozialen Erkenntnistheorie* Anke Büter, 2013-05-02 Die Wertfreiheit der Wissenschaft gilt als Bedingung ihrer Objektivität Eine Analyse des entsprechenden Wertfreiheitsideals zeigt jedoch dass dieses auf einer Reihe von Voraussetzungen beruht wie der Trennbarkeit kognitiver von anderen Werten und der epistemischen Unabhängigkeit der Rechtfertigung die sich als problematisch erweisen Eine Fallstudie zur Frauengesundheitsforschung untermauert zudem dass die Möglichkeiten für Werteinflüsse in der Wissenschaft weit komplexer sind als dieses Ideal zu erfassen vermag Daher bietet ein sozialepistemologischer Ansatz der auf Wertvielfalt statt Wertfreiheit setzt die bessere Grundlage für Objektivität Epistemische Vertrauenswürdigkeit erfordert nicht Neutralität sondern einen pluralistischen und konsensorientierten kritischen Prozess The Revolutions Of Scientific Structure Colin G Hales, 2014-07-07 This book discusses two main cultural problems behind the failure of machine consciousness and artificial general intelligence AGI projects over many decades The first problem recognizes that building a conscious AGI means building an artificial scientist The book identifies the responsible pitfalls in mainstream scientific behavior and eliminates them by proposing a new operational framework for scientists called Dual Aspect Science The second problem arises because scholars involved in machine consciousness and AGI essentially aim to replicate brains with computers They are demonstrably not doing this and this failure has been prevalent since the rise of computers Instead the book discusses the possibility of doing real empirical neuroscience by means of artificial materials that literally do what the brain does Inspired by Thomas Kuhn one of the most influential philosophers of science of the twentieth century this compendium proposes a fresh perspective on machine consciousness on AGI and more generally on how the machinery of science might need to change to accommodate it Science, Culture and Society Mark Erickson, 2005-09-23 In this easily accessible text Mark Erickson explains what science is and how it is carried out the nature of the relationship between science and society the representation of science in contemporary culture and how scientific institutions are structured **Praktiken der Frühen Neuzeit** Arndt Brendecke, 2015-09-16 Dieser Band reagiert auf das wachsende Interesse an historischen Praktiken Dabei kommen alte historiographische Tugenden zur Anwendung denn Geschichtsschreibung ist von ihren Anfängen an stark an Handlungen und Handlungsvollzügen interessiert an Fakten und ihrer Darstellung Zugleich muss jedoch neuen methodischen Reflexionen Raum gegeben werden denn es reicht nicht mehr aus Taten aus Ideen oder individuellen Entscheidungen abzuleiten Praktiken verfügen über eine Eigenlogik und damit auch über eine eigene Geschichte Diese zu erschließen nahm sich die Arbeitsgemeinschaft Frühe Neuzeit in ihrer zehnten Tagung vor Die wichtigsten Ergebnisse sind in diesem Band versammelt *Gender & Diversity Studies in MINT meets Naturwissenschaftsdidaktik* Sarah Huch, Martina Erlemann, 2024-09-01 Gender und dessen Zusammenwirken mit weiteren Diversity Dimensionen wie etwa soziale Herkunft

ein zugeschriebener Migrationshintergrund oder sexuelle Orientierung stehen an Hochschulen verstärkt im Fokus Gefordert sind dabei auch gender und diversitysensible Ausrichtungen der Forschung und Lehre der MINT Fächer sowie der hochschulischen Lehramtsausbildung für MINT Welche inhaltliche Relevanz haben Gender und Diversity Aspekte in Fachkultur Forschungsinhalten sowie im Wissenschaftsverständnis der Naturwissenschaften Wie strukturieren Geschlecht und andere soziale Differenzkategorien die Forschung Wie kann eine Gender und Diversity Kompetenzen vermittelnde Lehrer innenbildung aussehen Auf diese Fragen geben die interdisziplinären Beiträge der Wissenschaftler innen etwa aus Physik Biologie Medizin Feminist Science Technology Studies sowie die naturwissenschaftlichen Fachdidaktiken Antworten Ansätze sowie Wissensbestände der Gender Diversity Studies in MINT werden mit den gender und diversityausgerichteten Naturwissenschaftsdidaktiken zusammengeführt Mit vielfältigen Anregungen ermutigen sie zu einer gender und diversityorientierten Ausrichtung der eigenen Forschung und Lehre
