Sex the measure of all things : a life of Alfred C. Kinsey Jonathan Gathorne-Hardy, 2000 Kinsey Jonathan Gathorne-Hardy, 2004-10 A moving and humane portrait of one of this century's great researchers and social reformers

Personenlexikon der Sexualforschung Volkmar Sigusch, Günter Grau, 2009-09-14 Nach einem Vorlauf von mehr als drei Jahrzehnten des Suchens und Sammelns im Frankfurter Institut für Sexualwissenschaft legen in diesem Band 60 angesehene Forscherinnen und Forscher aus aller Welt 200 faszinierende Artikel über Leben und Werk bedeutender Sexualforscherinnen und Sexualforscher vor Hierzu gehen prominente Fachvertreter die Institute Zeitschriften oder Fachgesellschaften gründeten weichenstellende Kongresse abhielten Standardwerke verfassten Theorien entwickelten oder provozierende Hypothesen aufstellten Aber auch wenig bekannte zu ihrer Zeit und in ihrem Bereich jedoch nachhaltig wirkende Persönlichkeiten sowie Auenseiter denen die Sexualwissenschaft wichtige Impulse verdankt sind im vorliegenden Lexikon zu finden ebenso bekannte Philosophen und Soziologen wie etwa Michel Foucault Norbert Elias oder Niklas Luhmann Ein besonderes Anliegen ist den Herausgebern die Erschließung des Werkes jener jüdischen Sexualwissenschaftler die der Naziterror aus Deutschland vertrieben hat Es gibt kein vergleichbares Werk weltweit *George Platt Lynes* Allen Ellenzweig, 2021 A precocious American youth who entered the orbit of American and British expatriates populating Paris and the South of France in the 1920s George Platt Lynes went on to become a supremely assured portrait photographer documenting the great figures of literature painting opera and dance of mid twentieth century This new biography tells his story in full **Masculinity and the Other** Heather Ellis, Jessica Meyer, 2009-01-14 Histories of masculinity have generally examined both social ideologies of masculinity and subjective male identities within frameworks that define them against the feminine Yet historians and sociologists have increasingly argued that men have been and continue to be defined both socially and subjectively as much by their relations to other men as in relation to women This collection brings together the work of scholars of masculinities working in a variety of fields including literature history and art history to examine some of the forms of otherness against which ideas of masculinity have been defined throughout history The collection reflects the current breadth of scholarship relating to the study of masculine alterity While the subjects addressed are largely historical the time span covered is broad and the disciplinary approaches to the subject matter are equally wide ranging A huge variety of men masculine behaviours and definitions of masculinity are considered in an exciting and invigorating collection that showcases both established academics and emerging scholars in the field **Intellectual Morons** Daniel J. Flynn, 2004-09-21 Why do well educated antiwar activists call the president of the United States the new Hitler and argue that the U S government orchestrated the September 11 attacks Why does Al Gore believe that cars pose a mortal threat to the security of every nation Why does the Princeton professor known as the father of the animal rights movement object to humans eating animals but not to humans having sex with them and why does PETA defend that position In other words why

do smart people fall for stupid ideas The answer Daniel J Flynn reveals in *Intellectual Morons* is ideology Flynn the author of *Why the Left Hates America* shows how people can be so blinded to reality by the causes they serve that they espouse bizarre sometimes ridiculous and often dangerous positions The most influential social movements have spawned ideologues who do not care whether an idea is good or bad true or false but only whether it can serve their cause It is startling how many Americans and particularly how many media academic and political elites fall for bad ideas The trouble is their lies become institutionalized as truth and we all suffer as a result In *Intellectual Morons* Flynn reveals How rabid anti Americans simply parrot the delusional claims of a few gurus How the environmental movement spawned by a scientist whose doomsday predictions are almost always wrong has bred fanaticism stupidity and dishonesty How the hero of the animal rights crowd is a crank who promotes infanticide and euthanasia How a scientific fraud and pervert launched the sexual revolution How abortion rights activists ignore or cover up the fact that their matron saint advocated eugenics and concentration camps How our universities have become hothouses of leftist ideology How historians and journalists have airbrushed history to turn a racial separatist into a civil rights icon Filled with jaw dropping lapses in common sense from even our most celebrated opinion leaders *Intellectual Morons* is a welcome reality check for the glaring excesses of today's political and cultural debates This is a sophisticated pile driver of a book guiding us through the wiles of great luminaries of the netherworld And such liveliness in the writing and such erudition I was quite fascinated by *Intellectual Morons* William F Buckley Jr

Intellectual Morons is exceptionally aptly named The thought of all that brainpower going down the intellectual drain is sad but Daniel Flynn's description of it is hilariously on point This is must reading G Gordon Liddy *Intellectual Morons* is a delight a wonderful intellectual history of the past hundred years Flynn ably describes the purveyors of the bad ideas that have undermined our free society Burton W Folsom Jr professor of history Hillsdale College A famous bit of folk wisdom says You've got to stand for something or you'll fall for anything Some of the crackpot notions now fashionable in academic circles as here documented by Daniel Flynn suggest that saying is an understatement If you want to know how crazy and scary intellectual morons can get you have to read this book M Stanton Evans author of *The Theme Is Freedom* contributing editor to *Human Events*

Moral Apologetics for Contemporary Christians Mark Coppenger, Mark T. Coppenger, 2011 A respected Christian apologist thoughtfully pushes back against critics of the faith as well as cultural relativists arguing that Christianity is morally superior to its competitors and above all true

A Conservative History of the American Left Daniel J. Flynn, 2008-04-29 From Communes to the Clintons Why does Hillary Clinton crusade for government provided health care for every American for the redistribution of wealth and for child rearing to become a collective obligation Why does Al Gore say that it's okay to over represent the dangers of global warming in order to sell Americans on his draconian solutions Why does Michael Moore call religion a device to manipulate gullible Americans Where did these radical ideas come from And how did they enter the mainstream discourse In this groundbreaking and compelling new book Daniel J Flynn

uncovers the surprising origins of today's Left. The first work of its kind, *A Conservative History of the American Left* tells the story of this remarkably resilient extreme movement, one that came to America's shores with the earliest settlers. Flynn reveals a history that leftists themselves ignore, whitewash or obscure. Partly the Left's amnesia is convenient. Who wouldn't want to forget an ugly history that includes eugenics, racism, violence, and sheer quackery? Partly it is self-aggrandizing. Bold schemes sound much more innovative when you refuse to acknowledge that they have been tried and have failed many times before. And partly it is unavoidable. The Left is so preoccupied with its triumphal future that it doesn't pause to learn from its past mistakes. So it goes that would-be revolutionaries have repeatedly failed to recognize the one troubling obstacle to their grandiose visions: reality. In unfolding this history, Flynn presents a page-turning narrative filled with colorful, fascinating characters: progressives and populists, radicals and reformers, socialists and SDSers, and leftists of every other stripe. There is the rags-to-riches Welsh industrialist who brought his utopian vision to America, one in which private property, religion, and marriage represented the most monstrous evils, and gained audiences with the likes of Thomas Jefferson, John Adams, and James Madison. There is the wife-swapping Bible thumper who nominated Jesus Christ for president. There is the playboy adventurer whose worshipful accounts of Soviet Russia lured many American liberals to Communism. There is the daughter of privilege turned violent antiwar activist who lost her life to a bomb she had intended to use against American soldiers. There are fanatics and free spirits, perverts and puritans, entrepreneurs and altruists, and many more. Beyond *A Conservative History of the American Left* is a gripping chronicle of the radical visionaries who have relentlessly pursued their lofty ambitions to remake society. Ultimately, Flynn shows the destructiveness that comes from this undying pursuit of dreams that are utterly unattainable.

Men in the Middle James Gilbert, 2005-07. While the 1950s have been popularly portrayed on television and in the movies and literature as a conformist and conservative age, the decade is better understood as a revolutionary time for politics, economy, mass media, and family life. Magazines, films, newspapers, and television of the day scrutinized every aspect of this changing society, paying special attention to the lifestyles of the middle class men and their families who were moving to the suburbs, newly springing up outside American cities. Much of this attention focused on issues of masculinity, both to enforce accepted ideas and to understand serious departures from the norm. Neither a period of male crisis nor yet a time of free experimentation, the decade was marked by contradiction and a wide spectrum of role models. This was, in short, the age of Tennessee Williams as well as John Wayne. In *Men in the Middle*, James Gilbert uncovers a fascinating and extensive body of literature that confronts the problems and possibilities of expressing masculinity in the 1950s. Drawing on the biographies of men who explored manhood either in their writings or in their public personas, Gilbert examines the stories of several of the most important figures of the day: revivalist Billy Graham, playwright Tennessee Williams, sociologist David Riesman, sex researcher Alfred Kinsey, Playboy literary editor Auguste Comte Spector, and TV sitcom dad Ozzie Nelson, and allows us to see beyond the inherited stereotypes of the time. Each of these stories in Gilbert's hands adds crucial

dimensions to our understanding of masculinity the 1950s No longer will this era be seen solely in terms of the conformist man in the gray flannel suit or the Marlboro Man Zeitschrift für Sexualforschung ,2004 Biology and Ideology from Descartes to Dawkins Denis R.
