Sexing The Body:

Sexing the Body Anne Fausto-Sterling, 2008-08-04 This award winning classic examines the construction of sexual identity in biology society and history Why do some people prefer heterosexual love while others fancy the same sex Is sexual identity biologically determined or a product of convention In this brilliant and provocative book the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced Drawing on astonishing real life cases and a probing analysis of centuries of scientific research Fausto Sterling demonstrates how scientists have historically politicized the body In lively and impassioned prose she breaks down three key dualisms sex gender nature nurture and real constructed and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and as such should not be forced to compromise their differences to fit a flawed societal definition of normality

Sexing the Body Anne Fausto-Sterling, 2000-11 Discusses the causes and determining factors of gender behavior differences and sexual identity particularly biology and societal expectations and argues that differences between male and female are not always distinct

Masculinities, Sexualities and Child Sexual Abuse Anne Cossins, 2021-08-04 Why is child sexual abuse committed primarily by men and male adolescents unlike other forms of child abuse Is child sex offending rather than being a deviant masculine sexual practice related to normative masculine practices that is practices structured on dynamic and changing relations of power Using a practice based sociological approach the relationship between masculinities sexualities and child sexual abuse is analysed and the power powerlessness theory is developed to explain the predominantly male problem of child sex offending The theory postulates that because the social construction of masculinities involves the construction of dynamic and changing relations of power between men men s lives are characterised by a combination of power and powerlessness The book argues that an offender s experiences of powerlessness as a result of his relationships with other men is the key to understanding child sex offending since sexuality is a key social practice for the alleviation of experiences of powerlessness and for establishing relations of power with other men In particular the theory argues that a man s particular attachment to the link between sexuality and experiences of masculinity and power will be a key factor for determining how he does sex and whom he chooses as a sexual partner In the final chapter the theory is tested through a re analysis of offender interviews

Handbook of Gender Archaeology Marianne Moen, Unn Pedersen, 2024-12-02 This volume presents a comprehensive overview of gender archaeology both theory and practice and contributes a substantial and definitive reference work by bringing together state of the art research theoretical overviews and the latest debates in the field Responding to the shifts in the theoretical landscape and the societal and political frameworks within which we produce our knowledge chapters create both a solid theoretical baseline which help readers grasp the significance of gender in archaeology as well as offer perspectives on how to engender produced knowledge about the past In line with recent focus on the shortcomings of gender and archaeological representation chapters also detangle academic discourse and popular representations in order to present novel ways of successfully negotiating the pitfalls of gendered ideas about past behaviours By encouraging novel ways of integrating theoretical perspectives with scrutiny of gender stereotypes original empirical examinations of identity markers and behaviours and re examinations of static representations of identities through new lenses such as intersectional

perspectives personhood and materiality debates the volume is theoretically rich and will simultaneously provide a necessary benchmark for future archaeological discourses Finally it will incorporate perspectives from researchers with diverse backgrounds and viewpoints to provide a truly comprehensive overview It will not shy away from engaging with politically contentious issues surrounding knowledge production but will include perspectives from researchers whose focus is less on feminist critiques and more on gender and identities Thus the volume bridges the two most prominent directions currently discernible within the focus area namely feminist re examinations on the one hand and research focused more on bodily practice and gendered experiences on the other The Routledge Handbook of Gender Archaeology is an invaluable resource for students and researchers in gender archaeology as well as gender studies more widely Lethal Performances Otilie P. Klein, 2017 This book provides an in depth analysis of representations of female murderers in modern American drama Paying close attention to the plays plot form and style the study seeks to come to terms with the dramatic and cultural function of this phenomenon Given the rarity of female murder in real life the popularity and prevalence of this theme in culture is striking and unsettling at the same time After all a woman who kills not only violates against basic social rules but also upsets gender norms This potential to break with an ideology that rests on hierarchically structured gender binaries equips the figure of the female murderer with the power to symbolically kill established views about gender and sexuality It is this ideologically disruptive potential that makes the female murderer a fascinating object of study as her cultural figuration may provide information about the meaning assigned to women at a certain historical moment **The Eighteenth Century**, 2003 **Sexed Universals in Contemporary Art** Penny Florence, 2004 Published as part of the Aesthetics Today series and in conjunction with the School of Visual Arts Sourcebook in Forensic Serology, Immunology, and Biochemistry Robert E. Feminine Ruth M. B. Gouldbourne, 2006 Caspar Schwenckfeld and his movement exemplify one of the radical communities of the sixteenth century Challenging theological and liturgical norms they also found themselves challenging social and particularly gender assumptions In this book the issues of the relationship between radical theology and the understanding of gender are considered **Cardozo Journal of Law & Gender** ,2005 **Unzipping Gender** Charlotte Suthrell, 2004-04 How does culture shape notions of sexuality and gender Why are transvestites in the West so often seen as deviant or perverse while they are accepted in other societies What are the implications for the categories of male and female when considering transvestism Transvestism and its cultural practice is a useful lens through which we can view and thus debate models of sex gender and sexuality Drawing on primary fieldwork Unzipping Gender offers a cross cultural study of transvestism through an examination of transvestites in Britain and the Hijras of India The author tackles the critical question of whether or not transvestism is motivated primarily by sex or gender and she challenges the straightforward binary divide that dominates Western theories of gender Taking into account the importance of material culture she also pays close attention to the detail of dress and considers the artefactual nature of the construction of the self through clothing Highlighting the differences between the two groups and drawing on further cross cultural perspectives Suthrell illustrates the social construction of sex and gender She considers the roles that emotion mythology imagery and belief systems play in influencing ideas about sex and gender in different cultures Since sex and gender must inevitably be intertwined Suthrell argues for a more sophisticated response to the complex practice of transvestism In order to gain a deeper understanding of sex and gender issues it is imperative to examine the underlying social and symbolic structures This unique study across cultures leads the way **Frontiers** ,2012
