Sextants Of Beijing Global Currents In Chinese History:

The Sextants of Beijing Joanna Waley-Cohen, 2013-08-05 This powerful work puts to rest the long held myth that Chinese civilization is monolithic unchanging and perennially cut off from the rest of the world An inviting history of China from the days of the ancient Silk Road to the present this book describes a civilization more open and engaged with the rest of the world than we think Whether in trade religious belief ideology or technology China has long taken part in fruitful exchange with other cultures With implications for our understanding of and our policies toward China this is a must read

Geschichte Chinas 1279-1949 Sabine Dabringhaus, 2015-05-19 China zieht derzeit die Aufmerksamkeit von europäischer Wirtschaft und Wissenschaft auf sich Um sich diesem großen bevölkerungsreichsten Land zu nähern sind Kenntnisse über dessen Geschichte unabdingbar Sabine Dabringhaus kompakte deutschsprachige Einführung führt in die chinesische Geschichte vom Beginn der Yuan Dynastie bis zu Maos Machtübernahme ein und erschließt damit die wichtigsten politischen gesellschaftlichen und kulturellen Entwicklungen von knapp 700 Jahren chinesischer Geschichte Entsprechend der bewährten Dreiteilung im Grundriss eröffnet ihr Forschungsüberblick Neulingen wie erfahrenen Studierenden die wichtigsten Themen der Forschung wie etwa den chinesischen Staat Fragen der Periodisierung und Interpretation Chinas Außenbeziehungen und Gesellschaftsstruktur Modernisierung Reform und Revolution Eine umfangreiche thematisch gegliederte Bibliographie schließt auch die bearbeitete dritte Auflage ab Ursprünge des modernen Wirtschaftswachstums Peer Vries, 2013-10-23 On the one hand the rich industrialized countries on the other the poor developing and emerging nations Beginning in the 18th century Europe experienced enormous economic development surpassing that of the rest of the world What are the reasons Chance exploitation inherent circumstances in Europe The disparate relationship between the different parts of the world still exists and continues to challenge historians to produce plausible explanations In this volume Peer Vries makes well founded and masterful arguments concerning the reasons behind these developments and offers his own complex explanation *Globalgeschichte* Sebastian Conrad, 2013-04-10 Globalgeschichte ist in den letzten Jahren zu einem der wichtigsten Felder der Geschichtswissenschaft geworden Aber was ist unter dem Begriff genau zu verstehen Sebastian Conrad führt in diesem Buch anschaulich und anhand konkreter Beispiele in das Forschungsfeld ein und stellt die zentralen Fragen und Theorien sowie die wichtigsten Themen und Kontroversen vor In der globalisierten Welt der Gegenwart lässt sich Geschichte nicht mehr so selbstverständlich wie früher auf die Geschichte einzelner Länder beschränken Stattdessen hat das Interesse an grenzüberschreitenden Prozessen und globalen Verflechtungen sprunghaft zugenommen Wie aber schreibt man Globalgeschichte und was ist ihr Gegenstand Geht es um die Geschichte des gesamten Planeten Um die Geschichte der menschlichen Spezies gar um Big History die Zeit seit dem Urknall Oder handelt es sich eher um eine bestimmte Perspektive anhand derer auch die Geschichte eines kleinen Dorfes untersucht werden kann Welche Fragen lassen sich in globaler Perspektive besser beantworten welche Zusammenhänge kommen dadurch erst in den Blick Sebastian Conrad neben Jürgen

Osterhammel wohl der bekannteste Vertreter der Globalgeschichte in Deutschland führt in die wichtigsten Fragen und Themen aber auch die Herausforderungen und die Kritik an der Globalgeschichte ein und zeigt dass das Denken in globalen Horizonten keineswegs eine neue Erfindung ist und auch keine Errungenschaft des Westens allein *China's Quest for Global Order* Rosita Dellios, R. James Ferguson, 2012-12-13 The rise of China has become a ubiquitous and often menacing term in global politics China's Quest for Global Order From Peaceful Rise to Harmonious World by Rosita Dellios PhD and R. James Ferguson PhD examines how China's leadership has responded to this depiction and the strategic approaches that have been developed to ameliorate threat perceptions Rather than simply reassuring others that its rise is peaceful China has taken proactive steps to reduce possible conflicts Beijing seeks to shape the emerging global governance order as both non-threatening to itself and productive in transnational problem solving Borrowing from its own Confucian heritage to promote a harmonious world policy China's contribution to world order is likely to be more robust than the responsible stakeholder epithet upon which the West has pinned its collective hopes The book interprets China's quest for global order from Chinese perspectives old and new and provides the relevant philosophical and historical background to engage the reader in the ensuing debates The authors also contextualize Chinese concepts with those from contemporary international relations strategic studies and systems thinking Their resultant contributions to existing analyses include the notion of Confucian geopolitics and the interplay between strategic theatres of cooperation and protection *Global Conjectures* William C. Kirby, Mechthild Leutner, Klaus Mühlhahn, 2006 This volume deals with the integration of modern China into processes of global exchange and cross border interaction The articles explore the broader theme in different ways and in different subfields ranging from the history of political ideas to the history of institutions from global migration of people to the transmigration of academic discourses Focusing on modern as well as contemporary periods the studies demonstrate that China in the course of the twentieth century became an ever more important nodal point in a complex set of worldwide networks and engagements The integration into global networks together with the global consciousness that corresponded with it made possible significant connections transcending national borders The essays also show that the effects could be homogenizing or globalizing but at the same time the growing interactions also produced opposition and fragmentation

The Opium War Julia Lovell, 2011-09-02 A gripping read as well as an important one Rana Mitter Guardian In October 1839 Britain entered the first Opium War with China Its brutality notwithstanding the conflict was also threaded with tragicomedy with Victorian hypocrisy bureaucratic fumbblings military missteps political opportunism and collaboration Yet over the past hundred and seventy years this strange tale of misunderstanding incompetence and compromise has become the founding episode of modern Chinese nationalism Starting from this first conflict The Opium War explores how China's national myths mould its interactions with the outside world how public memory is spun to serve the present and how delusion and prejudice have bedevilled its relationship with the modern West Lively erudite and meticulously researched

Literary Review An important reminder of how the memory of the Opium War continues to cast a dark shadow Sunday Times
Berliner China-Hefte ,2004 *Interpreting Our World* Joseph J. Kerski,2016-10-17 This important book demonstrates why geography matters in the modern day world through its examination of 100 moments throughout history that had a significant impact on the study of geography literally writing about the earth Geography is not simply accounts of the lands of earth and their features it s about discovering everything there is to know about our planet This book shows why geography is of critical importance to our world s 21st century inhabitants through an exploration of the past and present discoveries that have been made about the earth It pinpoints 100 moments throughout history that had a significant impact on the study of geography and the understanding of our world including widely accepted maps of the ancient world writings and discoveries of key thinkers and philosophers key exploration events and findings during the Age of Discovery the foundations of important geographic organizations and inventions in digital mapping The book begins with a clear explanation of geography as a discipline a framework and a way of viewing the world followed by coverage of each of the 100 discoveries and innovations that provides sufficient background and content for readers to understand each topic The book concludes with a concise synopsis of why it all matters and a look forward to 10 possible future discoveries in the next 50 years of geography Students will gain a clear sense of what is truly revolutionary about geography perhaps challenging their preconceived notion of what geography actually is and grasp how important discoveries revolutionized not only the past but the present day as well *Michigan Law Review* ,2002 **Wu Li (1632-1718)** Xiaoping Lin,2001 By constructing this work in biographical sequence focusing in particular on Wu Li s intellectual development and how it affected his artistic creation and by examining selected pieces in both philosophical and pictorial terms Xiaoping Lin has created a comprehensive study of Wu Li s life and art *Framing the Enemy* Lisa W. Holstein,2002 **Kolonialer Wettstreit** Sören Urbansky,2008 The Three Great Campaigns of the Wanli Emperor, 1592-1600 Kenneth Swope,2001 My project focuses on the Three Great Punitive Campaigns of the Wanli Emperor Wanli san da zheng which took place in rapid succession in three vastly different frontier regions While these campaigns are well known to scholars scant attention has been paid to the rich primary sources which discuss them These source materials include eyewitness accounts diaries memorials to the throne letters between officials dispatches from the battlefield and imperial decrees *Diaspora* ,2001 *The Human Venture* Anthony Esler,2004 An understanding of the history of the world and understanding why this knowledge is important has become essential for today s students Benefiting from the unifying viewpoint of a single author this lively two volume narrative tells the story of human events on the move the exciting event history of wars and politics booms and busts the rise and fall of empires and more It also reaches beyond the events that have shaped world history to trace the broader development of human institutions and ideas as they evolve through time Special attention to art and ideas in each period and civilization **Program of the ...
