The Great Transformation Karen Armstrong, 2009-02-24 From one of the world's leading writers on religion and the highly acclaimed author of the bestselling *A History of God* *The Battle for God* and *The Spiral Staircase* comes a major new work a chronicle of one of the most important intellectual revolutions in world history and its relevance to our own time In one astonishing short period the ninth century BCE the peoples of four distinct regions of the civilized world created the religious and philosophical traditions that have continued to nourish humanity into the present day Confucianism and Daoism in China Hinduism and Buddhism in India monotheism in Israel and philosophical rationalism in Greece Historians call this the Axial Age because of its central importance to humanity's spiritual development Now Karen Armstrong traces the rise and development of this transformative moment in history examining the brilliant contributions to these traditions made by such figures as the Buddha Socrates Confucius and Ezekiel Armstrong makes clear that despite some differences of emphasis there was remarkable consensus among these religions and philosophies each insisted on the primacy of compassion over hatred and violence She illuminates what this family resemblance reveals about the religious impulse and quest of humankind And she goes beyond spiritual archaeology delving into the ways in which these Axial Age beliefs can present an instructive and thought provoking challenge to the ways we think about and practice religion today A revelation of humankind's early shared imperatives yearnings and inspired solutions as salutary as it is fascinating Excerpt from *The Great Transformation* In our global world we can no longer afford a parochial or exclusive vision We must learn to live and behave as though people in remote parts of the globe were as important as ourselves The sages of the Axial Age did not create their compassionate ethic in idyllic circumstances Each tradition developed in societies like our own that were torn apart by violence and warfare as never before indeed the first catalyst of religious change was usually a visceral rejection of the aggression that the sages witnessed all around them All the great traditions that were created at this time are in agreement about the supreme importance of charity and benevolence and this tells us something important about our humanity The Dictionary Historical and Critical of Mr. Peter Bayle Pierre Bayle, Pierre Desmaizeaux, 1739 **The Literary World**, 1899 Neue Jahrbücher für Philologie und Pädagogik, 1881 *Deutsche Literaturzeitung*, 1911 **Geschichte der griechischen Literatur** Wilhelm von Christ, Wilhelm Schmid, 1974 **Bibliotheca philologica oder Geordnete Übersicht aller auf dem Gebiet der classischen Altertumswissenschaft wie älteren und neueren Sprachwissenschaft neu erschienenen Bücher**, 1881 *Deutsche Literaturzeitung, Wochenschrift für Kritik der Internationalen Wissenschaft*, 1911 **The Parisian Jesuits and the Enlightenment** Catherine M. Northeast, 1991 One of the most fruitful developments in Enlightenment historiography in recent years has been an increased awareness of the social conditions of intellectual activity Studies of reading writing and publishing in eighteenth century France have emphasised the shared ground between Catholics and non Catholics by casting the philosophes in a conservative light as

would be infiltrators of existing cultural institutions Members of the patrician Enlightenment like Voltaire Montesquieu or Diderot shared with Catholic writers common publishing constraints common personal aspirations and above all common notions of the cultivated audience they wished to address The first chapter seeks to situate the Jesuit hommes de lettres within their social environment the literary and journalistic milieux of Paris to consider the assumptions which governed their literary relations and to examine the limits of mutual toleration between the Society of Jesus and anti Christian writers This forms the essential background for the more conventional history of ideas which follows The three central chapters on philosophy criticism and the treatment of pagan religions focus on the actual nature of Enlightenment irreligion The aim is neither to provide a comprehensive survey of Jesuit thought in these areas nor simply to catalogue the Society's response to the philosophes but rather to isolate key problems which arose for the Jesuits in their account of Christianity Judging from the Jesuit experience should eighteenth century Catholic thought best be conceived as a fixed orthodoxy or as the result of a complex process of intellectual change and readjustment involving both Christians and unbelievers
