Growing Pains Edna M. Irwin, 2013-10-23 First Published in 1978 Working with adolescents is never easy as any school teacher will confirm Working with psychiatrically disturbed adolescents is a highly complex and demanding task which requires a certain type of dedication which relatively few people possess This is true of all the personnel concerned whether they be from psychiatric social work nursing or other disciplines People who can work successfully with the disturbed adolescent are therefore a highly selected group and the group is quite a small one However although their numbers are small their work is very important This is a fairly new field and it is one about which people either professional or lay know very little Therefore it seems right to illumine this area for the non specialist and this is what Dr Irwin has set out to do in this book

Boğaziçi University journal, 1979

Christian Attitudes to Homosexuality Peter Everard Coleman, 1980 With no serious rivals to its comprehensive treatment this major work contains a clear account of the development of medical and psychological views an exceptionally thorough review of the biblical texts and their interpretation both past and present a historical survey of Christian attitudes including the notable contribution to welfare and law reform and an account of the shift in the Christian ethical judgement from hostility to tolerance and towards acceptance Peter Coleman who trained first for the Bar and then as a priest is married with four children Much of his ministry has been among students and he is now a Residentiary Canon and Director of the Bristol School for Ministry He

teaches Christian Ethics at Bristol University and has been a member of the General Synod working party on Homosexuality of 1979 This detailed un polemical study of the wide range of Christian attitudes towards homosexuality is an important contribution to the present debate in all the Christian Churches It sets out fully and ecumenically the biblical historical and legal background to what has become a test case for modern Christian ethics Back cover Body Talk Jane Ussher,2002-01-04 Psychology has traditionally examined human experience from a realist perspective focusing on observable facts This is especially so in areas of psychology which focus on the body such as sexuality madness or reproduction In contrast many sociologists anthropologists and feminists have focused exclusively on the cultural and communicative aspects of the body treating it purely as an object constructed within socio cultural discourse This new collection of sophisticated discursive analyses explores this divide from a variety of theoretical standpoints including psychoanalysis social representations theory feminist theory critical realism post structuralism and social constructionism Body Talk reconciles the divide by putting forward a new materialist discursive approach It also provides an introduction to social constructionist and discursive approaches which is accessible to those with limited previous knowledge of socio linguistic theory and showcases the distinctive contribution that psychologists can make to the field Philosophy And Homosexuality Noretta Koertge,2014-05-01 For a balanced discussion of the main social medical and philosophical aspects of homosexuality here is the ideal book Written by philosophers of science each comprehensive chapter takes a critical look at research on the etiology of homosexuality Read Philosophy and Homosexuality and examine the evidence for both the sociobiological and hormonal explanations of homosexuality and study the definitions of sexual orientation and how they have affected research British Books in Print ,1971 **Treatment of Sexual Dysfunction** William E. Hartman,Marilyn Fithian,1972 This text presents the technical procedures of the treatment of sexual dysfunction during a two week therapy programme Elucidating the theory and practice of sexual therapy the book provides the information therapists need to work competently with complex and conflicted sexual experiences *Paperbacks in Print* ,1975 At the Handles of the Lock David Aberbach,1984 This is the first serious attempt to analyse the development and variation of themes in the work of S J Agnon 1888 1970 winner of the Nobel Prize for literature in 1966 In particular the author looks at psychological themes allowing his approach to be determined by the nature and style of the works themselves rather than attempting to fit them into any one psychoanalytical framework *Paperbound Books in Print* ,1970 **Howard Journal of Penology and Crime Prevention** Howard League for Penal Reform,1977 **Understanding Mental Illness and Its Nursing** Kerith Lloyd Kinsey Trick,S.
