Sexuality And Motherhood:

Mothers, Sex, And Sexuality Michelle Walks, Joani Mortenson, Holly Zwalf, 2020-06-01 *Mothers Sex and Sexuality* talks about things not normally dared spoken out loud the interconnectedness and conflict between our parental and sexual selves the taboo of the sexual mother and why it matters so much to shatter it What is it about the sexual mother that is incompatible and at times even disturbing Why are we threatened by maternal sexuality And what does this tell us about the structures of gender and power that govern our bodies *Mothers Sex and Sexuality* presents a rigorous academic analysis of the myriad ways in which the sexual maternal divide affects women birthing people and those of us who assume or are ascribed the title mother We examine the way we as mothers talk to our daughters about sex the way we talk about sex in a cultural context and the deafening silence around sex in a medical system that overlooks maternal sexuality We return repeatedly to the impact of both Christianity and Hinduism on the mother as someone to be revered but tightly controlled We embrace the lost eroticism of mothering and hail breastfeeding as a sexual maternal practice arguing for a new broader feminist understanding of sexuality We discuss the way fat mothers destabilise the heteronormative maternal model the way kinky queers are reconfiguring the sexual maternal divide through erotic role play and we explore the strange intense and romantic domestic relationship that springs up between mothers and nannies two heterosexual women trapped together in a homoerotic triangulation of need and desire In a titillating climax we revel in the sexual maternal as embodied through performance art poetry installations and comedy disrupting queer readings of bodies as we are invited to both fuck and fuck with the maternal This book boldly provides both a challenge to the patriarchal constraints of motherhood and a racy road map escape route out of the sexual maternal dichotomy

Motherhood and Sexuality Marie Langer, 1992 In *Motherhood and Sexuality* one of Latin America's most prominent psychoanalysts interprets the sources of modern woman's unconscious conflicts Available for the first time to an English speaking audience the book is as illuminating today as it was when it was first released Marie Langer argues that economic institutions and cultural values must be altered to permit women full participation in creative and productive activities if women are to accept their maternal role without conflict or resentment Within this context her work presents a rare exploration of psychosomatic disorders related to female reproductive life The book demonstrates the centrality of the mother daughter relationship to each woman's potential to embrace her experience as a sexual being and mother Combining psychoanalytic theory with fascinating clinical material chapters cover woman's conflictual relationship to menstruation sexuality pregnancy infertility childbirth breast feeding and menopause Withstanding the test of time Langer's interpretation of the psychological dimension of the causes and meanings of infertility for example provides an in depth treatment of a topic that is even more relevant today than when it was written Throughout Nancy Caro Hollander has added critical chapter notes to indicate the changes in Langer's thinking since the book was published and to relate Langer's perspectives to contemporary ideas about female sexuality and motherhood In addition Hollander's

Introduction and Afterword provide an overview of Langer's life and trace the development of her ideas. Integrating a Kleinian perspective on the unconscious roots of female psychosexual development with a political understanding of the socially constructed impediments to women's equality, this book fills an important gap in the literature. It is valuable reading for psychologists, psychoanalysts and other mental health professionals interested in questions of femininity, gender identity and the inherently conflictual realms of female sexuality and motherhood. Instructors in women's studies and Latin American studies programs will find it an important resource for their students. BOOK JACKET Title Summary field provided by Blackwell North America Inc. Motherhood in Mexican Cinema, 1941-1991 Isabel Arredondo, 2013-12-19. How were femininity and motherhood understood in Mexican cinema from the 1940s to the early 1990s? Film analysis, interviews with filmmakers, academic articles and film reviews from newspapers are used to answer the question and trace the changes in such depictions. Images of mothers in films by so-called third wave filmmakers Busi Cortes, Maria Novaro, Dana Rotberg and Marisa Sistach are contrasted with those in Mexican classical films 1935-1950 and films from the 1970s and 1980s. There are some surprising conclusions. The most important restrictions in the depiction of mothers in classical cinema came not from the strict sexual norms of the 1940s but in reactions to women shown as having autonomous identities. Also in contrast to classical films, third wave films show a woman's problems within a social dimension, making motherhood political in relation not to militancy within the left but to women's issues. Third wave films approach the problems of Latin American society as those of individuals differentiated by gender, sexuality and ethnicity; in such films mothers are citizens directly affected by laws, economic policies and cultural beliefs.

Sexual Democracy Ann Ferguson, 2019-09-16. The Neutered Mother, The Sexual Family and Other Twentieth Century Tragedies Martha Albertson Fineman,2014-04-04 Calling for nothing less than a radical reform of family law and a reconception of intimacy The Neutered Mother The Sexual Family and Other Twentieth Century Tragedies argues strongly against current legal and social policy discussions about the family because they do not have at their core the crucial concepts of caregiving and dependency as well as the best interests of women and children The Neutered Mother scrutinizes the definitions of family and mother throughout the volume while paying close attention to issues of race class and sexuality In addition Fineman convincingly contests society's refusal to dignify support and respond to the needs of caregivers and illustrates the burden they must bear due to this treatment This book is a crucial step toward defining America's most pressing social policy problems having to do with women motherhood and the family
