suggested a more lasting noticeable monument a proper as the English say book which would draw contributions from both SIECUS and non SIECUS scholars 1 was too clever to be trapped as editor in a 1974 preface I had written I swore 1 wouldn't edit another book And so I seduced Lorna Brown into being editor I contacted a few potential contributors suggested a few others convinced Leonard Pace at Plenum Press that this was a worthwhile venture and left the country To my amazement six months after settling in Cambridge England the rough draft of the book arrived along with a reminder from Lorna that during the seduction I had promised to write an Introduction
