Science Fiction and Indian Women Writers Urvashi Kuhad, 2021-07-29 Science fiction as a literature of fantasy goes beyond the mundane to ask the question what if the world were different from the way it is. It often challenges the real, builds on imagination, places no limits on human capacities and encourages readers to think outside their social and cultural conditioning. This book presents a systematic study of Indian women's science fiction. It offers a critical analysis of the works of four female Indian writers of science fiction: Rokeya Sakhawat Hossain, Manjula Padmanabhan, Priya Sarukkai Chabria, and Vandana Singh. The author considers not only the evolution of science fiction writing in India but also discusses the use of innovations and unique themes including science fiction in different Indian languages, the literary, political, and educational activism of the women writers, and eco-feminism and the idea of cloning in writing to argue that this genre could be viewed as a vibrant representation of freedom of expression and radical literature. This ground-breaking volume will be useful for scholars and researchers of English literature. It will also prove a very useful source for further studies into Indian literature, science and technology studies, women's and gender studies, comparative literature, and cultural studies. *The Year's Best Science Fiction: Twenty-Ninth Annual Collection* Gardner Dozois, 2012-07-03 In the new millennium, what secrets lay beyond the far reaches of the universe? Now in *The Year's Best Science Fiction: Twenty-Ninth Annual Collection*, the very best SF authors explore ideas of a new world. In *The Year's Best Science Fiction: Twenty-third Annual Collection*, our very best SF authors explore ideas of a new world with such compelling stories as *Beyond the Aquila Rift*. In a world not quite like our own, bestselling author Harry Turtledove shows us that there are reasons some species have become extinct. The twenty-nine stories in this collection imaginatively take us far across the universe into the very core of our beings, to the realm of the gods and the moment just after now.
