Competition Policy and Global Competitiveness in Major Asian Economies Van Hoa Tran, 2003 This text reveals how competition policy and competitiveness are crucial to contemporary economic financial and trade management as well as national and international governance and focuses on contemporary major Asian economies facing increasing globalization and the prevailing influence of the WTO

Trade Policy Review, 1992 *Education and State Formation* A. Green, 2013-10-23 Education has always been a key instrument of nation building in new states National education systems have typically been used to assimilate immigrants to promote established religious doctrines to spread the standard form of

national languages and to forge national identities and national cultures They helped construct the very subjectivities of citizenship justifying the ways of the state to the people and the duties of the people to the state In this second edition of his seminal and widely acclaimed book on the origins of public education in England France Prussia and the USA Andy Green shows how education has also been used as a tool of successful state formation in the developmental states of East Asia While human capital theories have focused on how schools and colleges supply the skills for economic growth Green shows how the forming of citizens and national identities through education has often provided the necessary condition for both economic and social development

The New Zealand Economy Stuart Birks, Srikanta Chatterjee, 2001 *Singapore's Success* Henri C. Ghesquière, 2007 This monograph seeks the key to good economic policy by explaining Singapore's remarkably rapid development the world's fastest growing economy between 1960 and 2000 and asks whether the city state's success can be translated to other countries Engineering prosperity is at the heart of Singapore The book demonstrates how exceptional cohesion amongst economic outcomes policies institutions values and leadership over a long period account for the impressive results obtained The author is careful not to present Singapore as a model to be copied uncritically in its specifics but as a case history that illustrates general principles which other countries might wish to apply to their particular circumstances Well researched yet highly readable Singapore's Success Engineering Economic Growth will appeal to Singaporeans and a wide international audience including policy makers and advisors students of development economics and anyone interested in the quest for sustained economic growth
