Essentials of Excel VBA, Python, and R John Lee, Cheng-Few Lee, 2023-01-02 This advanced textbook for business statistics teaches statistical analyses and research methods utilizing business case studies and financial data with the applications of Excel VBA, Python, and R. Each chapter engages the reader with sample data drawn from individual stocks, stock indices, options, and futures. Now in its second edition, it has been expanded into two volumes, each of which is devoted to specific parts of the business analytics curriculum. To reflect the current age of data science and machine learning, the used applications have been updated from Minitab and SAS to Python and R so that readers will be better prepared for the current industry. This first volume is designed for advanced courses in financial statistics, investment analysis, and portfolio management. It is also a comprehensive reference for active statistical finance scholars and business analysts who are looking to upgrade their toolkits. Readers can look to the second volume for dedicated content on financial derivatives, risk management, and machine learning.

Essentials of Excel, Excel VBA, SAS and Minitab for Statistical and Financial Analyses Cheng-Few Lee, John Lee, Jow-Ran Chang, Tzu Tai, 2016-11-24 This introductory textbook for business statistics teaches statistical analysis and research methods via business case studies and financial data using Excel, Minitab, and SAS. Every chapter in this textbook engages the reader with data of individual stock, stock indices, options, and futures. One studies and uses statistics to learn how to study, analyze, and understand a data set of particular interest. Some of the more popular statistical programs that have been developed to use statistical and computational methods to analyze data sets

are SAS SPSS and Minitab Of those we look at Minitab and SAS in this textbook One of the main reasons to use Minitab is that it is the easiest to use among the popular statistical programs We look at SAS because it is the leading statistical package used in industry We also utilize the much less costly and ubiquitous Microsoft Excel to do statistical analysis as the benefits of Excel have become widely recognized in the academic world and its analytical capabilities extend to about 90 percent of statistical analysis done in the business world We demonstrate much of our statistical analysis using Excel and double check the analysis and outcomes using Minitab and SAS also helpful in some analytical methods not possible or practical to do in Excel
