Shades Of The Sunbelt:

A Companion to the American South John B. Boles, 2008-04-15 A Companion to the American South surveys and evaluates the most important and innovative writing on the entire sweep of the history of the southern United States. Contains 29 original essays by leading experts in American Southern history. Covers the entire sweep of Southern history including slavery, politics, the Civil War, race relations, religion, and women's history. Surveys and evaluates the best scholarship on every important era and topic. Summarizes current debates and anticipates future concerns. **The Future South** Joe P. Dunn, Howard Lawrence Preston, 1991 *The Immigration History Newsletter*, 1989 *The Journal of Mississippi History*, 1989 Includes section Book reviews *The South Through Time* John B. Boles, 1995 Rich in tradition the southern portion of the United States has provided the backdrop for some of the most significant historical events in American history. *The South Through Time* offers an inclusive interpretative account providing a comprehensive examination that places in context major events including slavery and civil rights without neglecting the overall contour of southern history. **Homelands** Leonard Rogoff, 2001-08-15 Blends oral history, documentary studies, and quantitative research to present a colorful local history with much to say about multicultural identity in the South. *Homelands* is a case study of a unique ethnic group in North America: small town southern Jews. Both Jews and southerners, Leonard Rogoff points out, have long struggled with questions of identity and whether to retain their differences or try to assimilate into the national culture. Rogoff shows how, as immigrant Jews became small town southerners, they constantly renegotiated their identities and reinvented their histories. The Durham Chapel Hill Jewish community was formed during the 1880s and 1890s when the South was recovering from the Reconstruction era and Jews were experiencing ever growing immigration as well as challenging the religious traditionalism of the previous 4 000 years. Durham and Chapel Hill Jews, recent arrivals from the traditional societies of eastern Europe, assimilated and secularized as they lessened their differences with other Americans. Some Jews assimilated through intermarriage and conversion, but the trajectory of the community as a whole was toward retaining their religious and ethnic differences while attempting to integrate with their neighbors. The Durham Chapel Hill area is uniquely suited to the study of the southern Jewish experience, Rogoff maintains, because the region is exemplary of two major trends: the national population movement southward and the rise of Jews into the professions. The Jewish peddler and storekeeper of the 1880s and the doctor and professor of the 1990s, Rogoff says, are representative figures of both Jewish upward mobility and southern progress. **The New African American Urban History** Kenneth W. Goings, Raymond A. Mohl, 1996-05-20 In recent decades an exciting new scholarship has emerged that is changing the way African American urban history is perceived. While earlier studies often portrayed African Americans as passive and powerless or as victims of white racism and slum pathologies, *The New African American Urban History* emphasizes the new scholarship that conveys a sense of active involvement. It supports the view of African Americans as people empowered, engaged in struggle, living their lives with

dignity and shaping their own futures In this perceptive volume contributors examine the great modern migrations of African Americans to the city the creation and expansion of black communities and black life and culture with special emphasis on working class culture This collection of essays written by prominent scholars comes together in perfect harmony with a common thematic approach and interpretive analysis which has shaped new writing in the field for the past decade Both groundbreaking and inspiring *The New African American Urban History* will prove to be an invaluable resource for students and professionals in urban and ethnic studies

Poor People's Social Movement Organizations Melvin F. Hall,1995-07-17 The goal of this book is to join social movement analysis with collective action theory To that end the author introduces the organizational empowerment model of collective action All social movement theories lack a discussion of the influence of movement organization on the tactics of an organization A national survey of social movement organizations is employed to develop a model of how the organizational features of the local group competition among social movement organizations the political settings of the organization and organizational empowerment influence collective action style This model will allow for testing some long held assumptions about organizational change as well as assumptions about the efficacy of poor people organized to achieve change

Our Southern Zion Erskine Clarke,1996-01-30 An exploration of the ways a particular religious tradition and a distinct social context have interacted over a 300 year period including the unique story of the oldest and largest African American Calvinist community in America The South Carolina low country has long been regarded not only in popular imagination and paperback novels but also by respected scholars as a region dominated by what earlier historians called a cavalier spirit and by what later historians have simply described as a wholehearted devotion to amusement and the neglect of religion and intellectual pursuits Such images of the low country have been powerful interpreters of the region because they have had some foundation in social and cultural realities It is a thesis of this study however that there has been a strong Calvinist community in the Carolina low country since its establishment as a British colony and that this community including in its membership both whites and after the 1740s significant numbers of African Americans contradicts many of the images of the received version of the region Rather than a devotion to amusement and a

neglect of religion and intellectual interests this community has been marked throughout most of its history by its disciplined religious life its intellectual pursuits and its work ethic *Book Review Index Cumulation, 1989* Neil E. Walker, Beverly Baer, 1990-04 The Index provides a broad coverage and access to book reviews in the general social sciences humanities sciences and fine arts as well as general interest magazines and includes journals from Great Britain Canada Switzerland Israel and Australia In addition it indexes several journals that while published in the US concentrate on reviewing foreign published or foreign language books These include Hispania French Review German Quarterly and World Literature Today

Social History of the United States Laurie Mercier, 2008-10-23 This ten volume encyclopedia explores the social history of 20th century America in rich authoritative detail decade by decade through the eyes of its everyday citizens

"They All Came from Someplace Else" Melanie Rebecca Shell-Weiss, 2002 Urban America David R. Goldfield, Blaine A. Brownell, 1990 The second edition of Urban America like the first edition is distinguished by its emphasis on the spatial relationships within and between cities This emphasis a study of the geographical patterns of residential commercial political and cultural development allows a balanced flexible examination of the varied aspects of urban life It permits a comprehensive look at the social economic political and cultural history of the city At the same time this edition minimizes its review of spatial theory many students and instructors told us the theoretical material tended to encumber rather than enlighten Preface
